This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

M&G Smaller Companies Fund

a sub-fund of M&G Investment Funds (3)

Sterling Class A – Income shares ISIN no. GB0031289324

Managed by M&G Securities Limited

Objective and investment policy

The fund aims to provide a combination of capital growth and income that is higher than the Numis Smaller Companies Index (excluding Investment Companies), net of the ongoing charge figure, over any five-year period.

Core investment: At least 80% of the fund is invested in the shares of smaller companies, across any sector, that are listed in the UK. These companies are at the initial time of purchase:

- in the bottom 10% (by market capitalisation) of the FTSE All-Share Index; or
- in the Numis Smaller Companies Index (excluding Investment Companies); or
- listed on the Alternative Investment Market.

Other investments: The fund may invest in other funds and cash or assets that can be turned into cash quickly.

Derivatives Usage: To reduce risk and costs.

Strategy in brief: The fund manager selects stocks using a bottom-up approach. A long-term perspective is adopted with particular focus placed on the factors driving a company's growth, its competitive advantage, change, quality of management and valuation.

Benchmark: Numis Smaller Companies Index excluding Investment Companies. The benchmark is a target which the fund seeks to outperform. The index has been chosen as the fund's benchmark as it best reflects the scope of the fund's investment policy. The benchmark is used to measure the fund's performance and, together with the other index, and the Alternative Investment Market as referenced in "Core investment" constrains the fund's portfolio construction as they define the investment universe of the Fund.

The fund is actively managed. Within the given constraints, the fund manager has complete freedom in choosing which investments to buy, hold and sell in the fund. The fund's holdings may deviate significantly from the benchmark's constituents.

For unhedged and hedged Share Classes, the benchmark is shown in the Share Class currency.

Other information

You can buy and sell shares in the fund on any business day. Instructions received before 12 noon will be dealt at that day's price.

Any income from the fund may be paid out to you semi-annually.

In addition to the charges set out in the charges section, the fund will incur portfolio transaction costs which are paid from the assets of the fund.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

▪ The above risk and reward indicator is based on historical data and may not be a reliable indication of the future risk profile of this share class. This Share Class is categorised in risk class 6 because its Net Asset Value has shown high rises and falls in value historically.

▪ The risk number shown is not guaranteed and may change over time.

▪ The lowest risk number does not mean risk free.

The main risks that could affect performance are set out below:

▪ The value and income from the fund's assets will go down as well as up. This will cause the value of your investment to fall as well as rise. There is no guarantee that the fund will achieve its objective and you may get back less than you originally invested.

▪ The fund invests in shares of smaller companies which may be less liquid and more volatile in price than shares of larger companies.

▪ The fund can be exposed to different currencies. Movements in currency exchange rates may adversely affect the value of your investment.

▪ In exceptional circumstances where assets cannot be fairly valued, or have to be sold at a large discount to raise cash, we may temporarily suspend the fund in the best interest of all investors.

▪ The fund could lose money if a counterparty with which it does business becomes unwilling or unable to repay money owed to the fund.

▪ Operational risks arising from errors in transactions, valuation, accounting, and financial reporting, among other things, may also affect the value of your investments.

Further details of the risks that apply to the fund can be found in the fund's Prospectus at www.mandg.co.uk/literature

Charges

The charges shown in the table are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charge	1.25%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are the maximum figures and, in some cases, you may pay less. You can find out the exact charges which apply to your investment by contacting your financial adviser or distributor or, if you have invested directly with us, you can contact us using the details given in the practical information section.

The above ongoing charge figure is an estimate of the charges because of a change to the charging structure with effect from 15 February 2021.

The ongoing charge figure may vary from year to year and excludes portfolio transaction costs. The charges are mostly, if not exclusively, the Annual Charge which may be discounted depending on the size of the fund. The Annual Charge without any discount is 1.25%. The fund's annual report for each financial year will include details on the exact charges made.

For Income shares, the ongoing charge is taken from investments held in the fund's portfolio and not from the income these investments produce. The deduction of this charge will reduce the potential growth of your investment.

For more information on charges, please see the relevant sections of the Prospectus at www.mandg.co.uk/literature

Past performance

- Past performance is not a guide to future performance.
- Performance calculation includes UK taxes. It does not take into account the entry and exit charges but does take into account the ongoing charge and the Performance fee, as shown in the charges section.
- The fund launched on 27 September 1967 and the Sterling Class A Income share class launched on 27 September 1967.
- Performance is calculated using Sterling Class A Income shares.
- Benchmark performance has been calculated in GBP.
