AXA Framlington Health Fund

Unit class : AXA Framlington Health Fund Z Income GBP (ISIN: GB00BRJZVQ71)
This Fund is managed by AXA Investment Managers UK Limited, part of the BNP Paribas S.A. Group

Objectives and Investment Policy

Investment Objective

The aim of this Fund is to provide long-term capital growth over a period of 5 years or more.

Investment Policy

The Fund invests in shares of listed healthcare companies including producers of pharmaceuticals, biotechnology firms, medical device and instrument manufacturers, distributors of healthcare products, care providers and managers and other healthcare services companies, which the Manager believes will provide above-average returns. The Fund invests in companies of any size which can be based anywhere in the world albeit the Fund tends to be biased towards the US, as this is where the majority of healthcare related companies are based. The Manager selects shares based upon analysis of a company's financial status, the quality of its management, its expected profitability and prospects for growth.
While the Fund does not pursue a specific sustainability objective, it avoids investing in companies which present excessive degrees of environmental, social and governance (ESG) risk. The Manager applies AXA Investment Managers' sector-specific investment guidelines relating to responsible investment, which exclude investment in soft commodity derivatives or exposure to certain companies based on their involvement in specific sectors (such as tobacco production, natural ecosystem conversion and deforestation, controversial weapons and climate risks). The Manager also applies the AXA Investment Managers ESG Standards policy, which excludes: (a) companies involved in the manufacture of white phosphorus weapons, or which fail to meet certain criteria relating to human rights and anti-corruption as well as other ESG factors; (b) companies which materially cause, contribute, or are linked to violations of international norms and standards or which are involved in incidents and/or events that pose a severe business or reputational risk to the relevant company due to the impact of its involvement on stakeholders or the environment; and (c) companies with the lowest ESG scores, being any score below 1.43 (out of a maximum score of 10), reflecting the worst ESG practices.
A company's ESG score will also be considered, where applicable. ESG scores are obtained from the Manager's selected external provider(s) as detailed in the "Responsible Investment" section of the prospectus and may be adjusted by the Manager (or created by the Manager where an external score is not available), in each case using its own research. It is possible, however, that there will not be an ESG score for an investment in a limited number of cases. The Manager believes that companies with higher or improving ESG scores may be expected to manage risk associated with ESG issues more effectively, which may be expected to contribute to the better financial performance of such companies in the long term. The ESG score is, however, just one component of the Manager's investment decision-making process. The AXA Investment Managers ESG Standards policy and AXA Investment Managers' sector-specific investment guidelines are subject to change. The latest copies are available from the Manager on request.
The Manager undertakes engagements with investee companies with the aim of preserving or enhancing long-term value and creating better ESG outcomes for its investors over the long-term. More details on the Manager's approach to engagement with companies are available on the website https://www.axa-im.co.uk/ under the heading "Responsible Investing".
If the Manager deems that an investment no longer meets the criteria set out in this investment policy or its expectations in terms of that investment's prospects for achieving the Fund's objective, the Manager will disinvest as soon as practicable having regard to the best interests of the Fund's investors and in accordance with its best execution policy.
The Fund may also invest in other transferable securities and units in collective investment schemes (including schemes that are managed by the Manager or its associates). The Fund may use derivatives for Efficient Portfolio Management. Use may be made of borrowing, cash holdings, hedging and other investment techniques permitted in the applicable Financial Conduct Authority rules.
The Fund is actively managed, and the Manager has full discretion to select investments for the Fund in line with the above investment policy. In doing so, the Manager may take into consideration the MSCI World Healthcare Index (the "Index"), which is designed to measure the performance of large and mid-cap segments across a number of developed markets as selected by the index provider and best represents the types of companies in which the Fund invests. The Index may be used by investors to compare the Fund's performance.

Risk and Reward Profile

Lower Risk ← → **Higher risk**

Potentially lower reward — Potentially higher reward

1	2	3	4	**5**	6	7

The risk category is calculated using historical performance data and may not be a reliable indicator of the Fund's future risk profile.
The risk category shown is not guaranteed and may shift over time
The lowest category does not mean risk free.

Why is this Fund in this category?

The capital of the Fund is not guaranteed. The Fund is invested in financial markets and uses techniques and instruments which are subject to some levels of variation, which may result in gains or losses.

Additional Risks (risks materially relevant to the fund which are not adequately captured by the indicator)

Counterparty Risk: failure by any counterparty to a transaction (e.g. derivatives and securities lending) with the Fund to meet its obligations may adversely affect the value of the Fund. The Fund may receive assets from the counterparty to protect against any such adverse effect but there is a risk that the value of such assets at the time of the failure would be insufficient to cover the loss to the Fund.
Single Sector Risk: as this Fund is invested in a single sector, the Fund's value will be more closely aligned with the performance of that sector and it may be subject to greater fluctuations in value than more diversified funds.
Currency Risk: the Fund holds investments denominated in currencies other than the base currency of the Fund. As a result, exchange rate movements may cause the value of investments (and any income received from them) to fall or rise affecting the Fund's value.
Further explanation of the risks associated with an investment in this Fund can be found in the prospectus.

Charges

The charges you pay are used to pay the cost of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	none
Exit charge	none
This is the maximum that might be taken out of your money before it is invested.	
Charges taken from the fund over a year	
Ongoing charges	0.82%
Charges taken from the fund under certain specific conditions	
Performance fee	none

The entry and exit charges shown are maximum figures. In some cases, you might pay less - you can find this out from your Financial Adviser.

The ongoing charges figure is based on expenses for the previous twelve month period. This figure may vary from year to year. It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

For more information about charges, please refer to AXA IM website: https://www.axa-im.co.uk/important-information/fund-charges-and-costs as well as the Fees and Expenses section of the prospectus which is available at https://funds.axa-im.com.
