ISIN:IE00BF1T6T10

The Company is managed by Brown Advisory (Ireland) Limited ("the **Manager**"), part of the Brown Advisory group of companies.

Objectives and Investment Policy

Objectives

The Fund aims to achieve capital growth.

Investment Policy

The Fund aims to achieve its investment objective by investing at least 80% of its net assets in equity securities of US companies that the Investment Manager considers have sound fundamentals and business models which are sustainable over the long-term.
The Fund invests primarily in the securities of medium and large capitalisation companies that the Investment Manager considers
(1) have prospects for above average earnings growth in the future, and
(2) effectively implement sustainable business strategies that drive earnings growth.
The equity securities in which the Fund principally invests are common stocks. The Fund may also invest in non-US securities, American and Global Depositary Receipts, US treasury bills, fixed and/or floating rate US government securities, real estate investment trusts and unlisted securities.
Medium and large capitalisation companies are, according to the Investment Manager, those companies with market capitalisations generally greater than $2 billion at the time of purchase.
The Fund may also invest a portion of the portfolio in equity securities of small market capitalisation companies.
The Investment Manager has determined that the Fund is an Article 8 financial product for sustainability-related disclosures ("SFDR").
The equity securities in which the Fund invests are screened based on certain SRI criteria in accordance with various principles set out in declarations and conventions signed by the international community, including, but not limited to, the ten United Nations Global Compact Principles whose purpose is to increase awareness of a sustainable global economy at company level.
Equity securities issued by companies violating such principles and not addressing such violations adequately will not be included in the Fund's portfolio.
Other criteria may, as necessary, apply in developing "socially responsible" screens.
The Fund's exposure to non-U.S. securities (including securities of issuers in Emerging Market Countries) will not exceed 15% of its Net Asset Value and its exposure to below Investment Grade debt securities will not exceed 10% of its Net Asset Value.

- The lowest category does not mean your investment is risk free.
- The Fund's investments are subject to normal market fluctuations and other risks inherent in equities.

Other Particular Risks: Below are certain risks that you should be aware of that may result in a loss or reduction in the value of your investments. These risks are not exhaustive. Potential investors should consult the Prospectus and their professional advisers before investing in the Fund.

Operational Risk: The Fund's operations depend on third parties, including the Fund's Administrator and Custodian, and the Fund may suffer disruption or loss in the event of their failure.

Equities Risk: Equity investments are subject to greater fluctuation in market value than other asset classes as a result of such factors as a company's business performance, investor perceptions, stock market trends and several economic conditions. This may cause the Fund's share price to fluctuate.

Liquidity Risk: The Fund may invest in securities which may, due to negative market conditions, become difficult to sell or may need to be sold at an unfavourable price. This may affect the overall value of the Fund.

Counterparty Risk: There is a risk that a counterparty will not fulfil its payment obligation for a trade, contract or other transaction, on the due date. The insolvency of any institution providing services such as the safekeeping of assets or acting as counterparty in respect of derivatives or other instruments may expose the Fund to financial loss.

Geographic Concentration Risk: The Fund's assets are concentrated in the United States market which may lead to greater price fluctuations than if it were invested in securities of a broader geographic base.
