

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

# Schroder European Climate Transition Fund

a sub-fund of Schroder Investment Fund Company

Class Z Income GBP (GB00B7FHV230)

This fund is managed by Schroder Unit Trusts Limited, which is a member of the Schroders Group.

## Objectives and investment policy

### Objectives

The fund aims to provide capital growth in excess of the FTSE World Series Europe ex UK (Gross Total Return) Index (after fees have been deducted) over a three to five year period by investing in equities of European companies, excluding the UK, which have the potential to achieve net zero greenhouse gas ("GHG") emissions by 2050. Such companies support decarbonisation and therefore contribute to the goal of limiting global warming to no more than 1.5°C above pre-industrial levels.

### Investment Policy

The fund is actively managed and invests at least 80% of its assets in a concentrated range of equities of European countries, excluding the UK. The fund typically holds 30 to 50 companies. The fund may also invest directly or indirectly in other securities (including in other asset classes), countries (including the UK), regions, industries or currencies, collective investment schemes (including Schroder funds), warrants and money market instruments, and hold cash. The fund may use derivatives with the aim reducing risk or managing the fund more efficiently (for more information please refer to Appendix 2 Section 10: Derivatives and Forwards of the prospectus).

The fund invests at least 70% of its portfolio in assets which the investment manager determines to have the potential to achieve net zero GHG emissions by 2050 ("decarbonising investments"). Net zero GHG means that the amount of GHG emissions emitted into the atmosphere by a company is balanced by the amount removed.

To qualify as a decarbonising investment, a company needs to have a temperature alignment of no more than 1.5°C based on evidence of previous emissions reductions. This means that the company's expected emissions reductions are consistent with limiting global warming to 1.5°C above pre-industrial levels. To calculate a company's temperature alignment, the investment manager uses emissions data from a third party provider and company reports to produce four data sets (using a reference year of 2019, or the first reported year thereafter), and calculate the trend in emissions reduction for each:

- Absolute emissions (based on Scope 1 and 2 emissions data)
- Absolute emissions (based on Scope 1, 2 and 3 emissions data)

- Emissions intensity (based on Scope 1 and 2 emissions data relative to annual revenue in USD)
- Emissions intensity (based on Scope 1, 2 and 3 emissions data relative to annual revenue in USD)

Absolute emissions measure the total amount of emissions of the company, while intensity measures emissions relative to a company's revenue. Scope 1 and 2 emissions come from a company's direct activities and indirect energy consumption, while Scope 3 emissions are indirect emissions from the company's value chain.

The investment manager then uses an industry-standard methodology (the CDP-WWF Temperature Scoring Methodology) to calculate the company's temperature alignment based on the data set with the greatest emissions reduction trend. If a company's temperature alignment is 1.5°C or less, the company is deemed to be a decarbonising investment.

The fund may also invest up to 30% of its assets in companies that are not deemed to be decarbonising investments, but have a company-reported emissions reduction target aligned with a temperature of no more than 1.5°C (based on the industry-standard methodology referred to above).

The fund is not permitted to invest in any assets that conflict with the sustainability objective. The investment manager also engages with selected companies held by the fund on sustainability issues. Please see the fund's Consumer Facing Disclosure, available via [www.schroders.com/en-gb/uk/individual/fund-centre](http://www.schroders.com/en-gb/uk/individual/fund-centre) for more details on the investment manager's approach to sustainability.

### Benchmark

The fund's performance should be assessed against the target benchmark, being to exceed the FTSE World Series Europe ex UK (Gross Total Return) Index and compared against the Investment Association Europe ex UK sector average return. The investment manager invests on a discretionary basis and is not limited to investing in accordance with the composition of the benchmark.

### Dealing Frequency

You may redeem your investment upon demand. This fund deals daily.

### Distribution Policy

This share class pays income received from the fund's investments to you quarterly.

## Risk and reward profile

### Lower risk

Potentially lower reward

### Higher risk

Potentially higher reward

### The risk and reward indicator

The risk category was calculated using historical performance data and may not be a reliable indicator of the fund's future risk profile.

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

### Risk factors

**Counterparty risk:** The fund may have contractual agreements with counterparties. If a counterparty is unable to fulfil their obligations, the sum that they owe to the fund may be lost in part or in whole.

