## UK MID CAP FUND

KEY INVESTOR  
INFORMATION  
DOCUMENT

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Liontrust UK Mid Cap Fund is a sub-fund of the Liontrust Investment Funds I and categorised as a UCITS scheme. This document is based upon the C GBP Accumulating share class (ISIN: GB00B909H085), which is the representative class for all other classes.

### Objective

- To generate long term (5 years or more) capital growth.

### Policy

- The Fund invests at least 80% in shares of medium sized companies which are incorporated, domiciled or conduct significant business in the UK. Medium sized companies are those which, at the time of purchase, are listed within the bottom twenty of the FTSE 100, anywhere within the FTSE 250 ex Invt Trust Index, or the top fifty of the FTSE SmallCap ex Invt Trust Index based on index weighting. The Fund may also invest up to 20% in other companies, including those outside of the UK, as well as in other eligible asset classes as detailed within the prospectus.

### Recommendation

- This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

### How to buy

- You may buy or sell shares on a daily basis (but not weekends or Bank Holidays). Orders must be received by 11:59am for execution at 12:00 midday valuation point on the same day. Further details can be found at [www.liontrust.co.uk](http://www.liontrust.co.uk).

### Investment process

- The Fund invests in a concentrated portfolio of 20-40 companies that may provide growth opportunities, attractive valuations, or special situations. Special situations can exist where companies are out of favour, misunderstood or where management changes or takeovers are expected.

## Risk and reward profile

- This Synthetic Risk and Reward Indicator (SRRI) is based on historical data and may not be relied upon to gauge the future risk profile of the Fund.
- The SRRI shown is not guaranteed to remain the same and may shift over time.
- The lowest category (1) does not mean 'risk free'.
- The Fund's risk and reward category has been calculated using the methodology set by the European Commission. It is based upon the rate by which the Fund or a representative fund or index's value has moved up and down in the past.
- The Fund is categorised 5 primarily for its exposure to small UK companies.
- The SRRI may not fully take into account the following risks:
  - that a company may fail thus reducing its value within the Fund;
  - any company which has high overseas earnings may carry a higher currency risk;
  - any overseas investments may carry a higher currency risk. They are valued by reference to their local currency which may move up or down when compared to the currency of the Fund.
- This Fund may have a concentrated portfolio, i.e. hold a limited number of investments. If one of these investments falls in value this can have a greater impact on the Fund's value than if it held a larger number of investments.
- Counterparty risk: any derivative contract, including FX hedging, may be at risk if the counterparty fails.
- The Fund may, under certain circumstances, make use of derivative instruments but it is not intended that their use will materially affect volatility.
- As the Fund is primarily exposed to smaller companies there may be liquidity constraints from time to time, i.e. in certain circumstances, the fund may not be able to sell a position for full value or at all in the short term. This may affect performance and could cause the fund to defer or suspend redemptions of its shares. In addition the spread between the price you buy and sell units will reflect the less liquid nature of the underlying holdings.
- The Fund may invest in companies listed on the Alternative Investment Market (AIM) which is primarily for emerging or smaller companies. The rules are less demanding than those of the official List of the London Stock Exchange and therefore companies listed on AIM may carry a greater risk than a company with a full listing.
- For full details of the Fund's risks, please see the prospectus which may be obtained from Liontrust (address overleaf) or online at [www.liontrust.co.uk](http://www.liontrust.co.uk).

-----------------	------

- The entry and exit charges** shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser or fund platform if you are not using a financial adviser.
- The ongoing charges** figure is based on expenses as at 31 December 2019. This figure may vary from year to year. It excludes:
  - portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units/shares in another collective investment undertaking.
- For more information about charges, please see the Charges and Expenses section of the Fund's prospectus, which is available electronically at [www.liontrust.co.uk](http://www.liontrust.co.uk).

### Past performance

- Past performance is not a guide to future performance. It has been calculated on the basis that any distributable income of the Fund has been reinvested. The past performance shown in the chart takes into account all charges except entry and exit charges.
- The Fund launched on 15 December 2008.
- The C Acc share class was launched on 07 May 2013. Performance shown before this date relates to the A Acc share class.
- The base currency of the Fund is pounds sterling.
- The Fund is considered to be actively managed in reference to the benchmark(s) in the performance table by virtue of the fact that it uses the benchmark(s) for performance comparison purposes. The benchmark(s) are not used to define the portfolio composition of the Fund and the Fund may be wholly invested in securities which are not constituents of the benchmark.
