1. Basis of Presentation

The accompanying condensed consolidated financial statements include all adjustments necessary to present fairly the financial position, results of operations and cash flows of Acme United Corporation (the “Company”). These adjustments are of a normal, recurring nature. However, the financial statements do not include all the disclosures normally required by accounting principles generally accepted in the United States or those normally made in the Company's Annual Report on Form 10-K. Please refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2022 for such disclosures. The condensed consolidated balance sheet as of December 31, 2022 was derived from the audited consolidated balance sheet as of that date. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. The information included in this Quarterly Report on Form 10-Q should be read in conjunction with Management’s Discussion and Analysis of Financial Condition and Results of Operations and the financial statements and notes thereto included in the Company’s 2022 Annual Report on Form 10-K.

The Company has evaluated events and transactions subsequent to June 30, 2023 and through the date these condensed consolidated financial statements were issued.

Recently Adopted Accounting Standards

In June 2016, the FASB issued ASU *2016-13,* Financial Instruments-Credit Losses (“ASU *2016-13”*), which provides new authoritative guidance with respect to the measurement of credit losses on financial instruments. This update changes the impairment model for most financial assets and certain other instruments by introducing a current expected credit loss (“CECL”) model. The CECL model is a more forward-looking approach based on expected losses rather than incurred losses, requiring entities to estimate and record losses expected over the remaining contractual life of an asset. ASU *2016-13* is effective for fiscal years beginning after December 15, 2022, including interim periods within those fiscal years for smaller reporting companies. The Company adopted *ASU 2016-13* on January 1, 2023. The adoption did not have an impact on our condensed consolidated financial statements.

2. Commitment and Contingencies

There are no pending material legal proceedings to which the Company is a party, or, to the actual knowledge of the Company, contemplated by any governmental authority.

3. Revenue from Contracts with Customers

Nature of Goods and Services

The Company recognizes revenue from the sales of a broad line of products that are grouped into two main categories: (a) first aid and medical; and (b) cutting, sharpening and measuring. The cutting, sharpening and measuring category includes scissors, knives, paper trimmers, pencil sharpeners and other sharpening tools. The first aid and medical category includes first aid kits and refills, over-the-counter medications and a variety of medical products. Revenue recognition is evaluated through the following five steps: (i) identification of the contract or contracts with a customer; (ii) identification of the performance obligations in the contract; (iii) determination of the transaction price; (iv) allocation of the transaction price in the contract; and (v) recognition of revenue when or as a performance obligation is satisfied.

When Performance Obligations Are Satisfied

A performance obligation is a promise in a contract to transfer a distinct good or service to the customer. A contract’s transaction price is allocated to each distinct performance obligation and recognized as revenue when, or as, the performance obligation is satisfied. Revenue is generated by the sale of the Company’s products to its customers. Sales contracts (purchase orders) generally have a single performance obligation that is satisfied at a point in time, upon shipment or delivery, depending on the terms of the underlying contract. Revenue is measured based on the consideration specified in the contract. The amount of consideration we receive and revenue we recognize is impacted by incentives ("customer rebates"), including sales rebates, which are generally tied to sales volume levels, in-store promotional allowances, shared media and customer catalogue allowances and other cooperative advertising arrangements; freight allowance programs offered to our customers; and allowance for returns and discounts. We generally recognize customer rebate costs as a deduction to gross sales at the time that the associated revenue is recognized.

Significant Payment Terms

Payment terms for each customer are dependent on the agreed upon contractual repayment terms. Payment terms typically are between 30 and 90 days and vary depending on the size of the customer and its risk profile to the Company. Some customers receive discounts for early payment.

Product Returns

The Company accepts product returns in the normal course of business. The Company estimates reserves for returns and the related refunds to customers based on historical experience. Reserves for returned merchandise are included as a component of “Accounts receivable” in the condensed consolidated balance sheets.

