an Authorised Unit Trust of Schroder Unit Trusts Limited

Class Z Income GBP (GB00B7134X76)

This fund is managed by Schroder Unit Trusts Limited, which is a member of the Schroders Group.

## Objectives and investment policy

### Objectives

The fund aims to achieve capital growth and income of inflation (as measured by the UK Consumer Price Index) plus 3.5% per annum (after fees have been deducted) over a five to seven year period by investing in a diversified range of assets and markets worldwide. This cannot be guaranteed and your capital is at risk.

### Investment Policy

The fund is actively managed invests directly, or indirectly through collective investment schemes, exchange traded funds, real estate investment trusts and closed ended funds, in equities, bonds and alternative assets worldwide.

Alternative assets may include funds that use absolute return strategies or funds that invest directly in real estate or indirectly in commodities.

The fund can invest up to 100% of its assets in collective investment schemes (including Schroder funds).

The fund will seek to increase returns and reduce downside risk by making tactical adjustments to its holdings based on market conditions. The fund will invest within the following ranges:

Cash: 0% - 20%

Bonds: 20% - 50%

Equities: 25% - 60%

Alternative Investments 0% - 35%

The fund may also invest in warrants and money market instruments, and hold cash.

The fund may use derivatives with the aim of reducing risk or managing the fund more efficiently (for more information please refer to section 5 of Appendix I of the Prospectus).

### Benchmark

The fund does not have a target benchmark. The fund's performance should be compared against the Investment Association Mixed Investment 40% to 85% Shares sector average return.

### Dealing Frequency

You may redeem your investment upon demand. This fund deals daily.

### Distribution Policy

This unit class pays income received from the fund's investments to you annually.

## Risk and reward profile

### Lower risk

Potentially lower reward

### Higher risk

Potentially higher reward

### The risk and reward indicator

The risk category was calculated using historical performance data and may not be a reliable indicator of the fund's future risk profile.

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

### Risk factors

**Performance risk:** Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

**Counterparty risk:** The fund may have contractual agreements with counterparties. If a counterparty is unable to fulfil their obligations, the sum that they owe to the fund may be lost in part or in whole.

**Credit risk:** If a borrower of debt provided by the fund or a bond issuer experiences a decline in financial health, their ability to make payments of interest and principal may be affected, which may cause a decline in the value of the fund.

**Currency risk:** If the fund's investments are denominated in currencies different to the fund's base currency, the fund may lose value as a result of movements in foreign exchange rates, otherwise known as currency rates. If the investor holds a share class in a different currency to the base currency of the fund, investors may be exposed to losses as a result of movements in currency rates.

**Derivatives risk:** Derivatives, which are financial instruments deriving their value from an underlying asset, may be used to manage the portfolio efficiently. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund.

**High yield bond risk:** High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk meaning greater uncertainty of returns.

**Liquidity risk:** In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares, meaning investors may not be able to have immediate access to their holdings.

**Operational risk:** Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.

## Charges

### One-off charges taken before or after you invest

**Entry charge** None

**Exit charge** None

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

### Charges taken from the fund over a year

**Ongoing charges** 1.01%

### Charges taken from the fund under certain specific conditions

#### Performance fee

None

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses for the year ending December 2025 and may vary from year to year. The ongoing charge figure excludes portfolio transaction costs. The charges are mostly, if not exclusively, the Schroders Annual Charge (as may be discounted for retail unit classes depending on the size of the fund) but certain additional expenses may be charged as set out in the prospectus. The Schroders Annual Charge (without any discount) for this unit class of the fund is 0.81%. The fund's annual report for each financial year will include details on the exact charges made including any discounts.

Please see the prospectus for more details about the charges.
