

# KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

I Acc GBP (ISIN: IE000HUR0BX5)

Fiera Atlas Global Companies Fund (the "Fund"), a sub-fund of Magna Umbrella Fund plc (the "Company")  
The Company is managed by Bridge Fund Management Limited (the "Manager"), a member of the MJ Hudson Group

## OBJECTIVES AND INVESTMENT POLICY

The investment objective of the Fund is to seek to deliver annualised double digit returns (10% or greater) before fees and costs, with lower risk of capital loss than broader global equity markets, over the long term of investing in a portfolio of listed equities and holding them generally for an investment horizon of over 5 to 7 years. The Fund invests in what the Investment Manager considers to be 25 to 35 global exceptional companies with strong wealth creation credentials. It is expected that a minimum of 80% of the Fund's portfolio will generally consist of long positions in global publicly listed equities. The Fund may invest up to 20% of its net assets in Chinese A-shares traded via Hong Kong-Shanghai Stock Connect and/or Hong Kong-Shenzen Stock Connect. The Fund will not invest more than 10% of its net assets in units or shares of other open-ended collective investment schemes. The Fund may hold one of the following permitted securities: subscription rights, participation units or warrants to the extent that one of the issuers whose equities are held in the portfolio issues any of the following securities to the holder of any equity security issued by it. These subscription rights, participation units or warrants may embed derivatives and/or leverage. The Fund may also hold global depository receipts (GDR), American depository receipts (ADR) and other securities characteristics which are similar to equities.

In certain circumstances, the Fund may hold cash on deposit, and may also invest in eligible money market funds where this is consistent with the investment objective.

The Fund is considered to be actively managed in reference to the MSCI All-Country World Index (the "Benchmark") by virtue of the fact that it uses the Benchmark for performance comparison purposes. However, the Benchmark is not used to define the portfolio composition of the Fund or as a performance target and the Fund may be wholly invested in securities which are not constituents of the Benchmark.

The Fund may also retain amounts in liquid assets including short dated government bonds (fixed or floating rate which are rated BB- or higher by Standard & Poor's or its equivalent), time deposits and variable rate notes and will be of investment grade or better, up to a maximum of 20%. The Fund does not intend to use financial derivative instruments ("FDI") for investment purposes but may use options and forward currency exchange contract to hedge currency exposure. The global exposure generated through the use of FDI will not exceed 100% of the net asset value of the Fund (the "NAV") when calculated using the commitment approach.

Portfolio transaction costs will have a material impact on performance. These costs are taken from the assets of the Fund.

The base currency of the Fund is USD. Any non-base currency share classes will be currency hedged against the currency exposure between the denominated currency of the class and the base currency of the Fund.

Recommendation: This Fund should be considered as a medium to long-term investment.

This Class is an accumulating class and does not intend to distribute any income arising from the investments that it holds. Other classes in the Fund are either accumulating or distributing.

You may redeem your Shares in the Fund on any day on which banks in Dublin, London and New York are open for business.

For further information, please see the "Investment Objective" and "Investment Policy" sections of the supplement in respect of the Fund (the "Supplement"). Unless otherwise defined in this document, all words and expressions defined in the prospectus in respect of the Company (the "Prospectus") shall have the same meaning herein.

## RISK AND REWARD PROFILE

These numbers rate how the Fund may perform. Generally the potential for higher gains also mean a larger risk of losses.

The lowest category does not mean a risk free investment. Historical data, such as is used for calculating this indicator, may not be a reliable indication of the future risk profile of this Fund.

The risk and reward category for this Fund is not guaranteed to remain unchanged, and may shift over time.

This Fund is ranked at 5 because funds of this type have experienced medium to high rises and falls in value in the past.

*The following risks may not be fully captured by the risk and reward indicator:*

**Liquidity Risk:** Lower liquidity means there may be insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

**Sub-Custodial Risk:** The assets of funds traded in emerging markets may require the depository to entrust safekeeping to sub-custodians which may not provide the same degree of investor protection.

**Taxation Risk:** The laws and practices of certain emerging countries may not be as well established as those of developed countries and the Company could become subject to taxation laws applied retrospectively and not envisaged at the date investments are made, valued or sold.

**Credit Risk:** This refers to the likelihood of the Fund losing money if an issuer is unable to meet its financial obligations or goes bankrupt.

**Share Currency Designation Risk:** Changes in the value of the base currency of the Fund relative to the denominated currency of a share class may give rise to a risk for investors.

**Counterparty Risk:** The Fund may invest in derivative contracts and may find itself exposed to risk arising from the solvency of its counterparts and from their ability to respect the conditions of these contracts.

**Derivatives Risk:** Derivatives are highly sensitive to changes in the value of the assets they are based on. The impact on the Fund is greater where derivatives are used in an extensive way. The use of derivatives may result in the Fund being leveraged whereby the exposure of the Fund as a result of all positions held by it may exceed its net asset value and may result in gains or losses that are greater than the original amount invested. For more information on risks, please see the 'Risk Factors' section of the Prospectus and the Supplement.

## CHARGES

One-off charges taken before or after you invest	
Entry charge	5.00%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested or paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.86%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The Fund has the ability to pay the investment management fee from capital with the effect that capital may be eroded and that income will be achieved by foregoing the potential for future capital growth.

The entry and exit charges shown are maximum figures, and in some cases investors may pay less.

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment. You can find out the actual charges from your financial adviser or distributor.

The ongoing charges figure shown is estimated based on the expected total of charges (as the Fund does not have sufficient historical performance) and takes into consideration rebated fees as disclosed in the Supplement. The ongoing charges may vary from year to year and the Company's annual report will include detail on the exact charges made.

It excludes performance fees and portfolio transaction costs, except costs paid to the Depositary and any entry/exit charge paid to an underlying collective investment scheme, if any.

For more information about charges (including the application of anti-dilution levies), please see 'Fees and Expenses' in the Prospectus and the Supplement to the Prospectus, which are available on the website of [www.fundinfo.com](http://www.fundinfo.com).

## PAST PERFORMANCE

This chart shows how much the share class increased or decreased in value as a percentage in each year.

Performance has been calculated in the currency of the class and takes account of ongoing charges.

Past performance is not a reliable guide to the future performance.

This Class launched on 03/02/2022.

The past performance is from the merging UCITS, share class AMP Capital Global Companies Fund I GBP ACC, ISIN number LU1528918813.