Practical Expedient Usage and Accounting Policy Elections

For the Company’s contracts that have an original duration of one year or less, the Company uses the practical expedient in ASC 606-10-32-18 applicable to such contracts and does not consider the time value of money in relation to significant financing components. The effect of applying this practical expedient election did not have an impact on the Company’s condensed consolidated financial statements.

Per ASC 606-10-25-18B, the Company has elected to account for shipping and handling activities that occur after the customer has obtained control as a fulfilment activity instead of a performance obligation. Furthermore, shipping and handling activities performed before transfer of control of the product also do not constitute a separate and distinct performance obligation. The effect of applying this practical expedient election did not have an impact on the Company’s condensed consolidated financial statements.

The Company has elected to exclude from the transaction price those amounts which relate to sales and other taxes that are assessed by governmental authorities and that are imposed on and concurrent with a specific revenue-producing transaction and collected by the Company from a customer.

Applying the practical expedient in ASC 340-40-25-4, *Other Assets and Deferred Costs,* the Company recognizes the incremental costs of obtaining contracts as an expense when incurred. These costs are included in “Selling, general and administrative expenses.”

4. Debt and Shareholders' Equity

Long-term debt consists of (i) borrowings under the Company's revolving loan agreement with HSBC Bank, N.A.("HSBC") and (ii) amounts outstanding under the fixed rate mortgage on the Company's manufacturing and distribution facilities in Rocky Mount, NC and Vancouver, WA. The revolving loan agreement provides for borrowings of up to $65 million at an interest rate of Secured Overnight Financing Rate ("SOFR") plus 1.75%; interest is payable monthly. The credit facility has an expiration date of May 31, 2026. The Company must pay a facility fee, payable quarterly, in an amount equal to one eighth of one percent (.125%) per annum of the average daily unused portion of the revolving credit line. The facility is intended to provide liquidity for growth, acquisitions, dividends, share repurchases, and other operating activities. Under the revolving loan agreement, the Company is required to maintain specific amounts of funded debt to EBITDA, a fixed charge coverage ratio and must have annual net income greater than $0, measured as of the end of each fiscal year. On November 8, 2022, the revolving loan agreement was amended to increase the ratio of funded debt to EBITDA. The amendment was in effect for four quarters commencing in the third quarter of 2022 and ending with the three months ended June 30, 2023. The amendment included an increase in the funded debt to EBITDA ratio for those four quarters ranging from a low of 4.75 to 1 to a high of 5.75 to 1. The amendment also increased the interest rate from SOFR +1.75% up to a high of SOFR + 2.35% on a basis that varies on a quarterly basis with the funded debt to EBITDA ratio. As of June 30, 2023, the Company was in compliance with the covenants under the revolving loan agreement, as amended.

As of June 30, 2023 and December 31, 2022, the Company had outstanding borrowings of $39,979,000 and $49,916,000, respectively, under the Company's revolving loan agreement with HSBC.

The Company's manufacturing and distribution facilities in Rocky Mount, NC and Vancouver, WA were financed by a fixed rate mortgage with HSBC at a fixed interest rate of 3.8%. The Company entered into the agreement on December 1, 2021. Commencing on January 1, 2022, payments of principal and interest are due monthly, with all amounts outstanding due on maturity on December 1, 2031. As of June 30, 2023 and December 31, 2022, long-term debt related to the mortgage consisted of the following (amounts in '000's):

	June 30, 2023	December 31, 2022
Mortgage payable - HSBC Bank N.A.	$ 11,024	$ 11,233
Less debt issuance costs	(128)	(134)
	10,896	11,099
Less current maturities	411	405
Long-term mortgage payable less current maturities	$ 10,485	$ 10,694

During the three and six months ended June 30, 2023, the Company issued a total of 15,702 and 20,702 shares of common stock and received aggregate proceeds of $229,000 and $289,000 upon exercise of employee stock options. Also, during the three and six months ended June 30, 2023, the Company issued 6,579 and 9,125 shares of common stock to optionees who had elected a net share settlement of certain of their respective options.

