

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

CT Sustainable Universal MAP Adventurous Fund

Share Class: C Acc, a Fund of Columbia Threadneedle (UK) ICVC III (ISIN GB00BMW8RH17).
This Fund is managed by Columbia Threadneedle Fund Management Limited.

Objectives and investment policy

The Fund seeks to provide growth, combining capital and income, over the long term (at least 5 years) consistent with an adventurous risk profile over the same time period. The Fund will gain exposure to a range of global asset classes. At any point the Fund may be invested in any one or more of the following: collective investment schemes, equities (ordinary shares in companies), fixed income securities (securities that pay either a fixed or variable level of income on a periodic basis and generally repay a specified amount at a pre-determined date) including both government and non-government bonds, derivatives (an investment contract between the Fund and a counterparty the value of which is derived from one or more underlying assets), money-market instruments, deposits, cash and near cash, real estate investment trusts and other transferable securities. The Fund may use derivatives for investment purposes as well as for efficient portfolio management.

As part of its investment process, the investment manager integrates environmental, social and governance ("ESG") factors into its routine analysis. Through this process, the investment manager seeks to (1) avoid investments that are contrary to the goals of making positive contributions to society and/or the environment; (2) invest in companies that provide sustainable solutions or that make positive contributions to society and/or the environment; and (3) improve companies by selecting those that, in the investment manager's opinion, will benefit from active investor engagement, leading to reduced risk, improved performance, best practices and, overall, long-term investor value.

The Fund is actively managed and the investment manager is not constrained by any particular asset allocation in respect of geography, industry or sector. The collective investment schemes in which the Fund invests may include other schemes promoted by Columbia Threadneedle Investments. Typically, the Fund will maintain, in normal market conditions, an exposure to equities of between 60% - 100% of the value of the portfolio, which in the investment manager's view, is consistent with the Fund's aim to maintain an adventurous risk profile. As the Fund is actively managed, the investment manager will determine the asset allocation exposures and ranges which are consistent with an adventurous risk profile over at least a five year period. At the investment manager's discretion, particularly in times of market stress, the Fund may not maintain an adventurous risk profile over shorter time periods. Any income earned by this share class will be reinvested back into the share class to help boost the value of a share. There is no minimum holding period for this Fund. However, it may not be appropriate for investors who plan to withdraw their money in under 5 years. You may buy or sell shares daily on demand (but not weekends or UK bank holidays or other days when the Fund is not open for dealing). Orders to buy or sell must be received by 12 noon (UK time) to receive the price calculated at that day's valuation point. We are not required to hold monies arising from the purchase and sales of shares in our funds in a client money bank account and hold these monies in our own bank account, utilising the FCA's permitted one-day window while carrying out a delivery versus payment transaction for the purpose of settling transactions in relation to units in the Fund. In the exceptional event that a transaction is not processed within this one-day window, any cash will be held in a client bank account. No interest will be paid to investors on cash held on a client bank account.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

Typically higher rewards,
higher risk

Historical data may not be a reliable indicator of the Fund's future risk and reward profile. The risk category shown is not guaranteed and may change over time. The lowest category does not mean 'risk free'. The value of your investment may fall as well as rise.

The category is based on simulated data in terms of how the value of the investments the Fund will invest in have moved up and down in the past as the Fund has only just launched.

The indicator may not adequately reflect the following risks of investing in particular assets, which may impact on future investment return:

Derivative Risk: derivative values rise and fall at a greater rate than equities and debt instruments. Losses can be greater than the initial investment.

Fixed Interest Securities Risk: changes in interest rates can affect the values of fixed interest holdings.

Credit Risk: receiving income or capital due from debt instruments is dependent on the provider's ability to pay.

Smaller Companies Risk: smaller companies carry a higher degree of risk and their value can be more sensitive to market movement.

Emerging Markets Risk: this Fund invests in emerging markets which are less developed and have additional legal and political risks.

Liquidity Risk: the ability to buy and sell assets at a favourable price may be affected by a low level of counterparties willing to enter into a transaction with the Fund.

Currency Risk: your investment may be adversely affected by changes in currency exchange rates.

Leverage Risk: the use of derivatives to increase the exposure of the Fund to the market through either long or short positions will make the value of the Fund's investments more volatile than those of an unleveraged fund.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	0.39%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

The ongoing charges figure is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).

The ongoing charges figure is at 30/11/2023

It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units in another collective investment undertaking.

For more information about charges, please see the section entitled Fees and Expenses in the Fund's prospectus, which is available at www.columbiathreadneedle.co.uk.

Past performance

Source: FE fundinfo 2024

You should be aware that past performance is not a guide to future performance.

Fund launch date: 16/03/2021.

Share/unit class launch date: 16/03/2021.

Performance is calculated in GBP.

The chart shows how much the Fund increased or decreased in value as a percentage in each year, net of charges (excluding entry charge), and net of tax.
