## MGTS Downing Fox 100% Equity A Acc (GB00BQBCV812)

The Sub-fund is managed by Margetts Fund Management Limited.

### Objective and Investment Policy

#### Investment Objective

The investment objective of the Sub-fund is to achieve capital growth over the medium to long term (five years and over).

#### How will the objective be achieved?

The Sub-fund will seek to achieve its objective by actively selecting and investing 100% (or as close to 100% as is practical given liquidity management considerations) of its portfolio in a range of actively-managed OEICS, Unit Trusts, and other collective investment vehicles (including exchange traded funds and which may include funds managed by the ACD or Investment Manager) providing exposure to a globally-diversified range of equities. The funds held in will be managed by a carefully selected range of active investment managers. As a global portfolio, the Sub-fund will hold sterling and non-sterling assets. The UK will generally form one of the largest single country exposures, representing up to 30% of this portion of the portfolio.

The Sub-fund is permitted to fully invest in collective investment schemes however the Sub-fund may hold cash for ancillary purposes and general liquidity requirements.

Save as noted above, the Sub-fund will not have any particular geographic, industry or economic sector focus and as such weightings in these may vary as required.

#### Management Style

The Sub-fund is actively managed, meaning that the manager selects investments, rather than tracking a stock exchange or index.

#### Derivative Use

The use of derivatives and/or hedging transactions are permitted in connection with the efficient portfolio management (managing the Fund in a way that is designed to reduce risk or cost and/or generate extra income or growth or both). The Sub-fund may hold assets which embed derivatives that are used for investment purposes and efficient portfolio management, although this would not materially affect the risk exposure of the Sub-fund.

#### General

Shares in the Sub-fund can be bought and sold daily (every Business Day of the Sub-fund). If you invest in income shares, income from investments in the Sub-fund will be paid out to you. If you invest in accumulation shares, income will be retained in the value of your shares.

Recommendation: this Sub-fund may not be appropriate for investors who plan to withdraw their money within 7 years.

### Risk and Reward Profile

The risk and reward score is not guaranteed and may change over time. The lowest category does not mean risk free.

The Sub-fund is in this category due to the nature of its investments and previous levels of volatility (how much the value of the Sub-fund rises and falls). The risk and reward score is based on past performance and calculated in accordance with European legislation. It may not be a reliable indication of the future risk profile.

The following risk factors are relevant to the overall risk profile of the Sub-fund. Investments in collective investment schemes may provide a higher level of diversification but may also increase costs.

The underlying collective investment schemes may also experience operational or credit issues which could impact liquidity (the ability to sell) or capital value.

Exposure to currencies other than the base currency is subject to currency fluctuations which could add to the rise and fall in value of investments.

The value of smaller companies may fluctuate more than other investments. Smaller companies may offer greater opportunities for capital appreciation than larger companies. However, they are more likely to have limited product lines, markets or financial resources, or to depend on a small, inexperienced management group. They may be less liquid than larger companies and more expensive to trade. The increased risk associated with smaller companies means that their share prices fluctuate more than larger companies.

The objective, policy and strategy set out above should align with the objectives of the investors and their minimum timeframe for investment.

## Charges

The charges you pay are used to pay the costs of running the Sub-fund, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

| One-off charges taken before or after you invest |       |
|--|-------|
| Entry Charge                                     | 0.00% |
| Exit Charge                                      | 0.00% |

The entry and exit charges shown are the maximum figures. In some cases you might pay less – you can find this out from your financial adviser.

| Charges taken from the Sub-fund over a year |        |
|---|--------|
| Ongoing Charges                             | 1.00%* |
| Performance Fee                             | 0.00%  |

The ongoing charges figure is based on the last year's expenses (or reasonable estimate where Sub-fund has not been operating for a full calendar year), for the year to 31 Dec 2025 and this figure may vary, year to year. It excludes portfolio transaction costs.

For further details on the calculation of the charges please refer to the Sub-fund's prospectus.

\* The Investment Manager of the Sub-fund has undertaken to absorb any costs that would otherwise cause the share class to have ongoing charges in excess of the cap specified in the prospectus (1.00%). In the absence of such commitment the ongoing charges are estimated to be 1.31%.

## Past Performance

Past performance is not a reliable guide to future performance.

The past performance shown here takes account of all charges and costs except entry and exit charges and it is inclusive of net reinvested income.

The Sub-fund was launched on 27 Jun 2023.

The share class was launched on 27 Jun 2023.

The performance is calculated in pounds sterling.
