

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

CT (LUX) RESPONSIBLE GLOBAL EMERGING MARKETS EQUITY (THE "FUND")

Class A (USD Distribution Shares) LU0153359632, a sub-fund of Columbia Threadneedle (Lux) III (the "Company"), regulated by the CSSF.

This Fund is managed by Threadneedle Management Luxembourg S.A. (the "Manager"), (part of the Columbia Threadneedle Investments group of companies).

Objectives and Investment Policy

- The objective is to provide a medium through which investors may participate in an actively managed portfolio of equities and equity related securities such as warrants (the right to purchase a security, usually an equity, at a specific price within a certain time frame) of companies in emerging markets, which contribute to or benefit from sustainable economic development.
- The manager will only invest in companies that demonstrate a clear commitment to Good Governance and Sustainability. Companies will be required to meet standards, including board balance and independence, transparency and disclosure and the protection of shareholder rights. They must also demonstrate a clear commitment to sustainable environmental and social practices.
- The Fund may invest in financial and currency futures contracts (the purchase of an asset at a predefined price and a predetermined future date) for the purposes of hedging and efficient portfolio management. The Fund is actively managed in reference to the MSCI Emerging Markets NR Index. The index is broadly representative of the securities in which the Fund invests, and provides a suitable comparator benchmark against which Fund performance will be measured and evaluated over time.
- The fund manager has discretion to select investments with weightings different to the index, and that are not in the index, and the Fund may display significant divergence from the index.
- Any income the Fund generates will be paid to you.
- You can buy or sell shares in the Fund on any day which is a business day in Luxembourg and London. You can find more detail on the investment objective and policy of the Fund in the Prospectus. For more information on investment terms used in this document, please see the Glossary available at columbiathreadneedle.com.
- Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Lower Risk,
Typically lower rewards

Higher Risk,
Typically higher rewards

- The Fund is rated 6 because historically it has shown a high level of volatility (how much the value of the Fund goes up and down).
- The lowest category does not mean a risk-free investment.
- The indicator does not take into account the following risks:
 - Counterparty Risk: to gain greater income the Fund may deposit cash with various approved Counterparties. Return of the cash is dependent upon the continued solvency of the Counterparty.
 - Currency Risk: your investment may be adversely affected by changes in currency exchange rates.
 - Liquidity Risk: the ability to buy and sell assets at a favourable price may be affected by a low level of counterparties willing to enter into a transaction with the Fund.
 - Market Risk: the value of assets held by the Fund may go down as well as up. There can be no assurances that the investment objectives of the Fund will be achieved.
 - Warrants: small movements in the price of the asset to which the warrant relates may result in a disproportionately large movement, up or down, in the price of the warrant.
 - Emerging Market Risk: investing in Emerging Markets may provide greater rewards but carries greater risk due to possibility of low liquidity, high currency fluctuation, the adverse effect of social, political and economic security, weak supervisory structures and weak accounting standards.
 - Sustainability Screening Risk: the screening out of sectors or companies on governance and sustainability grounds may mean the Fund is more sensitive to price swings than an equivalent unscreened fund.
 - Style Bias Risk: an investment style bias can impact a fund's performance relative to its benchmark in a positive or negative way. No investment style performs well in all market conditions. When one style is in favour another may be out of favour. Such conditions may persist for short or long periods. A fund exhibits a growth style bias relative to its benchmark if the majority of the fund invests in companies with above average growth rates, or good growth potential (based on indicators such as earnings and sales growth) relative to its benchmark. However, there is no guarantee that such companies will continue to show such characteristics in the future. A fund's investment style may also change over time.
- The risks currently identified as applying to the Fund are set out in the "Risk Factors" section of the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry Charge:	5.00%
Exit Charge:	0.00%

These are the maximum charges that we might take out of your money before it is invested. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the fund over a year

Ongoing Charges:	2.00%
------------------	-------

Charges taken from the fund under certain specific conditions

Performance Fee:	NONE
------------------	------

The ongoing charges figure is based on expenses for the year ending 28/11/25. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).

For more information about charges please see the Fund's prospectus.

Past Performance

Past performance is not a guide to future performance.

Fund launch date: 01/07/1994

Share/unit class launch date: 01/07/1994

Performance is calculated in USD.

All charges and fees, except any entry, exit and switching charge, have been included within the performance.

This chart shows how much the Fund increased or decreased in value as a percentage each year.

*MSCI Emerging Markets NR (Although the Fund makes reference to the index as part of the investment process, it is not intended that the performance of the Fund should track the index.)

Practical Information
