A Sub-Fund of AXA World Funds SICAV
Share class: AXA World Funds - Digital Economy F (Hedged) Capitalisation GBP (ISIN : LU1694772135)
This Sub-Fund is managed by BNP PARIBAS ASSET MANAGEMENT EUROPE SAS (« BNPP AM »), part of BNP Paribas S.A. Group

Objectives and Investment Policy

Investment Objective

The Sub-Fund seeks to provide long-term growth, in USD, from an actively managed listed equity and equity-related securities portfolio.

Investment Policy

The Sub-Fund is actively managed and references MSCI AC World Total Return Net (the "Benchmark") for comparative purposes only. The Investment Manager has full discretion over the composition of the portfolio of the Sub-Fund and can take exposure to companies, countries or sectors not included in the Benchmark. There are no restrictions on the extent to which the Sub-Fund's portfolio and performance may deviate from the ones of the Benchmark.
The Sub-Fund invests in equities of large, medium and small sized companies in developed and emerging markets.
Specifically, at all times the Sub-Fund invests at least two thirds of its net assets in equities and equity-related securities of companies active in the overall value chain of the digital economy, from the customers' initial discovery of products and services, to the buying decision and then the final payment and delivery, and also in the technology enablers providing support and data analysis to develop companies' digital presence.
The Sub-Fund may also invest up to 20% of its net assets in money market instruments and up to 10% of net assets in Chinese A Shares listed in the Shanghai Hong-Kong Stock Connect.
The Sub-Fund may invest up to 10% of net assets in UCITS and/or UCIs. The investment manager uses a strategy that combines macro-economic, sector and company specific analysis. The securities selection process relies on a rigorous analysis and selection of high quality companies which typically include strong management teams, robust business models and where the expanding digital economy is expected to have a material positive impact on their financial results on a mid to long term basis.
Within a limit of 200% of the Sub-Fund's net assets, the investment strategy may be achieved by direct investments and/or through derivatives. Derivatives may be used for efficient portfolio management and hedging purposes.

The Sub-Fund is a financial product that promotes environmental and/or social characteristics within the meaning of article 8 of the Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial sector.

The Share Class aims at hedging the foreign exchange risk resulting from the divergence between the reference currency of the Sub-Fund and the currency of this Share Class by using derivatives instruments whilst retaining the exposure to Investment Policy of the Sub-Fund.

Income

For Capitalisation share classes (Cap), the dividend is reinvested.

Sub-Fund Currency

The reference currency of the Sub-Fund is USD.

Investment Horizon

This Sub-Fund may not be suitable for investors who plan to withdraw their contribution within 5 years.

Past Performance

	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025
				29.9	49.5	12.1	-42.2	35.6	14.6	4.6
				21.7	12.7	19.6	-8.1	15.3	19.6	13.9

Past performance is not a reliable indicator of future results.

Past performance is shown after the deduction of ongoing charges. Any entry/exit fees are excluded from the calculation.

The Sub-Fund was launched on 24/10/2017 and the share class in 2018.

Past performance has been calculated in GBP and is expressed as a percentage change of the Sub-Fund's Net Asset Value at each year end.

The performance of the Sub-Fund is not tracking the benchmark index.
For the different shareclasses of the Sub-Fund, the performance of the benchmark is displayed in the "Past Performance" section either as converted to the currency of the relevant shareclass or hedged against the reference currency of the Sub-fund in the case of hedged shareclasses ("hedged benchmark"). For some cases where the hedged benchmark is not available, the benchmark is displayed in the reference currency of the Sub-Fund, thus the performance of the displayed benchmark may deviate from the one of the relevant shareclass due to the performance differential inherent within the currency hedging activity not reflected in the benchmark.
