a fund within WS Verbatim Funds (the "Company")
Waystone Management (UK) Limited is the Authorised Corporate Director of the Fund.

Class B Accumulation Shares (ISIN: GB00B3P2HB11)

Objective and Investment Policy

Objective

The Fund will use a broadly cautious balanced investment strategy with the aim of achieving capital growth over the medium to longer term.

Investment Policy

The Fund will seek to achieve its objective through investment in collective investment schemes (regulated and unregulated) as well as directly held transferable securities, (including exchange traded notes), derivatives, cash, deposits, (including certificates of deposit), warrants, and money market instruments. Investment may be made globally but foreign currency exposure through non UK investments may be hedged back into Sterling.

The Fund may also gain exposure (directly and indirectly) to alternatives, including but not limited to, property, commodities, hedge funds, private equity, infrastructure and loans, through investment in collective investment schemes and transferable securities.

Use may also be made of stock lending, borrowing, cash holdings and derivatives. It is intended that derivatives will be used for investment purposes as well as for efficient portfolio management but the ACD does not anticipate that such use of derivatives will have any significant adverse effect on the risk profile of the Fund.

For full investment objectives and policy information please refer to the prospectus.

Other features of the Fund:

The Fund is actively managed. The Portfolio Manager uses its expertise to select investments for the Fund and has the discretion to invest without the need to adhere to a particular benchmark.

The Fund can invest in other funds (including those managed by the Manager, the Portfolio Manager and its associates).

The Fund can invest across different geographic areas and industry sectors without limitation.

You can buy and sell shares in the Fund on each business day.

Any income generated from the Fund is reinvested and reflected in the value of your investment.

The base currency of the Fund is GBP.

Recommendation: This Fund may not be suitable for investors who plan to withdraw their money within 3 to 5 years. More information on the management of this portfolio can be found at www.waystone.com.

Risk and Reward Profile

This indicator shows how much the Fund has risen and fallen in the past, and therefore how much the Fund's returns have varied. It is a measure of the Fund's volatility.

The higher a Fund's past volatility, the higher its position on the scale and the greater the risk that investors may have experienced losses as well as gains.

The Fund has been classed as 4 because its volatility has been measured as average.

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward profile shown is not guaranteed to remain the same and may change over time.

The lowest number on the scale does not mean that the Fund is risk-free. The value and income from the Fund's assets may go down as well as up. This will cause the value of your investment to fall as well as rise. There is no guarantee that the Fund will achieve its objective and you may get back less than you originally invested.

- Where the Fund makes investments in assets that are not denominated in GBP, changes in exchange rates will affect the value of your investment.
- The Fund could lose money if an entity with which it interacts become

unwilling or unable to meet its obligations to the Fund.

- As an investor of another collective investment scheme, the Fund will bear, along with the other investors, its portion of the expenses of the other collective investment scheme, including management, performance and/or other fees. These fees will be in addition to the management fees and other expenses which a Fund bears directly with its own operations.
- The Fund may invest in Exchange Traded Funds which represent a basket of securities that are traded on an exchange and may not necessarily trade at the net asset value of their underlying holdings. As a result, they may trade at a price that is above or below the value of the underlying portfolio.
- Where the Fund invests in derivatives and forward transactions in the pursuit of the Fund's objective, the net asset value of the Fund may at times be volatile (in the absence of compensating investment techniques). However, it is the ACD's intention that the Fund will not have volatility over and above the general market volatility of the markets of the underlying investments and that the use of derivatives and forward transactions in the pursuit of the objective will not cause the risk profile to change.
- The Fund is classed as a NURS and can have wider investment and borrowing powers than a UCITS scheme with higher investment limits in various areas. It can also invest to a greater extent in areas such as property and unregulated schemes and have the option to borrow on a permanent basis. Such additional powers can increase potential reward, but may also increase risk.

For more information about the Fund's risks, please see the Risk Factors section of the prospectus which is available at www.waystone.com.
