Asia ex Japan Total Return Equity Fund I Acc GBP

Asia ex Japan Total Return Equity Fund (the "Fund")
a sub-fund of Matthews Asia Funds (the "Company")
I Accumulation GBP (the "Class") ISIN LU1311311515
Management Company: Carne Global Fund Managers (Luxembourg) S.A. (the "Management Company")

Objectives and investment policy

Objective: The Fund seeks total return through capital appreciation and current income.

Investment policy: The Fund seeks to achieve its investment objective by investing, directly or indirectly, primarily (i.e., at least 65% of its net assets) in income-paying publicly traded common stocks, preferred stocks, convertible preferred stocks and other equity related instruments (including, for example, investment trusts and other financial instruments) of companies located in or with substantial ties to the Asia ex Japan region. On an ancillary basis, the Fund may invest in other permitted assets on a worldwide basis. For the purpose of this policy, the Asia ex Japan region shall be deemed to consist of all countries and markets in Asia, excluding Japan but including all developed, emerging and frontier countries and markets in Asia. The Fund may invest (whether directly or indirectly) in China A Shares, either directly via a Qualified Foreign Investor ("QFI") license awarded to the Company, or via the Shanghai-Hong Kong Stock Connect and/or Shenzhen-Hong Kong Stock Connect programs, or indirectly via investment in access products. The Fund may directly or indirectly invest less than 70% of its net assets in aggregate in China A and B Shares. The Fund's reference benchmark is the MSCI All Country Asia ex Japan Index Gross (GBP) and is indicated for performance comparison only. The Fund is actively managed and does not aim to replicate or track the benchmark. Consequently, the Investment Manager, Matthews International Capital Management, LLC, may freely select the securities in which it invests, and the Fund's portfolio composition and performance may deviate materially from the benchmark. The Fund may also hold cash equivalents to achieve its investment objective, for treasury purposes and in case of unfavorable market conditions. The Fund promotes environmental and social characteristics according to Article 8 of the EU Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector (SFDR). Furthermore, the Fund uses both activity- and norm-based exclusions.

Dividend policy: Income generated by any of the investments is planned to be fully reinvested (that is, the Fund does not plan to make any dividend or interest payments).

Holding period: The Fund has no minimum holding period, however, the Fund has a long-term investment horizon (typically 5 years or longer). This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Share transactions: An investor can buy and sell shares of the Fund on any Business Day in Luxembourg.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

Typically higher rewards,
higher risk

- Interpretation of the Risk and Reward Indicator: The Risk and Reward Indicator takes into account historical data which is not a reliable indicator of the future. The risk category was calculated using related historical performance data and it may not be a reliable indicator of the Fund's future risk profile. The risk category of the Fund is neither a target nor guaranteed to remain stable over time. A risk category of 1 does not mean a risk free investment.
- Why is this Fund in this category? The Fund is in risk category 6 because it invests primarily in Asian equity securities. Many Asian markets are considered to be emerging markets and may experience sharp changes in valuation ("volatility"). Sharp changes in valuation are expected to result in sharp changes in the Fund's net asset value.
- Are there other particular risks you should consider? The Risk and Reward Indicator does not provide an overall risk profile of the Fund, nor does it fully capture all the risks of investing in the Fund. Risks that you should consider include: market risk, interest rate risk, foreign exchange risk, settlement risk, valuation risk, credit risk, counterparty risk, liquidity risk, compliance risk, custody risk, operational risk, political risk, legal risk, regional and country risk, risk of investing in China A Shares, risks associated with smaller companies, and high yield risk. Investments in less developed financial markets may expose the Fund to increased operational, legal and political risk. For more details about risk, please refer to the Fund's Prospectus under "Risk Considerations," which is available at global.matthewsasiasia.com/prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

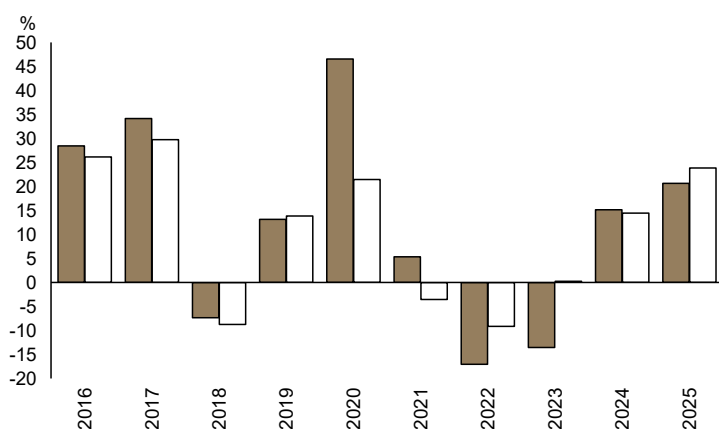

Ongoing charges	0.90%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	Not applicable
-----------------	----------------

- The ongoing charges figure is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
- Entry/Exit Charges: An Entry Charge of up to 5% on the value of your investment before it is invested in the Fund may be charged by your financial advisor or distributor. In some cases you may pay an Entry Charge of less than 5%. Exit Charges are amounts taken out of the proceeds of your investment before they are paid out or invested in another sub-fund. All of these Charges reduce the size of your investment and your return. Actual amounts can be obtained from your financial advisor or distributor.
