

## KEY INVESTOR INFORMATION

This document provides you with Key Investor Information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

## Janus Henderson

### Multi-Manager Diversified Fund Class I Inc ISIN: GB00B5TPWM66

A unit trust, managed by Janus Henderson Fund Management UK Limited.

Fund Currency: GBP Unit Class Currency: GBP

## Objective and investment policy

### Objective

The Fund aims to provide a return, from a combination of capital growth and income over the long term.

Performance target: to outperform the "Composite Benchmark", which consists of: 7.5% FTSE All-Share Index, 22.5% MSCI All Country World Index ex UK, 15% Bloomberg Barclays Sterling Aggregate Total Return GBP Index, 45% Bloomberg Barclays Global Aggregate Bond Index (GBP Hedged), and 10% in the Sterling Overnight Index Average ("SONIA"), after the deduction of charges, over any 5 year period.

### Investment policy

The Fund invests in Collective Investment Schemes (other funds including those managed by Janus Henderson and Exchange Traded Funds) to provide diversified global exposure to a range of assets including shares (equities) of companies, bonds issued by companies and governments, and to a lesser extent, alternative assets such as property, commodities, private equity and hedge funds. In normal market conditions up to 35% of the Fund's exposure will be to equities, however, there is no minimum requirement on the Fund to invest in equities. At least 45% of the Fund's exposure will be to investment grade fixed income securities, such as corporate and government bonds, and/or cash investments. At least 80% of the Fund's net assets value will be invested in securities denominated in established market currencies (US Dollar, Sterling and Euro). 40% of the Fund's net assets value must be invested in securities denominated in Sterling, this includes securities that have been hedged back into Sterling.

The Fund may also invest directly in other assets including developed market government bonds, investment trusts, cash and money market instruments. The Investment Manager may use derivatives (complex financial instruments) with the aim of making investment gains in line with the Fund's objective, to reduce risk or to manage the Fund more efficiently.

The Fund is actively managed with reference to the Composite Benchmark, as set out in the Funds objective, which forms the basis of the Fund's performance

target. The Investment Manager has a high degree of freedom to choose individual investments for the Fund.

As an additional means of assessing the performance of the Fund, the IA Mixed Investment 0–35% Shares sector average, which is based on a peer group of broadly similar funds, may also provide a useful comparator.

### Strategy

The Investment Manager believes that asset allocation opportunities are generated by inefficient markets over short term periods and the Fund's asset mix is actively adjusted to reflect this and to reduce overall risk. The Fund will allocate across regional equities, the entire bond universe, alternative asset classes such as property and commodities and cash in weights cognisant of the benchmark index. Asset allocation views can be formed on the grounds of fundamental research, asset class valuations, market sentiment, investor positioning, news flow, technical factors and diversification. Investments are implemented primarily through actively managed funds, while passive (index tracking) instruments (primarily ETFs or derivatives) are used for short term tactical trades or for low cost implementation of pure macroeconomic views. The Fund may also hold up to 20% in developed market government bonds.

**Distribution policy** The Fund offers both accumulation units (units in which net income is retained within the price) and income units (units in which net income is paid out to investors).

**Recommendation** This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

You can buy, sell or switch units in the Fund on any dealing day and according to certain restrictions, both defined in detail in the Fund's Prospectus.

For an explanation of some of the terms used in this document, please visit the glossary on our website at [www.janushenderson.com](http://www.janushenderson.com).

## Risk and reward profile

The value of an investment and any income from it can go up or down. When you sell your units they may be worth less than you paid for them.

The rating above is based on the historic volatility of the unit class. Historic data may not be a reliable indication of the future risk profile of the Fund. The rating is not guaranteed and may change over time.

The unit class appears at 4 out of 7. Units in higher categories have shown greater and/or more frequent variations in Net Asset Value in the past five years than those in lower categories. The lowest category does not mean risk free.

Other material risks not captured by the rating:

**Credit Risk** An issuer of a bond (or money market instrument) may become unable or unwilling to pay interest or repay capital. If this happens or the market perceives this may happen, the value of the bond will fall.

**Interest Rates** When interest rates rise (or fall), the prices of different securities will be affected differently. In particular, bond values generally fall when interest rates rise (or are expected to rise). This risk is typically greater the longer the maturity of a bond investment.

**Underlying Funds** The Fund invests in other funds (including exchange-traded funds and investment trusts/companies). This may introduce more risky

assets, derivative usage and other risks associated with the underlying funds, as well as contributing to a higher level of ongoing charges.

