ARC TIME Social Impact Property Fund (the "Fund") is managed by Alpha Real Capital LLP as Authorised Corporate Director ("ACD").

## Objective and Investment Policy

It is intended that the Fund will be a Property Authorised Investment Fund at all times, and as such, its investment objective is to carry on Property Investment Business and to manage cash raised for investment in the Property Investment Business. The aim of the Fund is to offer Shareholders a consistent income stream with some capital growth prospects through the provision and utility of Social Infrastructure Assets in the United Kingdom which seeks to deliver positive sustainability impact.

Positive social impact for the Fund means the enhanced provision of and access to Social Infrastructure Assets providing health, housing, and education where there is an identified unmet need and/or underserved groups, with these services being provided in fit-for-purpose, quality facilities, which in turn supports the delivery and improvement of those essential services.

At least 70% of the Gross Asset Value of the Fund will be invested in Social Infrastructure Assets.

Shareholders capital is at risk and there is no guarantee that the objective will be achieved on an annual basis or over any other period of time.

The Fund may also invest in:

- collective investment schemes up to 10%. Collective investment scheme investments will not be included in the 70% of the Gross Asset Value of the Fund to be invested in Social Infrastructure Assets;
- cash and similar cash-like investments, as well as money market instruments;
- debt securities; and
- equities (whether or not listed on a stock exchange)

The Fund may use derivatives for efficient portfolio management.

The Fund has applied the Sustainability Impact label which means it invests mainly in solutions to sustainability problems, with an aim to achieve a positive impact for people or the planet.

## Risk and reward profile

The following risks apply to investments in the Fund:

- The value of shares can go down as well as up and is not guaranteed. You may not get back the full amount invested.
- The UK legal process for selling social infrastructure assets may take a considerable length of time. Therefore at times it may be difficult to make investments/sell assets to meet investors' requests to buy/sell shares in the Fund over short time periods.
- By the nature of direct property and the time and other factors involved in arranging sales and realising the proceeds there from, it should be appreciated that the underlying assets are illiquid assets

### Other information

We carry out investors' requests to buy, sell, switch, convert or exchange shares at 10am on every business day.

If we receive a request to buy shares after 10am or to sell shares after 10am on any business day, we will deal with it on the next business day.

Income from investments in Class C Gross Income or Class D Net Income shares in the Fund is paid out to you quarterly, usually within three months of the quarterly interim accounting dates, being 30 June, 30 September, 31 December and 31 March.

The Fund may pay tax on purchases of property and associated property transaction costs in addition to the charges set out in the charges section on the next page.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money over a short period.

### Terms used

#### "Social Infrastructure Assets"

UK property assets which provide health services, housing, and education. Property assets are typically freehold or long-term leasehold property assets or other infrastructure assets which are let to providers of services within the sectors. The assets targeted by the Fund are typically let on long-term leases (with initial leasehold terms in excess of 15 years) and are expected to provide investors with a secure long-term, inflation-correlated income stream and capital growth, whilst generating a positive social impact

#### "Collective Investment Schemes"

schemes where investors' money is pooled to buy investments

#### "Money Market Instruments"

a type of investment where cash can be deposited for short periods

#### "Derivatives"

contracts whose value is linked to the future movements of an asset

when compared with other asset classes such as listed equities or bonds. Whilst the ACD will pursue a cautious liquidity policy, this Fund is intended for investors who can accept the risks associated with making potentially illiquid investments in direct property.

- The majority of the Fund's investments shall be social infrastructure assets. Valuations are a matter of an independent valuer's opinion. There is no certainty that these opinions will reflect the sale price of the property and any differences could affect the value of your investment in the Fund.
- Dealing in the Fund could be suspended for a period which means you may not be able to buy or sell shares for several months or longer.

For full details of risks please see the Fund's prospectus, which is available from Alpha Real Capital LLP at 338 Euston Road, London, NW1 3BG or can be downloaded online from [time-investments.com/document-library](http://time-investments.com/document-library) and [alpharealcapital.com](http://alpharealcapital.com).

## Charges

The charges you pay are used to pay the costs of running the Fund. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest		
	Class C Gross Inc	Class D Net Inc
Entry charge	0%	0%
Exit charge	5%	5%

This is the maximum that might be taken out of your money before it is invested (Entry charge) or before the proceeds of your investment are paid out (Exit charge).

Charges taken from the Fund over a year		
Ongoing Charge	1.00%	1.00%

Charges taken from the Fund under certain specific conditions		
Performance Fee	None	

The entry and exit charges shown are maximum figures, as applicable. In some cases you may pay less. You can find out actual entry and exit charges from your financial adviser, distributor or by contacting the ACD.

The ongoing charges figure is based on the Fund's expenses for the year ended 31 December 2023 for each share class and this figure may vary from year to year.

The annual report for each financial year will include details of the charges made.

The figure for ongoing charges may not include all professional fees and generally excludes portfolio transaction costs and rental collection charges. However, such costs may be included where the Fund pays them to one of its service providers, or to another fund as an entry/exit charge for buying/selling units. The ongoing charge figure is an estimate only, based on fees that can be reliably estimated. Property related expenses are excluded from the ongoing charge.

For more information about charges, please see Section 39 of the Fund's prospectus, which is available from the ACD at Alpha Real Capital LLP, 338 Euston Road, London, NW1 3BG or online at [time-investments.com/sipf](http://time-investments.com/sipf) and [alpharealcapital.com](http://alpharealcapital.com).

## Past performance

The Fund was authorised by the Financial Conduct Authority on 13 July 2018 and launched on 1 April 2019 following the approval by shareholders of the exchange offer to accept shares in the fund in exchange for shares held in the predecessor fund Social Freehold Fund.

The chart shows the past performance for the last 6 years of Class C Gross Income and the last 5 years of Class D Net Income and takes into account all charges except entry and exit charges.

The chart shows total return performance on a calendar year basis.

For the 8 months of 2017 there were no shares created in both Class C Gross Income and Class D Net Income.

Class D Net Income shares had insufficient data to be able to give a reliable indication of performance in 2018.

The performance prior to 1 April 2019 in the chart is that of the predecessor fund Social Freehold Fund.

Past performance is calculated in pounds sterling. Past performance is not a reliable indicator of future performance.