5. Segment Information

The Company reports financial information based on the organizational structure used by the Company's chief operating decision maker for making operating and investment decisions and for assessing performance. The Company's reportable business segments consist of: (1) United States; (2) Canada; and (3) Europe. As described below, the activities of the Company's Asian operations are closely linked to those of the U.S. operations; accordingly, the Company's chief operating decision maker reviews the financial results of both, on a consolidated basis, and as such, the results of the Asian operations have been aggregated with the results of the United States operations to form one reportable segment called the "United States segment" or "U.S. segment". Each reportable segment derives its revenue from the sales of first aid and medical products, cutting and sharpening devices and measuring instruments for school, office, home, hardware, sporting and industrial use.

Domestic sales orders are filled primarily from the Company's distribution centers in North Carolina, Washington, Massachusetts, Tennessee, Florida, New Hampshire and California. The Company is responsible for the costs of shipping, insurance, customs clearance, duties, storage and distribution related to such products. Orders filled from the Company's inventory are generally for less than container-sized lots.

Direct import sales are products sold by the Company's Asian subsidiary, directly to major U.S. retailers, who take ownership of the products in Asia. These sales are completed by delivering products to the customers' common carriers at the shipping points in Asia. Direct import sales are made in larger quantities than domestic sales, typically full containers. Direct import sales represented approximately 8% and 7% of the Company's total net sales for the three and six months ended June 30, 2023 compared to 12% and 9%, respectively for the same periods in 2022.

The chief operating decision maker evaluates the performance of each operating segment based on segment revenues and operating income. Segment revenues are defined as total revenues, including both external customer revenue and inter-segment revenue. Segment operating earnings are defined as segment revenues, less cost of goods sold and operating expenses. Identifiable assets by segment are those assets used in the respective reportable segment's operations. Inter-segment amounts are eliminated to arrive at consolidated financial results.

The following table sets forth certain financial data by segment for the three and six months ended June 30, 2023 and 2022:

6. Stock Based Compensation

The Company recognizes share-based compensation at the fair value of the equity instrument on the grant date. Compensation expense is recognized over the required service period, which is generally the vesting period of the equity instrument. Share-based compensation expense was approximately $389,000 and $813,000 for the three and six months ended June 30, 2023 compared to approximately $368,000 and $768,000 for the three and six months ended June 30, 2022.

As of June 30, 2023, there was a total of $2,826,745 of unrecognized compensation cost, adjusted for estimated forfeitures, related to non-vested share-based payments granted to the Company's employees. As of that date, the remaining unamortized expense was expected to be recognized over a weighted average period of approximately three years.

7. Fair Value Measurements

The carrying value of the Company's bank debt is a reasonable estimate of fair value because of the nature of its payment terms and maturity. The Company's contingent liability related to the acquisition of Safety Made is recorded at its fair value of $705,000 which is recorded in other non-current liabilities on the condensed consolidated balance sheet as of June 30, 2023. Changes in the fair value of the liability are recorded in earnings. There was an increase in the liability of $75,000 and $125,000, respectively, during the three and six months ended June 30, 2023. During the three months ended June 30, 2023, the Company paid $750,000 of the $1.5 million held in escrow related to the contingent liability.

8. Leases

The Company has operating leases for office and warehouse space and equipment under various arrangements which provide the right to use the underlying asset and require lease payments for the lease term. The Company's lease portfolio consists of operating leases which expire at various dates through 2026.

Certain of the Company's lease arrangements contain renewal provisions, exercisable at the Company's option. The Company's lease agreements do not contain any material residual value guarantees or material restrictive covenants.

The Company determines if an arrangement is an operating lease at inception. Leases with an initial term of 12 months or less are not recorded on the balance sheet. All other leases are recorded on the balance sheet with right-of-use ("ROU") assets representing the right to use the underlying asset for the lease term and lease liabilities representing the obligation to make lease payments arising from the lease.