**Derivatives and Leverage** Derivatives may be used to help achieve the investment objective. This can result in leverage (higher levels of debt), which can magnify an investment outcome. Gains or losses may therefore be greater than the cost of the derivative. Derivatives also introduce other risks, in particular, that a derivative counterparty may not meet its contractual obligations.

**Exchange Rates** If the Fund holds assets in currencies other than the base currency of the Fund, or you invest in a share/unit class of a different currency to the Fund (unless hedged, i.e. seeks to mitigate exchange rate movements between the share/unit class currency and the base currency of the Fund), the value of your investment may be impacted by changes in exchange rates.

**Liquidity** Securities could become hard to value or to sell at a desired time and price, especially in extreme market conditions when asset prices may be falling, increasing the risk of investment losses.

**Charges to Capital** Some or all of the ongoing charges and other costs of the Fund may be taken from capital, which may erode capital or reduce potential for capital growth.

**Counterparty Risk and Operational Risk** Losses could be incurred if a counterparty became unwilling or unable to meet its obligations, or as a result of failure or delay in operational processes or the failure of a third party provider.

For more information please see the Fund's Prospectus.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of managing and distributing it. These charges reduce the potential growth of your investment.

If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially to those shown in this document.

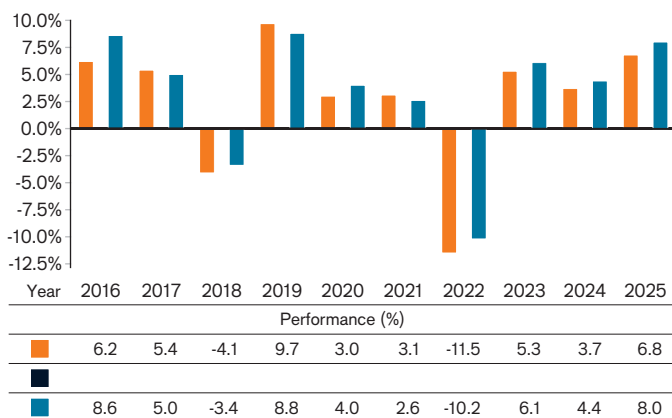

### One-off charges taken before or after you invest\*

<b>Entry Charge</b>	0.00%
<b>Exit Charge</b>	0.00%**

\* The charges shown are maximum figures. In some cases you may pay less.

\*\* Subject to a charge of up to 3.00% where the Manager suspects excessive trading by an investor (and specifically on subscriptions held for less than 90 days).

## Past performance

■ Class I Inc (Net of Charges)

■ Composite Benchmark: 7.5% FTSE All- Share Index, 22.5% MSCI All Country World Index ex UK, 15% Bloomberg Barclays Sterling Aggregate Total Return GBP Index, 45% Bloomberg Barclays Global Aggregate Bond Index (GBP Hedged), and 10% in the Sterling Overnight Index Average ("SONIA")\*

■ Sector: IA Mixed Investment 0-35% Shares

### Charges taken from the Fund over a year

<b>Ongoing Charges</b>	0.90%
------------------------	-------

The ongoing charges are based on actual annualised expenses for the period ending 31 May 2025. Ongoing charges may vary from year to year. With effect from 11 March 2022 the ongoing charges for this unit class are capped at a maximum of 1.10% per year.

The figure for ongoing charges excludes portfolio transaction costs, except in the case of an initial charge paid by the Fund when buying shares or units in another Fund.

For more information about Charges please see the Fund's Prospectus.

\*Warning: From 31 March 2025, the Fund's performance target changed from the IA Mixed Investment 0-35% Shares Sector to the Composite Benchmark. Past performance for the Composite Benchmark is therefore not included prior to this date. The Sector remains as an additional useful comparator.

Warning: 31 March 2025. The Fund changed its investment policy and benchmark. The past performance shown before this change was therefore achieved under circumstances that no longer apply.

Warning: 11 March 2022. The Fund changed its investment policy. The past performance shown before this change was therefore achieved under circumstances that no longer apply.

The past performance is calculated in GBP.

The Fund was launched in May 1991 and the units were launched in August 2012.

Past performance does not predict future returns.

The past performance takes into account all charges except one-off charges.

## Practical information

**Trustee:** NatWest Trustee and Depositary Services Limited.

**To obtain more information:** This Key Investor Information Document may not contain all the information you need.

For the last published price of units in the Fund or any additional information on the Fund, or to obtain the Fund's prospectus or the annual/semi-annual report, please visit [www.janushenderson.com](http://www.janushenderson.com). Documents are available free of charge in English and certain other languages.
