Fund Services

# IFSL Ravenscroft Global Blue Chip Fund Class B Shares

A Sub-fund of the IFSL Ravenscroft OEIC (ISIN Income GB00BZ3T3X22, Accumulation GB00BZ3T3W15)

This Fund is managed by Investment Fund Services Limited (IFSL)

## Objectives and Investment Policy

The aim of the Fund is to provide capital growth, that is, to increase the value of your investment, over a minimum of 5 years.

At least 80% of the Fund will be invested globally in the shares of companies.

The Fund is actively managed, which means the Investment Manager decides which investments to buy or sell and when. Investments will be made in large companies whose market capitalisation (the total market value of a company's shares) is in excess of £1 billion.

The Fund may invest across a range of developed markets globally with no minimum exposure to any one market or geographical region although no more than 80% will be invested in any one country.

The Investment Manager focuses on high quality companies, typically in North American and European markets, that are expected to benefit from the increase in global population, rising wealth and/or developments in technology.

The size of the holding will be determined by the value offered by a company given its growth prospects. The intention is to hold shares for 3 years or more, although companies may be sold sooner if they no longer fit the Investment Manager's investment philosophy.

The Fund will typically hold a fairly concentrated portfolio of around 35 companies operating in a range of different sectors.

The Fund will normally be fully invested save for an amount to enable ready

settlement of liabilities (including redemption of shares) and efficient management of the Fund both generally and in relation to strategic objectives, however may hold higher cash balances (up to 20%) in extreme market conditions.

The Fund may also hold money market instruments (a type of short-term loan) and funds which invest in these instruments for liquidity management purposes.

The Fund may use derivatives and forward transactions linked to exchange rates for the purpose of reducing currency risk, also known as hedging, but it is anticipated this will be infrequent. The Fund seeks to obtain its objective by investing in the equity securities of large and diverse businesses, generally with a market cap in excess of £1 billion and operating in multiple geographic locations and/or industry sectors.

The Investment Association (IA), the trade body for UK investment managers, has created a number of 'sectors', as a way of dividing funds into broad groups with similar characteristics.

The Fund's investment policy puts it in the IA Global sector. You may want to assess the Fund's performance compared to the performance of this sector.

The Fund pays income. If you wish to receive this please tell us. If you do not want to receive income you will be given accumulation shares which means income is invested back into the Fund and reflected in the price of your shares.

You can buy or sell all or part of your investment on any business day subject to the minimum holding requirements.

## Risk and Reward Profile

This indicator aims to give you a measure of the price movement of this share class based on past data. It uses historic returns over the last five years. If five years' data is not available, simulated data based on a representative portfolio is used.

Past data may not be a reliable indication of the future risk profile of the Fund. The risk category may change in the future and is not guaranteed. The lowest category does not mean risk free. The value of investments and the income from them may fall as well as rise and you may not get back the amount you originally invested.

This Fund has been measured as 5 because its investments have experienced moderate to high volatility in the past. The Fund's volatility is affected by various risks, including:

- The Fund will be exposed to stock markets and market conditions can change rapidly. Prices can move irrationally and be affected unpredictably by diverse factors, including political and economic events.

- The Fund invests in other currencies. Changes in exchange rates will therefore affect the value of your investment.

- The Fund invests mainly in North America therefore investments will be vulnerable to sentiment in that market which may strongly affect the value of the Fund.

Risks which are not adequately captured by the risk indicator include:

- In certain market conditions some assets may be less predictable than usual. This may make it harder to sell at a desired price and/or in a timely manner.

- In extreme market conditions redemptions in the underlying funds or the Fund itself may be deferred or suspended.

A more detailed description of the risks that apply to this Fund can be found in the Fund's prospectus.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment. The entry and exit charges shown are maximum figures. In some cases you may pay less - you can find this out from your financial adviser.

The ongoing charges figure is based on expenses for the year ending 30/11/2021. From 30 April 2021, the Ongoing Charge calculation has been extended to include, where relevant, charges incurred by closed-ended vehicles such as investment trusts. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units in another collective investment undertaking.

For more information about charges, please see Sections 22 - 24 of the Fund's Prospectus, which is available at [www.ifsfunds.com](http://www.ifsfunds.com).

### One-off charges taken before or after you invest

<b>Entry Charge</b>	0.00%
<b>Exit Charge</b>	None

This is the maximum that might be taken out of your money before it is invested.

### Charges taken from the fund over each year

<b>Ongoing Charges</b>	0.68%
------------------------	-------

### Charges taken from the fund under certain conditions

<b>Performance Fee</b>	None
------------------------	------

## Past Performance

### Historic performance to 31 December 2021

	2017	2018	2019	2020	2021
■ Fund	-	0.8	21.8	12.0	15.9
■ Benchmark	-	-5.7	22.0	14.8	17.6

Past performance is not a reliable indicator of future performance; the value of your investment and any income from it can go down as well as up.

Performance returns are based on the net asset value with distributable income reinvested and takes account of all ongoing charges, but not entry and exit charges. The past performance of this share class is calculated in GBP.

This Fund was launched on 3 July 2017.

This share class was launched on 3 July 2017.

Benchmark: IA Global.