Operating lease cost was $0.3 million for the three months ended June 30, 2023, of which $0.1 million was included in cost of goods sold and $0.2 million was included in selling, general and administrative expenses. Operating lease cost was $0.7 million for the six months ended June 30, 2023, of which $0.2 million was included in cost of goods sold and $0.5 million was included in selling, general and administrative expenses in the accompanying condensed consolidated statements of operations.

Forward-Looking Information

The Company may from time to time make written or oral "forward-looking statements" including statements contained in this report and in other communications by the Company, which are made in good faith pursuant to the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995. Such statements are based on our beliefs as well as assumptions made by and information currently available to us. When used in this document, words like "may," "might," "will," "except," "anticipate," "believe," "potential," and similar expressions are intended to identify forward-looking statements. Actual results could differ materially from our current expectations.

Forward-looking statements in this report, including without limitation, statements related to the Company's plans, strategies, objectives, expectations, intentions and adequacy of resources, are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Investors are cautioned that such forward-looking statements involve risks and uncertainties that may impact the Company's business, operations and financial results.

These risks and uncertainties include, without limitation, the following: (i) changes in the Company's plans, strategies, objectives, expectations and intentions, which may be made at any time at the discretion of the Company; (ii) the impact of uncertainties in global economic conditions, including the impact on the Company's suppliers and customers; (iii) additional disruptions in the Company's supply chains, whether caused by pandemics, natural disasters, or otherwise, including trucker shortages, port closures and delays, and delays with container ships themselves; (iv) the continuing adverse impact of inflation, including product costs, and interest rates; (v) potential adverse effects on the Company, its customers, and suppliers resulting from the war in Ukraine; (vi) labor related costs the Company has and may continue to incur, including costs of acquiring and training new employees and rising wages and benefits; (vii) currency fluctuations including, for example, the fluctuation of the dollar against the euro; (viii) the Company's ability to effectively manage its inventory in a rapidly changing business environment; (ix) changes in client needs and consumer spending habits; (x) the impact of competition; (xi) the impact of technological changes including, specifically, the growth of online marketing and sales activity; (xii) the Company's ability to manage its growth effectively, including its ability to successfully integrate any business it might acquire; (xiii) international trade policies and their impact on demand for our products and our competitive position, including the imposition of new tariffs or changes in existing tariff rates; and (xiv) other risks and uncertainties indicated from time to time in the Company's filings with the Securities and Exchange Commission.

For a more detailed discussion of these and other factors affecting the Company, see the Risk Factors described in Item 1A included in the Company's Annual Report on Form 10-K for the fiscal year December 31, 2022 and below under "Financial Condition". All forward-looking statements in this report are based upon information available to the Company on the date of this report. The Company undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events, or otherwise, except as required by law.

Critical Accounting Policies

We discuss our critical accounting policies and estimates in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, included in the Company's Annual Report on Form 10-K for the year ended December 31, 2022.

Critical Accounting Estimates

There have been no material changes to the Company's critical accounting estimates as previously reported in the Company's Annual Report on Form 10-K for the year ended December 31, 2022.

Results of Operations

Traditionally, the Company's sales of its cutting, sharpening, and measuring products are stronger in the second and third quarters and weaker in the first and fourth quarters of the fiscal year, due to the seasonal nature of the back-to-school market.

Net sales

Consolidated net sales for the three and six months ended June 30, 2023 were $53,336,000 and $99,175,000 compared with $56,773,000 and $100,106,000 in the same periods in 2022, a 6% and 1% decrease, respectively.

Net Sales in the U.S. for the three and six months ended June 30, 2023 decreased 8% and 1%, compared to the same periods in 2022. The decrease in net sales for the three and six months, compared to the same period in 2022, is primarily due to lower sales of school and office products which were negatively impacted by customer reductions of their inventory. Customers acquired additional safety stock in the second quarter of 2022 to mitigate supply chain disruption concerns. These lower sales were partially offset by higher sales of first aid and medical products.

