Wellington Global Impact Fund

GBP N AccU

Wellington Global Impact Fund (the "Fund") a Fund of Wellington Management Funds (Ireland) plc (the "Company")

ISIN: IE00BGPNQX08

Management company: Wellington Luxembourg S.à r.l.

OBJECTIVES AND INVESTMENT POLICY

- The Fund seeks long-term total returns.
- The Fund has a sustainable objective to seek to understand the world's social and environmental problems and to identify and invest in companies that it believes are addressing these needs in a differentiated way through their core products and services. The Fund through its investments, will seek to improve access to, and the quality of, basic life essentials, reduce inequality and mitigate the effects of climate change. The Fund will be actively managed and seeks to deliver long-term total returns seeking to outperform the MSCI All Country World Index ("the Index") and achieve its objectives by investing primarily in global equities, focusing on companies whose core business, the investment manager believes, aims to generate positive social or environmental change alongside a financial return.
- The Fund may hold concentrated positions within an Impact Theme and is expected to have a natural bias towards small to mid-capitalisation companies that are experiencing strong growth. Whilst the Fund will generally be well diversified by country, currency, industry and issuer, it may hold positions that are concentrated in this manner from time to time. The Fund will generally invest in developed countries and may invest up to 40% in emerging and frontier markets.
- The Fund will invest in shares and other securities with equity characteristics such as preferred stocks, convertible securities or depository receipts. The Fund may invest either directly or via derivatives.
- Derivatives may be used to hedge (manage) risk and for investment purposes (such as gaining exposure to a security).
- The Index serves as a reference benchmark for performance comparison purposes. Whilst Fund securities may be components of the Index, the Index is not considered during portfolio construction and the investment manager will not manage the extent to which Fund securities differ from the Index. The Index is designed to measure equity market performance of developed and emerging markets.
- The Fund will invest at least 90% in companies that are considered Sustainable Investments and contribute to the Fund's primary impact categories of life essentials, human empowerment, and the environment, and within these categories across one or a combination of Impact Themes such as sustainable agriculture and nutrition, clean water and sanitation, health, affordable housing, education and jobs training, financial inclusion, digital divide and cybersecurity, alternative energy, resource stewardship, and resource efficiency. The investment manager believes identifying investment opportunities which generate a positive impact requires bottom-up fundamental research, however the Fund also uses screening to ensure certain investments are excluded. A full list of these exclusion can be found in the Fund's pre-contractual disclosure document within the prospectus.
- Any income allocated to the share class from the Fund is reinvested.
- Shares can be bought or sold daily in accordance with the Prospectus. The base currency of the Fund is USD.
- This Fund may not be appropriate for investors who plan to withdraw their money within five years. An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.
- The currency of this share class is different to the base currency of the Fund and so the performance of the share class will be subject to the impact of the movement of the exchange rate between the currencies.
