Circular Economy Fund

A sub-fund of BlackRock Global Funds

Class D2 EUR

ISIN: LU2041044335

Management Company: BlackRock (Luxembourg) S.A.

Objectives and Investment Policy

- The Fund aims to provide a return on your investment through a combination of capital growth and income on the Fund's assets.
- The Fund invests globally at least 80% of its total assets in the equity securities (i.e. shares) of companies globally that benefit from, or contribute to, the advancement of the "Circular Economy". The Circular Economy concept recognises the importance of a sustainable economic system and aims to minimise waste by considering the full life-cycle of materials, and redesigning products and operations to encourage greater re-use and recycling.
- The Fund's total assets will be invested in accordance with its Environmental, Social and Governance ("ESG") Policy as described in the prospectus and will apply the EU Paris-Aligned Benchmark Exclusions as disclosed in the prospectus. For further details please refer to the prospectus.
- In normal market conditions the Fund will invest in a portfolio of equity securities of companies with large, medium and small market capitalisation (market capitalisation is the share price of the company multiplied by the number of shares issued) that are involved in activities including the following: raw materials (e.g. metals and battery materials), across all industry sectors, that contribute to the advancement of a Circular Economy across three categories as described in the prospectus: (1) Adopters (2) Enablers (3) Beneficiaries. The companies are rated by the investment adviser (IA) based on their ability to manage the risks and opportunities associated with the Circular Economy and on their environmental, social and governance ("ESG") risk and opportunity credentials.
- The IA may use financial derivative instruments ("FDIs") (i.e. investments the prices of which are based on one or more underlying assets) for investment purposes in order to achieve the investment objective of the Fund, and/or to reduce risk within the Fund's portfolio, reduce investment costs and generate additional income. The Fund may, via FDIs, generate varying amounts of market leverage (i.e. where the Fund gains market exposure in excess of the value of its assets).
- The Fund is actively managed. The IA has discretion to select the Fund's investments and is not constrained by any benchmark in this process. In doing so, the IA will refer to a composite benchmark comprising the MSCI ACWI IMI Sustainable Water Transition Index (33.33%), the MSCI ACWI IMI Plastic Transition Index (33.33%) and the MSCI ACWI IMI Natural Resources Stewardship Index (33.33%) (the "Benchmark"), for risk management purposes to ensure that the active risk (i.e. degree of deviation from the Benchmark) taken by the Fund remains appropriate given the Fund's investment objective and policy. The MSCI All Countries World Index (MSCI ACWI) should be used by investors to compare the performance of the Fund.
- Recommendation: This Fund may not be appropriate for short-term investment.
- Your shares will be non-distributing (i.e. dividend income will be included in their value).
- The Fund's base currency is US Dollar. Shares for this class are bought and sold in Euro. The performance of your shares may be affected by this currency difference.
- You can buy and sell your shares daily. The minimum initial investment for this share class is US$100,000 or other currency equivalent.

Risk and Reward Profile

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean risk free.
- The Fund is rated five due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
  - Shares in smaller companies typically trade in less volume and experience greater price variations than larger companies.
  - Currency Risk: The Fund invests in other currencies. Changes in exchange rates will therefore affect the value of the investment.
  - The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
  - Due to the criteria applied during stock selection to meet the definition of Circular Economy, the range of companies the fund can invest in may be less diversified than a typical fund. Circular Economy companies may be subject to environmental concerns, taxes, government regulation, price, supply and competition. Investors should consider this fund as part of a broader investment strategy.
- Particular risks not adequately captured by the risk indicator include:
  - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
  - Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

Charges

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual entry and exit charges.

*Subject to a charge of up to 2% paid into the Fund where the Manager suspects excessive trading by an investor.

The ongoing charges figure is based on expenses for the twelve month period ending 30 April 2026. This figure may vary from year to year. It excludes portfolio trade-related costs, except costs paid to the custodian and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

One-off charges taken before or after you invest	
Entry Charge	5.00%
Exit Charge	None*

This is the maximum that might be taken out of your money before it is invested or before proceeds of your investments are paid out.

Charges taken from the Fund over each year	
Ongoing Charges	0.99%**
Charges taken from the Fund under certain conditions	
Performance Fee	None

Past Performance

Past performance is not a guide to future performance.

The chart shows the Fund's annual performance in EUR for each full calendar year over the period displayed in the chart. It is expressed as a percentage change of the Fund's net asset value at each year-end. The Fund was launched in 2019. The share class was launched in 2019.

Performance is shown after deduction of ongoing charges. Any entry/exit charges are excluded from the calculation.
