

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

WS Evenlode Global Equity B Accumulation GBP

WS Evenlode Global Equity, a sub-fund of the WS Evenlode Investment Funds ICVC B Accumulation GBP, ISIN: GB00BMFX2893
The Authorised Corporate Director of this Fund is: Waystone Fund Services (UK) Limited .

Objectives and investment policy

The investment objective of WS Evenlode Global Equity is to provide capital growth over Rolling Periods of 5 years.

At least 80% of WS Evenlode Global Equity will be invested in equity securities of companies listed on international exchanges.

WS Evenlode Global Equity may also invest in cash (or near cash securities), and up to 10% in collective investment schemes (which may include schemes managed or operated by the ACD or its associates).

WS Evenlode Global Equity may invest in derivatives to reduce risk or cost or to generate additional capital or income at proportionate risk (known as "Efficient Portfolio Management").

WS Evenlode Global Equity is actively managed and the Investment Manager aims to invest in a focused portfolio of equity securities of companies which offer a combination of high and growing cash-flows and low business risk (to deliver long-term capital growth for WS Evenlode Global Equity). The Investment Manager will perform analysis to identify shares in companies that offer this combination. As part of this analysis, the Investment Manager will consider a company's free cash flow generation and its potential to grow this in real terms over a long period. Free cash flow is a financial measure of how much surplus cash a company is able to generate after funding its operating costs, working capital, capital expenditures, interest and tax. A high level of free cash flow indicates to the Investment Manager that a company has sufficient cash flow to satisfy its obligations, and is able to fund investment to drive future real growth in free cash flow.

Investors can redeem units on demand, at the daily valuation point of 12 noon (UK time) when this is a normal business day in the UK.

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money in the short-term (within 5 years). The Fund should be viewed as a medium to long-term investment only.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

Typically higher rewards,
higher risk

- As the Fund launched on 15 July 2020, the indicator has been calculated based in part on the volatility of the Investment Association Global Sector (GBP) average over the last five years (in total return and GBP terms).
- The Fund is in the above risk category because it invests in global shares.
- The lowest category does not mean a fund is a risk free investment.
- The value of investments may go down as well as up in response to general market conditions and the performance of the assets held. Investors may not get back the money which they invested.
- There is no guarantee that the Fund will meet its stated objectives.
- A limited number of investments may be held which has the potential to increase the volatility of performance.
- The movements of exchange rates may lead to further changes in the value of investments.
- There is a risk that any company providing services such as safe keeping of assets or acting as counterparty to derivatives may become insolvent, which may cause losses to the Fund.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	0.85%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	No
-----------------	----

- The maximum ongoing charges figure is 0.85%. Please see the Prospectus for the applicable tiered discounts.
- It excludes payments related to interest on borrowing and portfolio transaction costs, except in the case of transaction fees payable to the custodian.
- Where an entry charge is imposed, you may not get back the money you invested, even if the value of the Fund hasn't fallen. You should therefore regard your investment as medium to long-term.
- For details of the actual charges, please contact your financial adviser/distributor.

Past performance

Source: FE fundinfo 2024

- You should be aware that past performance is not a guide to future performance.
- Fund launch date: 15/07/2020.
- Share/unit class launch date: 15/07/2020.
- Performance is calculated in GBP.
- Performance is shown inclusive of all charges, except entry charges.
- Performance is shown on a total return basis (on the basis that distributable income has been reinvested).
