M&G Investments

M&G Global Sustain Paris Aligned Fund

a sub-fund of M&G Investment Funds (1)
Sterling Class I – Income shares ISIN no. GB00B556Q879
Managed by M&G Securities Limited

Objective and investment policy

The fund aims to:

- Provide a higher total return (capital growth plus income), net of the Ongoing Charge Figure, than that of the MSCI World Index over any five-year period, and
- As its Sustainability Goal, support the mitigation of climate change by investing at least 70% of the Fund in companies that contribute towards the Paris Agreement climate change goal and have the potential to reduce their contribution to climate change determined by their potential to decarbonise their operations over time and ultimately reach Net Zero.

Core investment: At least 80% of the fund is invested directly in the shares of companies, across any sector and of any size, that are based, or do most of their business, in any country. The fund is concentrated and usually holds shares in fewer than 40 companies.

Other investments: The fund may invest in other funds (including funds managed by M&G) and cash or assets that can be turned into cash quickly.

Derivatives usage: To reduce risk and costs.

Strategy in brief: The Fund is a focused global equity fund, investing long term in companies which contribute to the Paris Agreement climate change goal, and demonstrate profitability using a bottom-up stock picking approach, driven by the fundamental analysis.

At least 70% of the fund's assets will be "Improvers" which contribute to the fund's Sustainability Goal. The remaining assets of the fund will be companies that have already reached Net Zero, companies with low carbon intensity, companies that provide climate solutions held for diversification and assets held for liquidity purposes.

Sustainability considerations are fundamental in determining the fund's investment universe and assessing business models, as further described in the Consumer Facing Disclosure which can be found here

Benchmark: MSCI World Index

The benchmark is the target for the fund's financial objective and is used to measure the fund's financial performance. The index has been chosen as the fund's benchmark as it best reflects the financial aspects of the fund's investment policy.

The fund is actively managed so the fund manager has complete freedom in choosing which investments to buy, hold and sell. The fund's holdings may deviate significantly from the benchmark's constituents, and therefore, so may performance. For performance measurement purposes the benchmark is shown or hedged into the relevant share class currency.

Additional information can be found on the M&G website, including:

- A glossary providing an explanation of some terms used in this document.
- The Prospectus including the fund's objective and investment policy.
- The consumer facing disclosure, a document providing additional information relating to the sustainability characteristics of the fund, including the fund's sustainability label.
- Periodic reports on the fund's non-financial characteristics.

Other information

You can buy and sell shares in the fund on any business day. Instructions received before 12 noon will be dealt at that day's price.

Any income from the fund may be paid out to you annually.

In addition to the charges set out in the charges section, the fund will incur portfolio transaction costs which are paid from the assets of the fund. These can be higher when investing outside Europe.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

Low risk — High risk

Typically lower rewards — Typically higher rewards

1	2	3	4	**5**	6	7

- The above risk and reward indicator is based on historical data and may not be a reliable indication of the future risk profile of this share class. This Share Class is categorised in risk class 5 because its Net Asset Value has shown medium to high rises and falls in value historically.
- The risk number shown is not guaranteed and may change over time.
- The lowest risk number does not mean risk free.

The main risks that could affect performance are set out below:

- The value and income from the fund's assets will go down as well as up. This will cause the value of your investment to fall as well as rise. There is no guarantee that the fund will achieve its objective and you may get back less than you originally invested.
- The fund holds a small number of investments, and therefore a fall in the value of a single investment may have a greater impact than if it held a larger number of investments.
- The fund can be exposed to different currencies. Movements in currency exchange rates may adversely affect the value of your investment.
- In exceptional circumstances where assets cannot be fairly valued, or have to be sold at a large discount to raise cash, we may temporarily suspend the fund in the best interest of all investors.
- The fund may exclude potential investments where they do not meet certain criteria (e.g. financial criteria such as minimum credit ratings, or non-financial criteria such as ESG screens). This may cause the Fund to perform differently compared to similar funds that are permitted to invest in those investments.
- Information from third party data providers may be incomplete, inaccurate or unavailable. There is a risk that the fund manager may incorrectly assess a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the portfolio of the Fund.
- The fund could lose money if a counterparty with which it does business becomes unwilling or unable to repay money owed to the fund.
- Operational risks arising from a failure or delay in operational processes and systems, or the failure of a third party provider may affect the value of your investments. Where this results in compensation needing to be paid, this may be paid some time after the original loss is experienced.

Further details of the risks that apply to the fund can be found in the fund's Prospectus at www.mandg.co.uk/literature

Charges

The charges shown in the table are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charge	0.70%
Charges taken from the fund under certain specific conditions	
Performance fee	None

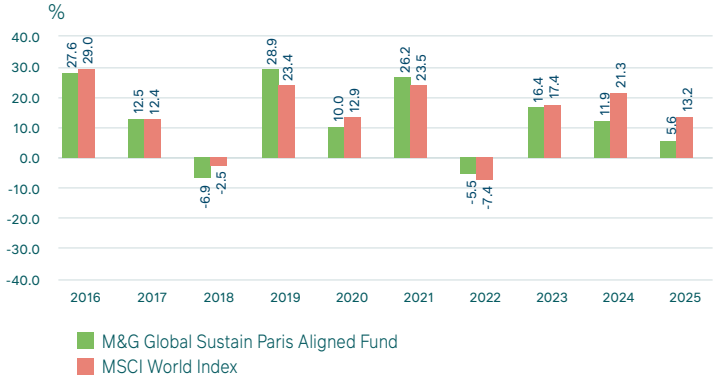
The entry and exit charges shown are the maximum figures and, in some cases, you may pay less. You can find out the exact charges which apply to your investment by contacting your financial adviser or distributor or, if you have invested directly with us, you can contact us using the details given in the practical information section.

The ongoing charge is based on expenses for the period/year ending 31 August 2025. This figure may change from year to year. It excludes portfolio transaction costs. The charges are mostly, if not exclusively, the Annual Charge which may be discounted depending on the size of the fund. The Annual Charge without any discount is 0.70%. The fund's annual report for each financial year will include details on the exact charges made.

For Income shares, the ongoing charge is taken from investments held in the fund's portfolio and not from the income these investments produce. The deduction of this charge will reduce the potential growth of your investment.

For more information on charges, please see the relevant sections of the Prospectus at www.mandg.co.uk/literature

Past performance



- Past performance is not a guide to future performance.
- Performance calculation includes UK taxes. It does not take into account the entry and exit charges but does take into account the ongoing charge and the Performance fee, as shown in the charges section.
- The fund launched on 19 December 1967 and the Sterling Class I Income share class launched on 03 August 2012.
- Performance is calculated using Sterling Class I Income shares.
- Benchmark performance has been calculated in GBP.
- The fund changed its name, investment objective and investment strategy – as reflected in the Objective and Investment Policy section on page 1 – on 31 August 2021. Prior to this date, the fund was named M&G Global Select Fund. Fund performance before this date was therefore achieved under different circumstances.