**Performance risk:** Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

**Concentration risk:** The fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions.

This may result in large changes in the value of the fund, both up or down.

**Sustainable Investing Risk:** The fund applies sustainability criteria in its selection of investments. This investment focus may limit the fund's exposure to assets, companies, industries or sectors and the fund may forego investment opportunities that do not align with its sustainability criteria chosen by the investment manager. As investors may differ in their views of what constitutes sustainability, the fund may invest in companies that do not reflect the beliefs or values of any particular investor.

**Currency risk:** If the fund's investments are denominated in currencies different to the fund's base currency, the fund may lose value as a result of movements in foreign exchange rates, otherwise known as currency rates. If the investor holds a share class in a different currency to the base currency of the fund, investors may be exposed to losses as a result of movements in currency rates.

**Derivatives risk:** Derivatives, which are financial instruments deriving their value from an underlying asset, may be used to manage the portfolio efficiently. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund.

**Liquidity risk:** In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares, meaning investors may not be able to have immediate access to their holdings.

**Operational risk:** Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.

## Charges

### One-off charges taken before or after you invest

**Entry charge** None

**Exit charge** None

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

### Charges taken from the fund over a year

**Ongoing charges** 0.92%

### Charges taken from the fund under certain specific conditions

#### Performance fee

None

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses for the year ending December 2025 and may vary from year to year. The ongoing charge figure excludes portfolio transaction costs. The charges are mostly, if not exclusively, the Schroders Annual Charge (as may be discounted for retail share classes depending on the size of the fund) but certain additional expenses may be charged as set out in the prospectus. The Schroders Annual Charge (without any discount) for this share class of the fund is 0.92%. The fund's annual report for each financial year will include details on the exact charges made including any discounts.

Please see the prospectus for more details about the charges.

## Past performance

Performance achieved between 2013 and 2014 was achieved under circumstances that no longer apply. The fund name and charges changed on 24 March 2014.

■ Z Income GBP (GB00B7FHV230)

■ FTSE World Series Europe ex UK (Gross Total Return) Index

■ Investment Association Europe ex UK sector average

Past performance is not a guide to future performance and may not be repeated. The value of investments may go down as well as up and you may not get back the amount you originally invested.

The chart shows performance in British pound after the ongoing charges and the portfolio transaction costs have been paid.

The fund was launched on 02/05/2012.

The shareclass was launched on 02/05/2012.

## Practical information

**Depository:** J. P. Morgan Europe Ltd.

**Further information:** You can get further information about this fund, including the prospectus, consumer facing disclosure, latest annual report, any subsequent half-yearly reports and the latest price of units from [www.schroders.com/en-gb/uk/individual/fund-centre](http://www.schroders.com/en-gb/uk/individual/fund-centre) and from Schroders, PO Box 1402, Sunderland, SR43 4AF, England, telephone 0800 182 2399. They are in English, free of charge.

**Tax legislation:** The fund is subject to UK tax legislation which may have an impact on your personal tax position.

**Liability:** Schroder Unit Trusts Ltd may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the fund's prospectus.

**Umbrella fund:** This fund is a sub-fund of an umbrella fund, the name of which is at the top of this document. The prospectus and periodic reports are prepared for the entire umbrella fund. To protect investors, the assets and liabilities of each sub-fund are segregated by law from those of other sub-funds.

**Switches:** Subject to conditions, you may apply to switch your investment into another share class within this fund or in another Schroder fund. Please see the prospectus for more details.

**Remuneration policy:** A summary of Schroders' remuneration policy and related disclosures is at [www.schroders.com/remuneration-disclosures](http://www.schroders.com/remuneration-disclosures). A paper copy is available free of charge upon request.

The policy includes a description of how remuneration and benefits are calculated & the identities of persons responsible for awarding the remuneration and benefits.

**Benchmark:** The target benchmark has been selected because it is representative of the type of investments in which the fund is likely to invest, and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide. The comparator benchmark has been selected because the investment manager and the manager believes that the benchmark is a suitable comparison for performance purposes given the fund's investment objective and policy.

**Glossary:** You can find an explanation of some of the terms used in this document at [www.schroders.com/ukinvestor/glossary](http://www.schroders.com/ukinvestor/glossary).
