

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Fischer Sports Betting & iGaming UCITS ETF - Accumulating (the Fund)

ISIN: IE00BNTVWV33

A sub-fund of HANetf ICAV. Managed by HANetf Management Limited (the **Manager**)

Objectives and Investment Policy

The Fund seeks to track the price and yield performance, before fees and expenses, of the Solactive Fischer Sports Betting and iGaming Index (the **Index**).

Index: The Index is governed by a published, rules-based methodology and is designed to measure the performance of a global investable universe of publicly listed companies that are involved in the sports betting and online gaming industry.

Eligibility: To be eligible for inclusion in the Index, companies must meet the following criteria:

- have or expected to have significant exposure to the provision of products and/or services that contribute to the sports betting and iGaming industry such as operation of online/internet gambling platforms; business-to-consumer operators or consumer facing brands; technology platform providers that provide the infrastructure and other systems, including player account management systems; and media, affiliates, streaming and content and other services providers.
- meet the minimum market capitalisation and liquidity requirements; and
- have a primary listing in one of the countries that are part of the Developed Markets and Emerging Markets (as defined in the supplement for the Fund (the **Supplement**)) and Malta.

The constituents in each revenue category ("Pure Play" and "non-Pure Play") are assigned a maximum weight of 8% and 5% respectively. The Index is adjusted and rebalanced quarterly in February, May, August and November.

Replication: The Fund will employ a "passive management" (or indexing) investment strategy and will seek to employ a replication methodology, meaning as far as possible and practicable, it will invest in the securities in proportion to the weightings comprising the Index.

Dealing: Shares of the Fund (**Shares**) are listed on one or more stock exchanges. Typically, only authorised participants (i.e. brokers) can purchase Shares from or sell Shares back to the Fund. Other investors can purchase and sell Shares on exchange on each day the relevant stock exchange is open.

Distribution policy: Income received by the Fund's investments will not be distributed in respect of the Shares of this class and instead income will be accumulated and reinvested on behalf of the shareholders of the Fund.

Recommendation: This Fund may not be appropriate for short-term investment.

Currency: The base currency of the Fund is US Dollar.

For full investment objectives and policy details, please refer to the Supplement.

Risk and Reward Profile

The categorisation above is not guaranteed to remain unchanged and may shift over time.

The lowest category (1) does not imply a risk-free investment.

The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund.

The categorisation above (6) is due to the nature of the Fund's investments and risk associated with those investments, including:

- The value of underlying securities can be affected by daily financial market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- There is no assurance that any appreciation in the value of investments will occur, or that the investment objective of the Fund will be achieved.
- **Investment risk:** Investment risk may be concentrated in specific sectors, countries, currencies or companies. This means that the Fund may be more sensitive to any localised economic, market, political or regulatory events.

- **Sectoral Risk: Consumer Discretionary Sector Risk.** The Sub-Fund invests in consumer discretionary companies, which are companies that provide non-essential goods and services, such as retailers, media companies and consumer services. The success of these companies is tied closely to the performance of the overall domestic and international economy, interest rates, competition, household disposable income, consumer spending and changes in demographics and consumer tastes and consumer confidence.
- **iGaming and Sports Betting Companies Risk** The iGaming and sports betting industry is subject to a high degree of competition among a large number of participants including those performing illegal or unregulated activities. Industry expansion could increase competition with traditional betting, leisure and companies involved in entertainment activities, which could have an adverse impact on their financial condition, operations and cash flows. These companies may also be subject to increasing regulatory constraints, particularly with respect to

cybersecurity and privacy, as well as potential adverse regulatory change,

- **Internet Company Risk** Internet companies are subject to rapid changes in technology, worldwide competition, rapid obsolescence of products and services, loss of patent protections, cyclical market patterns, evolving industry standards, frequent new product introductions and the considerable risk of owning small capitalization companies that have recently begun operations. In addition, the stocks of many internet companies have exceptionally high price-to-earnings ratios with little or no earnings histories. Many internet companies have experienced extreme price and volume fluctuations that often have been unrelated to their operating performance.
- **Currency risk:** The Fund invests in securities denominated in

currencies other than its base currency. Changes in the exchange rates may adversely affect the performance of the Fund.

- Risks not covered by the indicator, but which are materially relevant to the Fund include:
- **Liquidity** on secondary market risk: There can be no certainty that Shares can always be bought or sold on a stock exchange or that the market price will reflect the NAV of the Fund.
- It may be difficult for the Fund to buy or sell certain investments in some market conditions. Consequently, the price obtained when the Fund buys or sells securities may compare adversely to the price under normal market conditions.
- For a complete overview of all risks attached to this Fund, refer to the section entitled "**Risk Factors**" in the Supplement and the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0%*
Exit charge	0%*
Charges taken from the Fund over a year	
Ongoing charges	0.69%**
Charges taken from the Fund under certain specific conditions	
Performance fee	None

* Authorised participants dealing directly with the Fund may pay an entry charge up to a maximum of 5% and an exit charge up to a maximum of 3%. The Fund is currently not exercising its entitlement to apply entry and exit charges.

Since the Fund is an ETF, secondary market investors will not typically be able to deal directly with HANetf ICAV. Investors buying Shares on exchange will do so at market prices which will reflect broker fees and/or transactions charges and bid-ask spreads as well as underlying company prices at the time of trading on the secondary market.

* Authorised participants dealing directly with the Fund will pay related transaction costs.

* For Investors dealing directly with the Fund, switching between sub-funds may incur a maximum switching charge of 3%.

** The ongoing charges are paid to the Manager which is responsible for discharging from its fee the cost of operating the Fund. It excludes portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another investment fund.

Please see "**General Charges and Expenses**" and "**Management Charges and Expenses**" sections of the Prospectus and "**Charges and Expenses**" and "**Key Information for Share Dealing**" sections of the Supplement for further information about charges.

Past Performance

- There is insufficient data to provide a useful indication of past performance to investors.

Practical Information
