Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

SVS RM Defensive Capital Fund Class A Income Shares [ISIN: GB00BS6WQL85] Accumulation Shares [ISIN: GB00BS6WQT61]

The Fund is a sub-fund of SVS RM Funds ICVC.
The Authorised Corporate Director of the Fund is Tutman Fund Solutions Limited trading as St Vincent St Fund Administration, part of the Thesis group.

Objectives and investment policy

The aim of the Fund is to preserve capital whilst looking for capital growth opportunities over the long term (at least five years) and positive absolute returns in any market conditions over rolling three year periods, net of fees. Returns are not guaranteed over any time period therefore capital is at risk.

In line with the Fund's strategy to invest in a defensive range of assets, the Fund will invest directly or indirectly in a diversified spread of assets, including:
• transferable securities (including structured notes, corporate bonds, convertible bonds and zero-dividend preference shares)
• investment trusts (which may obtain exposure to alternative assets such as real assets, specialist lending and structured credit)
• other collective investment schemes

The Fund may use derivatives, including exchange traded and over the counter derivatives, forward transactions and currency hedges for efficient portfolio management and investment purposes. To the extent that the Fund is not fully invested in the assets listed above, it may also invest in cash or near cash from time to time, but this will not normally exceed 30% of the value of the property of the Fund.

The collective investment schemes in which the Fund invests may include schemes managed by the ACD or the Investment Manager or an affiliate of the ACD or Investment Manager. The Fund will not invest more than 10% of its property in aggregate in the units or shares of other UCITS Schemes or other collective investment schemes.

Income shares: Any income the Fund generates will be paid out to you.

Accumulation shares: Any income the Fund generates will be reinvested.

You can buy and sell shares Monday to Fridays excluding UK public and bank holidays.

The Fund is actively managed, which means that the manager has discretion over the composition of its portfolio, and the Fund is not tracking a benchmark nor is the Fund constrained by the value, price or components of a benchmark or any other aspect. The Fund is also not aiming to match or exceed the return of any benchmark.

For full investment objectives, policy details and risk factors, please refer to the Prospectus.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards, lower risk — **Typically higher rewards, higher risk**

1	2	3	**4**	5	6	7

- The Fund is in a medium category because the price of its investments have risen or fallen to some extent. The category shown is not guaranteed to remain unchanged and may shift over time. Even the lowest category does not mean a risk-free investment. The price of the Fund and any income from it can go down as well as up and is not guaranteed. Investors may not get back the amount invested. Past performance is not a guide to future performance.
- Where the Fund invests in bonds, there is a risk the bond issuer may fail to meet its repayments. This is usually a greater risk for bonds that produce a higher level of income. Changes in interest rates, inflation and the creditworthiness of the bond issuer may also affect the bond's market value.
- Where the Fund invests into other investment funds, they may invest in different assets, countries or economic sectors and therefore have different risk profiles not in line with those of the Fund. Investment trusts and closed ended funds may borrow to purchase additional investments. This can increase returns when stock markets rise but will magnify losses when markets fall. The value of an investment trust or a closed-ended fund moves in line with stock market demand and its share price may be less than or more than the net value of the investments it holds.
- The Fund is entitled to use derivative instruments for EPM and investment purposes. Derivatives may not achieve their intended purpose. Their prices may move up or down significantly over relatively short periods of time which may result in losses greater than the amount paid. This could adversely impact the value of the Fund. The organisation from which the Fund buys a derivative may fail to carry out its obligations, which could also cause losses to the Fund.
- The Fund may invest in securities not denominated in sterling, the value of your investments may be affected by changes in currency exchange rates.
- If there are significant requests for redemption of shares in the Fund at a time when a large proportion of the Fund's assets are invested in illiquid investments (which are assets that may at times be hard to sell), there is a risk that there may be a delay in the investments being sold or the price at which they are sold may adversely affect the value of the Fund. The Fund's ability to settle redemptions could be impaired and it might be necessary to suspend dealings in shares in the Fund and in such circumstances investors may experience a delay or receive less than expected when selling their investments.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year	
Ongoing charges	0.89%

Charges taken from the Fund under specific conditions	
Performance fee	NONE

- The ongoing charges figure is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
- A dilution levy may be charged on a purchase or sale of shares in the Fund in some cases. It may be necessary to reduce the difference between the cost of buying or selling the Fund's investments and the Fund's mid-market share price. Any dilution levy charged will be paid into the Fund.
- The Fund's annual report for each financial year will include detail on the exact charges made.
- The ongoing charges figure is for the year ending 31/07/2026.
- For further information about charges, please refer to relevant sections in the Fund's prospectus.

Past performance

	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025
Fund	9.3	4.8	-1.5	7.8	3.3	12.0	-4.8	2.6	6.5	15.0
