

This document provides you with the key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

WS Montanaro UK Income Fund (the "Fund"),

a fund within WS Montanaro Funds (the "Company")
Waystone Management (UK) Limited is the Authorised Corporate Director of the Fund.

GBP A Income Shares (ISIN: GB00BJRCFQ29)

Objective and Investment Policy

Objective

To achieve growth in income (money available to be paid out by the Fund) and capital (an increase in the value of the Fund) after all costs and charges have been taken, over any five year period.

There is no guarantee that the objective will be met over any time period and you may get back less than you invest.

Investment Policy

To invest at least 60% of the Fund in the shares of small and medium sized UK companies, including REITs (Real Estate Investment Trusts are companies that aim to generate an income and/or profit from investing in property), that have a maximum market capitalisation (the total value of the company) of £10 billion.

The Fund may also invest up to 40% in larger UK companies, including REITs, money market instruments (which are short term loans that pay interest) and cash. The Fund may also invest up to 20% in small, medium and large sized companies, including REITs in the European Union (excluding for this purpose the United Kingdom), Iceland, Norway and Switzerland.

The Investment Manager will invest in shares of companies in accordance with their Ethical, Environmental, Social and Governance (ESG) Policy. This policy prevents, for example, investment in any shares that have more than 10% in revenue from the following: weapons, tobacco, gambling, pornography and alcohol. (The full ESG policy is available at www.waystone.com).

In addition, the Investment Manager buys companies that in their opinion

are of high quality, well-managed, with sound balance sheets and operate in markets that offer the potential to grow faster than the economy as a whole.

Other features of the Fund:

The Fund is actively managed. The Investment Manager uses its expertise to select investments for the Fund and has the discretion to invest without the need to adhere to a particular benchmark.

The Fund can invest in other funds (including those managed by the Manager, the Investment Manager and its associates).

The Fund can invest across different geographic areas and industry sectors without limitation.

You can buy and sell shares in the Fund on each business day.

The Fund aims to distribute available income quarterly. The level of income is not guaranteed and may fluctuate.

Derivatives (whose value is linked to that of another investment, e.g. company shares, currencies) may be used to manage the risk profile of the Fund.

The Investment Manager buys companies that in their opinion are of high quality, well-managed, with sound balance sheets and operate in markets that offer the potential to grow faster than the economy as a whole.

Recommendation: This Fund may not be suitable for investors who plan to withdraw their money within 5 years. More information on the management of this portfolio can be found at www.waystone.com.

Risk and Reward Profile

This indicator shows how much the Fund has risen and fallen in the past, and therefore how much the Fund's returns have varied. It is a measure of the Fund's volatility.

The higher a Fund's past volatility, the higher its position on the scale and the greater the risk that investors may have experienced losses as well as gains.

The Fund has been classed as 6 because its volatility has been measured as above average to high.

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward profile shown is not guaranteed to remain the same and may change over time.

The lowest number on the scale does not mean that the Fund is risk-free.

The value and income from the Fund's assets may go down as well as up. This will cause the value of your investment to fall as well as rise.

- Currency Risk: As the Fund invests in overseas securities, movements in exchange rates, when not hedged, cause the value of your investments to increase or decrease. Currency hedging, where applied, may not fully eliminate this risk and mismatches can occur.
- Counterparty Risk: The failure of a firm involved in a transaction with the Fund or providing services to the Fund may expose the Fund to financial loss.
- Derivative Risk: The Fund may use derivatives, which can be complex instruments. A derivative may not perform as expected and can create losses greater than its initial cost. A relatively small movement in value of the underlying investment may have a much larger impact, positive or negative, on the value of the Fund than if the Fund held the underlying investment directly.
- Liquidity Risk: The Fund may invest in assets such as corporate bonds or shares in smaller companies, that could become difficult to buy or sell in adverse market conditions. This may delay or restrict the Fund's ability to meet redemption requests and could negatively affect the Fund's value.
- Ethical and ESG Investments Risk: The Fund is prevented from investing in certain sectors or companies. This narrower range may constrain the Fund's performance. If an investment no longer meets the ethical exclusion criteria it will be sold and the price obtained may be less than could be obtained if a forced sale was not required.

For more information about the Fund's risks, please see the Risk Factors section of the prospectus which is available at www.waystone.com.

Charges for this Fund

The charges you pay are used to cover the costs of running the Fund, including marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None

This is the maximum that might be taken out of your money before it is invested/before the proceeds of your investment are paid out. In some cases, you may pay less. Please check with your financial adviser or distributor for the actual charges.

Charges taken from the Fund over the year	
Ongoing Charges	0.80%

Charges taken from the Fund under certain specific conditions	
Performance Fee	None

The ongoing charges figure is capped at 0.80%. The actual ongoing charge figure is 0.93% based on expenses as at 30 June 2025. Where the ongoing charge falls below the cap the actual figure applies. This figure may vary from year to year.

The ongoing charges are taken from the income of the Fund. They exclude portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

A dilution adjustment (an adjustment to cover the dealing costs incurred by the Fund) may be applied when you buy or sell shares. This changes the price you pay or receive and is normally only applied when dealing costs are significant.

For more information about charges (including any charges applied to the offset dealing costs), please refer to the Company's Prospectus, available at www.waystone.com.

Past Performance

Past performance is not a guide to future performance.

The past performance in the chart is net of tax and charges but excludes any entry or exit charges that may apply.

The Fund was launched on 31 January 2020. This share class was launched on 31 January 2020.

Past performance is calculated in GBP.

Practical Information

WS Montanaro Funds
