Class A Accumulation Units HL Emerging Markets (“the Fund”)

The Fund is an Authorised Unit Trust established as a non-UCITS retail scheme (‘NURS’) as a Sub-Fund of HL Multi-Managers Umbrella Trust. ISIN GB00BSD99P77. This fund is managed by Hargreaves Lansdown Fund Managers, part of Hargreaves Lansdown PLC.

This fund is authorised in the United Kingdom and regulated by the Financial Conduct Authority.

OBJECTIVES AND INVESTMENT POLICY

The investment objective of the Fund is to aim to grow your investment in excess of the total return of the MSCI Emerging Market NR GBP Index, over any 5-year period. Returns are measured after the deduction of the Fund’s charges.

At least 80% of the Fund will be invested in, or exposed to, shares of companies from emerging market countries, defined according to the MSCI Emerging Markets Indices.

The Fund may also invest in, or have exposure to, up to 20% in shares of companies from other regions globally, deposits and cash.

The Fund will gain exposure to assets directly or via other regulated collective investment schemes which may be managed or operated by the Manager or other third-party managers and will be established in Europe, the UK, Jersey, or Guernsey.

The Fund is actively managed and will use a combination of strategies (including growth, value and income) which the Manager believes together offer broad emerging market

exposure and the potential for share price and/or dividend growth.

Target Benchmark: MSCI Emerging Market NRGBP Index.
Comparator Benchmark: IA Global Emerging Markets Sector.

The Fund may use derivative instruments and forward transactions for the limited purposes of efficient portfolio management, including hedging.

Dividend income generated by the Fund is reinvested.

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 5 years.

RISK/REWARD PROFILE

The Fund is ranked at 5 because funds of this type have experienced moderate to high rises and falls in value in the past.

The Fund’s risk category has been calculated using historical data, which may not be a reliable indication of the future risk profile of the Fund.

The Fund’s category is not guaranteed to remain the same and may change over time.

Even a fund in the lowest category is not a risk-free investment.

The value of your investment and any income you take from it may fall as well as rise and is not guaranteed.

You might get back less than you invest.

The indicator does not take into account the following risks of investing in this Fund:

- Income provided by your investment in this fund will vary. Indicative income levels may not be achieved – in particular yields are quoted for illustrative purposes only and are not guaranteed.

- The Fund will be concentrated on emerging equity markets and will not be able to diversify significantly into other markets and asset classes. These markets are generally less well-regulated than the UK. There is an increased chance of political and economic instability with less reliable custody, dealing and settlement arrangements. The market(s) can also be less liquid.
- Charges taken from the ‘capital’ of the fund may erode capital growth. Your capital could also decrease if income withdrawals exceed the growth rate of the fund.
- The Fund may invest in smaller companies, which are more volatile and sometimes more difficult to trade than larger companies.
- In extreme liquidity conditions, redemptions in the underlying funds, and/or the fund itself, may need to be deferred or suspended.
- The Fund is valued using the latest available price for each underlying holding. These prices may not fully reflect changing market conditions. The Fund can apply a ‘fair value price’ to all or part of its portfolio to mitigate this risk. In extreme liquidity conditions, redemptions in the underlying funds, and/or the Fund itself, may need to be deferred or suspended.
- The Fund may use derivatives for efficient portfolio management purposes. There is a risk that any counterparty used does not fulfil its obligation.
