

Key Investor Information

This document provides you with the key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

WS Canlife Sterling Short Term Bond Fund (the "fund"), Class I Accumulation, a fund within WS Canada Life Investments Fund (the "Company") (ISIN: GB00BN2S5T65)

Waystone Management (UK) Limited is the Authorised Corporate Director of the Fund

Objective and investment policy

Objective

To provide Investors with income (money available to be paid out by the fund) and stability of capital (the value of the fund) over a three year period. There is no guarantee that the objective will be met over any time period and you may get back less than you invest.

Investment Policy

To invest worldwide in sterling denominated short-term fixed income (investments which pay a fixed interest or dividend payment until their maturity date) and greater than 1 year maturing variable rate bonds (loans to either a company or government or public body that usually pay interest) including money market instruments (which are short term loans that pay interest).

The Sub-fund will hold a portfolio of high quality short-term fixed income and variable rate assets which are regarded as Investment Grade rated between AAA and BBB+), however the Sub-fund will invest in assets rated between AAA and A at the point of purchase. The assets are rated to indicate the probability that the issuer will repay the loan. The risk is lower on assets rated as investment grade, than it is on those rated non-investment grade. There are no weighted average maturity or weighted average life constraints on the Sub-fund and the residual maturity of an instrument may exceed two years.

The fund will typically allocate to between 40 and 80 issuers (an issuer is, for example, an entity to whom a loan was made). The fund's allocation to direct and indirect investment is variable.

The fund may enter into reverse repurchase agreements (purchases with the agreement to sell them at a higher price on a specific future date) on a short-term basis. The fund will apply negative screening and will exclude any issuers which derive more than 10% of their revenue from tobacco, controversial weapons, fossil fuels, tar / oil sands and thermal coal extraction.

In adverse market conditions the Sub-fund may be invested up to 100% in money market instruments.

The Investment Manager aims to provide investors with capital preservation, sustainable returns, daily liquidity and an uplift on yield compared to short-term bank deposits through a strategic portfolio construction process that is both continuous and scalable.

The Investment Manager uses internal research to select securities that offer the best balance of risk and return and believe that the avoidance of bad credits is critical to success.

Other features of the fund:

- The fund is actively managed. The Investment Manager uses their expertise to select investments for the fund and has the discretion to invest without the need to adhere to a particular benchmark.
- The fund may invest in other funds (including those managed by the Manager, the Investment Manager and their associates). Indirect investments may include instruments managed or advised by the ACD or the Investment Manager or their associates.
- You can buy and sell shares in the fund on each business day.
- Income from the fund will be added to the value of your investment.
- Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 3 years.

Risk and reward profile

- The fund has been classed as 2 because its volatility has been measured as low to medium.
- This indicator may not be a reliable indication of the future risk profile of this fund.
- The risk and reward profile shown is not guaranteed to remain the same and may shift over time. The lowest number on the scale does not mean that a fund is risk free.

- Counterparty Risk: The failure of a firm involved in a transaction with the fund or providing services to the fund may expose the fund to financial loss.
- Changes in Interest Rate Risk: A rise in interest rates generally causes money market asset prices to fall.
- Credit Risk: The value of a bond may be affected by its credit rating, the lower the rating the higher the risk of the issuer not paying interest or repaying the loan.
- Liquidity Risk: The fund may invest in assets where, in difficult market conditions, there is an increased risk that a position cannot be bought or sold in a timely manner or at a reasonable price and the Manager may suspend dealing in the fund.
- For more information about the fund's risks please see the Risk Factors section of the prospectus which is available at www.waystone.com.

Charges for this fund

The charges you pay are used to pay the costs of running the fund. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None
Charges taken from the fund over the year	
Ongoing Charges	0.15%
Charges taken from the fund under certain specific conditions	
Performance Fee	None

The ongoing charges figure is based on expenses for the year ended 15 August 2023. This figure may vary from year to year. The ongoing charges are taken from the income of the fund. They exclude portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.

You may also be charged a dilution levy (an amount to cover dealing costs incurred by the fund) on entry to or exit from the fund.

For more information about charges, please see the Company's prospectus which is available at www.waystone.com.
