Class A Accumulation Units The HL Multi-Manager Strategic Assets Fund ("the Fund")

The Fund is an Authorised Unit Trust established as a non-UCITS retail scheme ('NURS') as a Sub-Fund of HL Multi-Managers Umbrella Trust. ISIN GB00BYZ0ZQ38. This fund is managed by Hargreaves Lansdown Fund Managers, part of Hargreaves Lansdown PLC.

This fund is authorised in the United Kingdom and regulated by the Financial Conduct Authority.

OBJECTIVES AND INVESTMENT POLICY

The investment objective of the Fund is to provide long-term capital growth.

The Fund may invest, either directly or indirectly via other collective investment schemes and exchange traded funds, in a range of assets including equities and floating and fixed interest securities. The Fund may also invest in closed ended funds, money market instruments, deposits and warrants, currencies and/or commodities and (indirectly) in property. The Fund may use derivative instruments and forward transactions for the limited purposes of efficient portfolio management, including hedging.

The underlying funds in which the Fund will invest will generally be established in Europe (including the UK, Jersey and Guernsey). Investments in external funds are made on the basis of the long term track record of the managers of those funds.

The Fund is benchmarked against the IA Flexible Sector for comparative purposes.

If you invest in income units, income generated by fund investments will be paid out to you. If you invest in accumulation units, income will be reinvested. You can normally buy or sell units in this Fund on each Business Day. Instructions received and accepted up until 11.00am will be dealt at the price calculated at 11.00am that day.

RISK/REWARD PROFILE

The Fund is ranked at 4 because funds of this type have experienced moderate rises and falls in value in the past.

The Fund's risk category has been calculated using historical data, which may not be a reliable indication of the future risk profile of the Fund.

The Fund's category is not guaranteed to remain the same and may change over time.

Even a fund in the lowest category is not a risk-free investment.

The value of your investment and any income you take from it may fall as well as rise and is not guaranteed.

You might get back less than you invest.

The indicator does not take into account the following risks of investing in this Fund:

- Income provided by your investment in this fund will vary. Indicative income levels may not be achieved – in particular yields are quoted for illustrative purposes only and are not guaranteed.
- The issuers of floating or fixed interest securities may suspend or cease interest payments, or may default on their

debt. This would reduce the income received and/or the capital value of the security, which in turn would reduce the value of your investment in this fund.

- The fund may invest in high yield bonds which carry a greater risk of default than investment grade bonds, and economic conditions and interest rate movements will have a greater effect on their price.
- Floating or fixed interest securities may not be liquid, i.e. they may be difficult to sell, particularly during stressed market conditions.
- The fund may invest in high yield bonds which carry a greater liquidity risk. This could mean that when the fund (or underlying funds) comes to sell these securities, they have to accept a lower price, which would reduce the value of your investment.
- Charges taken from the 'capital' of the fund may erode capital growth. Your capital could also decrease if income withdrawals exceed the growth rate of the fund.
- The Fund is valued using the latest available price for each underlying holding. These prices may not fully reflect changing market conditions. The Fund can apply a 'fair value price' to all or part of its portfolio to mitigate this risk. In extreme liquidity conditions, redemptions in the underlying funds, and/or the Fund itself, may need to be deferred or suspended.
- The Fund may use derivatives for efficient portfolio management purposes. There is a risk that any counterparty used does not fulfil its obligation.
