

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## Ocean Equity Fund (the "Fund"), B Accumulation a fund within Ocean Investment Funds (the "Company") (ISIN: GB00BDRNX587)

Waystone Management (UK) Limited is the Authorised Corporate Director of the Fund

### Objectives and investment policy

The Fund aims to achieve capital growth and income (after fees, charges and other expenses payable out of the Fund) in excess of the Cboe UK All Companies Index over the long-term (between 5 and 7 years).

At least 70% of the Fund will be invested in the equity securities of companies that are either domiciled or incorporated in the United Kingdom or have their primary listing on a UK market. The Fund may also invest (up to a maximum of 20%) in the equity securities of other companies anywhere in the world.

The Fund is actively managed and is not constrained by its target benchmark. The Investment Adviser aims to invest in a portfolio of high quality companies offering strong and sustainable cashflows. Quantitative and qualitative analysis will be undertaken to identify equity securities in companies that offer a combination of high margins and high returns on equity.

To the extent not fully invested in such companies, the Fund may also invest in collective investment schemes (up to 10%), deposits and cash (or near cash). The collective investment schemes in which the Fund may invest may include those managed or operated by the ACD and its associates.

The Fund may use derivatives to reduce risk or cost or to generate additional capital or income at proportionate risk (known as "Efficient Portfolio Management"). It is intended that the use of derivatives will be limited.

Investors can redeem shares on demand, at the daily valuation point of 12 noon (UK time) when this is a normal business day in the UK.

For income shares, any income received is paid out to you twice a year. For accumulation shares, any income received is reflected in the price of shares.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money in the short-term (within 5 years). The Fund should be viewed as a medium to long-term investment only.

### Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

- The Fund is in the above risk category because it invests in shares.
- The lowest category does not mean a Fund is a risk free investment.
- The value of investments may go down as well as up in response to general market conditions and the performance of the assets held. Investors may not get back the money which they invested.
- There is no guarantee that the Fund will meet its stated objectives.
- The movements of exchange rates may lead to further changes in the value of investments and the income from them.
- There is a risk that any company providing services such as safe keeping of assets or acting as counterparty to derivatives may become insolvent, which may cause losses to the Fund.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

### Charges taken from the Fund over a year

Ongoing charges	1.00%
-----------------	-------

### Charges taken from the Fund under specific conditions

Performance fee	No
-----------------	----

- The ongoing charges figure is based on the expenses incurred by the Fund for the six months ended 31 October 2023.
- The figure may vary from year to year. It excludes payments related to interest on borrowing and portfolio transaction costs, except in the case of transaction fees payable to the custodian.
- Ongoing charges are deducted from capital which will assist the income yield but may constrain capital growth.
- For details of the actual charges, please contact your financial adviser/distributor.

## Past performance

Source: FE fundinfo 2024

- You should be aware that past performance is not a guide to future performance.
- Fund launch date: 14/05/2018.
- Share/unit class launch date: 14/05/2018.
- Performance is calculated in GBP.
- GPB refers to British pounds.
- Funds with a track record of less than five complete calendar years are required to report a blank space confirming the date only.
- Performance is shown inclusive of all charges, except entry charges.
- Performance is shown on a total return basis (on the basis that distributable income has been reinvested).
- \* Benchmark 1 - Cboe UK All Companies

## Practical information

- This key investor information document describes a fund within the Company. The prospectus and periodic reports are prepared for the entire company.
