## AXA Sterling Corporate Bond Fund

A Sub-Fund of AXA Fixed Interest Investment ICVC

Share class : AXA Sterling Corporate Bond Fund Z (G) Accumulation GBP (ISIN : GB00B1Z48Z43)

This Sub-Fund is managed by AXA Investment Managers UK Limited, part of the BNP Paribas S.A. Group

### Objectives and Investment Policy

#### Investment Objective

The aim of the Fund is to generate an income return combined with any capital growth.

#### Investment Policy

The Fund invests primarily (meaning at least 70% of its assets) in a diversified portfolio of investment grade bonds issued in the UK and overseas. The fund manager seeks to reduce the effect of credit risk through its analysis and selection of bonds (with a particular emphasis on industry and issuer) and also positions the Fund to take advantage of the fund manager's expectation of interest rate movements.

Whilst the Fund does not pursue a specific sustainability objective, the fund manager considers ESG risk by applying AXA Investment Manager's (AXA IM's) sector specific investment guidelines. Such guidelines exclude investment in soft commodity derivatives or exposure to certain companies based on their involvement in specific sectors (such as tobacco production, natural ecosystem conversion and deforestation, controversial weapons and climate risks). The fund manager also applies the AXA IM's ESG Standards policy. This policy excludes investment in companies based on: (a) manufacture of white phosphorus weapons; certain criteria relating to human rights and anti-corruption as well as other ESG factors, (b) issuers which cause, contribute, or are linked to violations of international norms and standards in a material manner or which are involved in incidents and/or events that pose a severe business or reputational risk to the relevant issuer due to the impact of its involvement on stakeholders or the environment and (c) issuers with the lowest ESG score. AXA IM's ESG Standards policy and AXA IM's sector specific investment guidelines are subject to change and the latest copies are accessible via the links provided in the "Responsible Investment" section of the prospectus and are available from the fund manager on request.

The fund manager will undertake engagements with investee issuers with the aim of preserving or enhancing long-term value and creating better ESG outcomes for its investors over the long-term. More details on the fund manager's approach to its engagement with issuers are available on the website <https://www.axa-im.co.uk/> under the heading "Responsible Investing".

The Fund is managed with reference to the composition and risk profile of the ICE BofA Sterling Corporate & Collateralised index. However the fund manager invests on a discretionary basis with a significant degree of freedom to take positions which are different from the index. The ICE BofA Sterling Corporate & Collateralised index is designed to measure the performance of sterling corporate bonds (or sterling fixed interest securities). This index best represents the types of bonds in which the Fund predominantly invests. Where bonds are denominated in a currency other than Sterling, the Fund aims to reduce the risk of movements in exchange rates between such currency and Sterling through the use of derivatives (financial instruments which derive their value from the value of other assets). The Fund may also use derivatives in an attempt to reduce the overall risks of its investments, reduce the costs of investing or generate additional capital or income (known as Efficient Portfolio Management - EPM).

If the fund manager deems that an investment no longer meets the criteria set out in this investment policy or its expectations in terms of that investment's prospects for achieving the Fund's objective, the fund manager will disinvest as soon as practicable having regard to the best interests of the Fund's investors and in accordance with its best execution policy.

This Fund is actively managed in reference to the ICE BofA Sterling Corporate & Collateralised index, which will be used by investors to compare the Fund's performance.

#### Income

Income from investments in the Fund will be rolled up into the value of your shares if you hold accumulation shares.

#### Fund Currency

The reference currency of the Fund is Sterling.

#### Investment Horizon

This Fund may not be suitable for investors who plan to withdraw their contribution within five years.

#### Processing of subscription and redemption orders

Your orders to buy, sell or transfer shares in the Fund, must be received by the Administrator by 12 noon on any working day to receive that day's Fund price. Also this Fund has another Valuation Point on the last business day of each month and therefore an additional dealing cut off at 4.30pm on that day only. Please note that if your order is placed by an intermediary or Financial Adviser, they may require extra processing time.

The Net Asset Value of this Fund is calculated on a daily basis.

Minimum initial investment: £100,000

Minimum subsequent investment: £5,000

### Risk and Reward Profile

The risk category is calculated using historical performance data and may not be a reliable indicator of the Fund's future risk profile.

The risk category shown is not guaranteed and may shift over time.

The lowest category does not mean risk free.

#### Why is this Fund in this category?

The capital of the Sub-Fund is not guaranteed. The Sub-Fund is invested in financial markets and uses techniques and instruments which are subject to some levels of variation, which may result in gains or losses.

#### Additional Risks (risks materially relevant to the fund which are not adequately captured by the indicator)

**Counterparty Risk:** failure by any counterparty to a transaction (e.g. derivatives and securities lending) with the Fund to meet its obligations may adversely affect the value of the Fund. The Fund may receive assets from the counterparty to protect against any such adverse effect but there is a risk that the value of such assets at the time of the failure would be insufficient to cover the loss to the Fund.

**Interest Rate Risk:** fluctuations in interest rates will change the value of

bonds, impacting the value of the Fund. Generally, when interest rates rise, the value of the bonds fall and vice versa. The valuation of bonds will also change according to market perceptions of future movements in interest rates.

**Liquidity Risk:** some investments may trade infrequently and in small volumes. As a result the Fund manager may not be able to sell at a preferred time or volume or at a price close to the last quoted valuation. The Fund manager may be forced to sell a number of such investments as a result of a large redemption of shares in the Fund. Depending on market conditions, this could lead to a significant drop in the Fund's value and in extreme circumstances lead the Fund to be unable to meet its redemptions.

**Credit Risk:** the risk that an issuer of bonds will default on its obligations to pay income or repay capital, resulting in a decrease in Fund value. The value of a bond (and, subsequently, the Fund) is also affected by changes in market perceptions of the risk of future default. Investment grade issuers are regarded as less likely to default than issuers of high yield bonds.

Further explanation of the risks associated with an investment in this Fund can be found in the prospectus.

## Charges

The charges you pay are used to pay the cost of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry charge	none
Exit charge	none

This is the maximum that might be taken out of your money before it is invested.

### Charges taken from the fund over a year

Ongoing Charges	0.56%
-----------------	-------

### Charges taken from the fund under certain specific conditions

Performance fee	none
-----------------	------

The entry and exit charges shown are maximum figures. In some cases, you might pay less - you can find this out from your Financial Adviser.

The ongoing charges figure is based on expenses for the previous twelve month period. This figure may vary from year to year. It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

For more information about charges, please refer to AXA IM website: <https://www.axa-im.co.uk/important-information/fund-charges-and-costs> as well as the Fees and Expenses section of the prospectus which is available at <https://funds.axa-im.com>.

## Past Performance

- AXA Sterling Corporate Bond Fund Z (G) Accumulation GBP (ISIN : GB00B1Z48Z43)
- ICE BofA Sterling Corporate & Collateralized Index\*

Past performance is not a reliable indicator of future results.

Past performance is shown after the deduction of ongoing charges. Any entry/exit fees are excluded from the calculation.

The Sub-Fund was launched on 31/03/2004 and the share class in 2004. Past performance has been calculated in Sterling and is expressed as a percentage change of the Fund's Net Asset Value at each year end.

The constraint benchmark of the Fund is the ICE BofA Sterling Corporate & Collateralized index.
