

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Schroder Income Portfolio

an Authorised Unit Trust of Schroder Unit Trusts Limited

Class Z Accumulation GBP (GB00B4K1MN77)

This fund is managed by Schroder Unit Trusts Limited, which is a member of the Schroders Group.

Objectives and investment policy

Objectives

The fund aims to provide an income of 3% to 5% per year and capital growth by investing in a diversified range of assets and markets worldwide with a target average annual volatility (a measure of how much the fund's returns may vary over a year) over a rolling five year period of between 50% to 65% of that of global stock markets (represented by the MSCI All Country World Index). This is not guaranteed and could change depending on market conditions.

Investment Policy

The fund is actively managed and invests its assets in collective investment schemes, closed ended investment schemes, real estate investment trusts and exchange traded funds which themselves invest worldwide in any of the following:

- (A) equity or equity related securities;
- (B) fixed income securities (including government bonds and corporate bonds);
- (C) currencies;
- (D) alternative assets; and
- (E) derivatives.

Alternative assets may include funds that use absolute return strategies or funds that invest indirectly in real estate, infrastructure and commodities.

The fund seeks to achieve the target average volatility by varying the weighting of asset types. During the relevant rolling five year period the fund's volatility

may be higher or lower than the target average level if the investment manager believes it is necessary to seek to mitigate potential losses. The fund's potential gains and losses are likely to be constrained by the aim to achieve its target average volatility.

The fund invests up to 35% (depending on risk profile of the range) of its assets in equity and equity related securities.

The fund may invest up to 20% of its assets in Schroder funds. The fund may also hold cash.

The fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the fund more efficiently (for more information please refer to Appendix I Section 10: 'Derivatives and forwards' of the Prospectus).

Benchmark

The fund's performance should be assessed against the income target of 3-5% per year, and compared against the Investment Association Mixed Investment 20% to 60% Shares sector average return.

Dealing Frequency

You may redeem your investment upon demand. This fund deals daily.

Distribution Policy

This unit class accumulates income received from the fund's investments, meaning it is kept in the fund and its value is reflected in the price of the unit class.

Risk and reward profile

The risk and reward indicator

The risk category was calculated using historical performance data and may not be a reliable indicator of the fund's future risk profile.

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

Risk factors

Multi-Manager risk: The fund allocates capital to multiple strategies managed by separate portfolio managers who will not coordinate investment decisions, which may result in either concentrated or offsetting risk exposures.

Performance risk: Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

Counterparty risk: The fund may have contractual agreements with counterparties. If a counterparty is unable to fulfil their obligations, the sum that they owe to the fund may be lost in part or in whole.

Credit risk: If a borrower of debt provided by the fund or a bond issuer experiences a decline in financial health, their ability to make payments of interest and principal may be affected, which may cause a decline in the value of the fund.

Currency risk: If the fund's investments are denominated in currencies different to the fund's base currency, the fund may lose value as a result of movements in foreign exchange rates, otherwise known as currency rates. If the investor holds a share class in a different currency to the base currency of the fund, investors may be exposed to losses as a result of movements in currency rates.

Derivatives risk: Derivatives, which are financial instruments deriving their value from an underlying asset, may be used to manage the portfolio efficiently. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund.

High yield bond risk: High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk meaning greater uncertainty of returns.

Interest rate risk: The fund may lose value as a direct result of interest rate changes.

Liquidity risk: In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares, meaning investors may not be able to have immediate access to their holdings.

Operational risk: Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.

Charges

One-off charges taken before or after you invest

Entry charge None

Exit charge None

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges 0.57%

Charges taken from the fund under certain specific conditions

Performance fee

None

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses for the year ending December 2025 and may vary from year to year. The ongoing charge figure excludes portfolio transaction costs. The charges are mostly, if not exclusively, the Schroders Annual Charge (as may be discounted for retail unit classes depending on the size of the fund) but certain additional expenses may be charged as set out in the prospectus. The Schroders Annual Charge (without any discount) for this unit class of the fund is 0.20%. The fund's annual report for each financial year will include details on the exact charges made including any discounts.

Please see the prospectus for more details about the charges.

Please note that your fund may invest in another fund that charges a performance fee.

Past performance

Performance achieved between 2011 and 2014 was achieved under circumstances that no longer apply. The fund name and charges changed on 24 March 2014.

Please note that the fund's investment objective, policy and benchmarks were changed on 12 November 2021. The past performance in the above table is based on the fund's benchmarks (Target benchmark: UK Consumer Price Index. Comparator benchmark: Investment Association Mixed Investment 20% to 60% Shares sector average return) in place prior to this date. Going forward, this table will show past performance from this date based on the new benchmarks (Target benchmark: income target of 3-5% per year. Comparator benchmark: Investment Association Mixed Investment 20% to 60% Shares sector average return).

■ Z Accumulation GBP (GB00B4K1MN77)

■ Investment Association Mixed Investment 20% to 60% Shares sector average

■ UK Consumer Price Index

Past performance is not a guide to future performance and may not be repeated. The value of investments may go down as well as up and you may not get back the amount you originally invested.

The chart shows performance in British pound after the ongoing charges and the portfolio transaction costs have been paid.

The fund was launched on 15/12/2010.

The shareclass was launched on 15/12/2010.

Practical information

Trustee: J. P. Morgan Europe Ltd.

Further Information: You can get further information about this fund, including the prospectus, latest annual report, any subsequent half-yearly reports and the latest price of units from www.schroders.com/ukinvestor and from Schroders, PO Box 1402, Sunderland, SR43 4AF, England, telephone 0800 182 2399. They are in English, free of charge.

Tax Legislation: The fund is subject to UK tax legislation which may have an impact on your personal tax position.

Liability: Schroder Unit Trusts Ltd may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the fund's prospectus.

Switches: Subject to conditions, you may apply to switch your investment into another unit class within this fund or in another Schroder fund. Please see the prospectus for more details.

Remuneration Policy: A summary of Schroders' remuneration policy and related disclosures is at www.schroders.com/remuneration-disclosures. A paper copy is available free of charge upon request.

The policy includes a description of how remuneration and benefits are calculated & the identities of persons responsible for awarding the remuneration and benefits.

Glossary: You can find an explanation of some of the terms used in this document at www.schroders.com/ukinvestor/glossary.

Benchmark: The target benchmark has been selected because the target return of the Fund is to deliver or exceed the return of that benchmark as stated in the investment objective.

The comparator benchmark has been selected because the Investment Manager and the Manager believe that this benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.
