

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

THREADNEEDLE (LUX) - CREDIT OPPORTUNITIES (THE "FUND")

Class 1GH (GBP Accumulation Hedged Shares) LU1829332441, a sub-fund of Threadneedle (Lux) (the "SICAV"), regulated by the CSSF.

The management company of the SICAV is Threadneedle Management Luxembourg S.A. (the "Management Company") (part of the Columbia and Threadneedle group of companies).

Objectives and Investment Policy

The Fund aims to make a positive return for you over the medium term, notwithstanding changing market conditions. Positive returns are not guaranteed and no form of capital protection applies.

The Fund is actively managed, and invests at least two-thirds of its assets in long and short positions in investment grade or below investment grade bonds (which are similar to a loan and pay a fixed or variable interest rate) issued by companies and governments worldwide. Bonds rated as below investment grade have received lower ratings from international agencies that provide such ratings and are considered riskier than higher rated bonds but typically pay a higher income.

The Fund invests directly in these assets or by using derivatives. Derivatives are sophisticated investment instruments linked to the rise and fall of the value of other assets. Derivatives will be used to obtain, increase or reduce exposure to underlying assets and may create leverage. Where leverage is created, the net asset value of the Fund may experience more fluctuation than if there were no leverage. The Fund will also use derivatives for short selling (which is designed to make a profit from falling prices), hedging purposes or to manage the Fund more efficiently.

The Fund may also invest in asset classes and instruments different from those stated above.

The Fund is not managed in reference to a benchmark.

Income from investments in the Fund will be added to the value of your shares.

You can buy or sell shares in the Fund on any day which is a business day in Luxembourg unless the directors have decided that insufficient markets are open. Such days are published on columbiathreadneedle.com. You can find more detail on the investment objective and policy of the Fund in the section of the prospectus with the heading "Investment Objectives and Policies".

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Lower Risk, Typically lower rewards Higher Risk, Typically higher rewards

- The Fund is rated 4 because historically it has shown a medium level of volatility (how much the value of the Fund goes up and down).
- The lowest category does not mean a risk-free investment.
- The value of investments can fall as well as rise and investors might not get back the sum originally invested.
- Where investments are in assets that are denominated in multiple currencies, or currencies other than your own, changes in exchange rates may affect the value of the investments.
- Positive returns are not guaranteed and no form of capital protection applies.
- The Fund may enter into financial transactions with selected counterparties. Any financial difficulties arising at these counterparties could significantly affect the availability and the value of Fund assets.
- The Fund invests in securities whose value would be significantly affected if the issuer refused, was unable to or was perceived to be unable to pay.
- The Fund holds assets which could prove difficult to sell. The Fund may have to lower the selling price, sell other investments or forego more appealing investment opportunities.
- Changes in interest rates are likely to affect the Fund's value. In general, as interest rates rise, the price of a fixed rate bond will fall, and vice versa.
- The Fund's assets may sometimes be difficult to value objectively and the actual value may not be recognised until assets are sold.
- Leverage occurs when economic exposure through derivatives is greater than the amount invested. Such exposure, and the use of short selling techniques, may lead to the Fund suffering losses in excess of the amount it initially invested.
- The Fund may invest materially in derivatives. A relatively small change in the value of the underlying investment may have a much larger positive or negative impact on the value of the derivative.
- There is no guarantee that the hedging strategy applied in Hedged Shares will entirely remove the effects of changes in exchange rates between the Base Currency and the currency of the Hedged Shares.
- The risks currently identified as applying to the Fund are set out in the "Risk Factors" section of the prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry Charge:	5.00%
Exit Charge:	0.00%

These are the maximum charges that we might take out of your money before it is invested. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the fund over a year

Ongoing Charges:	1.17%
------------------	-------

Charges taken from the fund under specific conditions

Performance Fee:	NONE
------------------	------

Switching charge (for switching into the Fund from another fund) 0.75%

The ongoing charges figure is based on expenses for the year ending 31/03/21. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
