

Artemis Strategic Assets Fund (the “fund”)

Class I accumulation units, GBP [ISIN: GB00B3VDD431]

The fund is managed by Artemis Fund Managers Limited.

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and risks of investing in the fund. You are advised to read it so you can make an informed decision about whether to invest.

OBJECTIVES AND INVESTMENT POLICY

Objective

To grow the value of your investment by greater than 3% above the Consumer Price Index (CPI) per annum after fees over a minimum five year period. There is no guarantee that the objective will be achieved over this or any other time period, and your capital is at risk.

Investment policy

What the fund invests in

- Company shares.
- Fixed interest securities (also known as bonds), whether issued by a company, a government or another entity.
- Property and commodities, indirectly by investing through exchange-traded notes and collective investment schemes.
- Other funds managed by Artemis and third party funds.
- Money market instruments, cash and near cash.

Use of derivatives

The fund may use derivatives to:

- achieve the fund objective, including taking long and short positions
- produce additional income or growth
- reduce risk
- manage the fund efficiently
- create leverage.

Where the fund invests

- Globally

Industries the fund invests in

- Any

Other limitations specific to this fund

- 50% to 100% in any combination of long company shares, bonds, and indirect property/commodities, and any one of these asset classes may comprise up to 100%.
- Up to 50% in money market instruments, cash and near cash.
- Up to 30% in short exposures to company shares, but never net short company shares.
- Up to 100% in short exposures to bonds, and up to 100% net short to bonds.
- 0%-200% gross exposure (long plus short) in currencies other than pound sterling.

Investment strategy

- The fund is actively managed.
- The manager will use its discretion to actively manage the portfolio and the proportion of the fund's assets which are invested in each asset class in response to the manager's view of market conditions and its analysis of macro-economic factors.
- The fund allocates to, and selects investments in, different asset classes, geographies, industries and individual companies and issuers with the aim of performing well when markets are favourable and preserving capital when markets are poor.
- For example, if the manager believes that bond market conditions are less favourable than the fund's net bond exposure can be reduced by short-selling bonds or by investing a higher proportion of the fund's assets in asset classes other than bonds.

Benchmarks

- UK Consumer Price Index +3%
A widely-used indicator of UK inflation. It acts as a 'target benchmark' that the fund aims to outperform by at least 3% over at least five years.
- IA Flexible Investment NR
A group of other asset managers' funds that invest in similar asset types as this fund, collated by the Investment Association. It acts as a 'comparator benchmark' against which the fund's performance can be compared. Management of the fund is not restricted by this benchmark.

Other information

- Dealing frequency: Normally Monday to Friday except UK public holidays and non-dealing days. Visit www.artemisfunds.com/non-dealing-days for more information. Instructions received before 12 noon UK time will be processed at 12 noon on the same day.
- Distribution policy: This is an accumulation class. Income received is reinvested in the value of the fund.

RISK AND REWARD PROFILE

- The fund is in the category shown due to historic volatility (how much and how quickly the value of shares in the fund may have risen and fallen in the past due to movements in markets, currencies and interest rates). It may not be a reliable indication of the future risk profile of the fund.
- The risk category has been calculated using historic data and may not be a reliable indicator of the fund's future risk profile.
- A risk indicator of "1" does not mean that the investment is "risk free".

The risk indicator may not fully take into account the following risks and the following may affect fund performance:

- **Market volatility risk:** The value of the fund and any income from it can fall or rise because of movements in stockmarkets, currencies and interest rates, each of which can move irrationally and be affected unpredictably by diverse factors, including political and economic events.
- **Currency risk:** The fund's assets may be priced in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the fund's value.
- **Derivatives risk:** The fund may invest in derivatives with the aim of profiting from falling ('shorting') as well as rising prices. Should the asset's value vary in an unexpected way, the fund value will reduce.
- **Leverage risk:** The fund may operate with a significant amount of leverage. Leverage occurs when the economic exposure created by the use of derivatives is greater than the amount invested. A leveraged portfolio may result in large fluctuations in its value and therefore entails a high degree of risk including the risk that losses may be substantial.

Please refer to the fund's prospectus for full details of these and other risks which are applicable to this fund.

CHARGES FOR THE FUND

One-off charges taken before or after you invest

Entry charge	None
Exit charge	None

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charge	0.875%
----------------	--------

Charges taken from the fund under certain specific conditions

Performance fee	None
-----------------	------

- The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. The charges reduce the potential growth of your investment.
- The ongoing charges figure is an estimate rather than a historic figure because this better reflects the expected future charges. The charges may vary from year to year. The exact charges made for each financial year are contained in the fund's annual report.
- The annual management charge is taken from income.

For more information about charges, please see the fund's prospectus, which is available at www.artemisfunds.com or www.fundinfo.com.

PAST PERFORMANCE

- Class I accumulation units, GBP
- UK Consumer Price Index + 3%
- IA Flexible Investment NR

- Past performance is net of all charges except any costs incurred when investors buy or sell the fund.
- This class may have charges or a hedging approach different from those in the IA sector benchmark.
- How the fund has performed in the past is not a guide to how it will perform in the future.
- Performance is calculated in sterling.
- Fund launch date: 26 May 2009.
- Class launch date: 26 May 2009.