Net sales in Canada for the three and six months ended June 30, 2023 increased 13% (21% in local currency) and 2% (8% in local currency), compared to the same periods last year. The increases in net sales for the three and six months ended June 30, 2023 were mainly due to higher sales of first aid products.

European net sales for the three months ended June 30, 2023 decreased 6% (7% in local currency) compared to the same period in 2022. Net sales for the six months ended June 30, 2023 decreased 6% (5 in local currency) compared to the same period in 2022. The decline in net sales for the three and six month periods were mainly due to the economic recession in Europe.

Gross profit

Gross profit for the three months ended June 30, 2023 was $20,022,000 (37.5% of net sales) compared to $18,548,000 (32.7% of net sales) in the same period in 2022. Gross profit for the six months ended June 30, 2023 was $36,303,000 (36.6% of net sales) compared to $33,516,000 (32.7% of net sales) in the same period in 2022. The increases in gross profit for the three and six months were primarily due to cost saving initiatives and productivity improvements at our manufacturing and distribution facilities as well as lower ocean container costs and demurrage charges.

Selling, general and administrative expenses

Selling, general and administrative ("SG&A") expenses for the three months ended June 30, 2023 were $14,772,000 (27.7% of net sales) compared with $14,572,000 (25.7% of net sales) in the same period in 2022, an increase of $200,000. SG&A expenses for the six months ended June 30, 2023 were $28,865,000 (29.1% of net sales) compared with $28,169,000 (28.1% of net sales) in the same period in 2022, an increase of $696,000. The increase in SG&A expenses for the six months ended June 30, 2023 is primarily related to higher personnel related expenses.

Operating income

Operating income for the three months ended June 30, 2023 was $5,250,000 compared with $3,976,000 in the same period of 2022. Operating income for the six months ended June 30, 2023 was $7,438,000 compared with $5,347,000 in the same period of 2022.

Operating income in the U.S. segment increased by $797,000 for the three months ended June 30, 2023, compared to the same period in 2022. Operating income in the U.S. segment increased by $1,744,000 for the six months ended June 30, 2023 compared to the same period in 2022. The increase in operating income for the three and six months ended June 30, 2023 was primarily due to productivity improvements at our manufacturing and distribution facilities, cost savings initiatives which included lowering SG&A expenses as well as lower ocean container costs and demurrage charges.

Operating income in the Canadian segment increased by $268,000 and $130,000 for the three and six months ended June 30, 2023, respectively, compared to the same periods in 2022. The increases in operating income are primarily due to higher sales.

Operating income in the European segment increased by $209,000 and $217,000 for the three and six months ended June 30, 2023, respectively, compared to the same periods in 2022. The increases in operating income for the three and six months ended June 30, 2023 were primarily due to higher gross margins as a result of lower ocean container costs.

Interest expense, net

Interest expense, net for the three months ended June 30, 2023 was $832,000 compared with $423,000 in the same period of 2022, a $409,000 increase. Interest expense, net for the six months ended June 30, 2023 was $1,734,000 compared with $729,000, in the same period of 2022, a $1,005,000 increase. The increases in interest expense for the three and six months ended June 30, 2023 resulted from a higher average interest rate on the outstanding debt under the Company's revolving loan agreement.

Other (income) expense, net

Other income, net was $23,000 in the three months ended June 30, 2023 compared to other expense, net of $148,000 in the same period of 2022. Other income, net in the six months ended June 30, 2023 was $46,000 compared to other expense, net of $147,000 in the same period of 2022.

Income taxes

The effective income tax rate for the three and six months ended June 30, 2023 was 23% compared to 20% in the same periods of 2022. The higher effective income tax rate for the three and six month ended June 30, 2023 is primarily due to higher earnings in jurisdictions with higher tax rates.

Financial Condition

Liquidity and Capital Resources

During the first six months of 2023, working capital decreased approximately $5.3 million. Inventory decreased approximately $7.4 million during this six-month period. The decline in inventory is due to planned reductions as the risk of supply chain disruptions has diminished. Inventory turnover, calculated using a twelve-month average inventory balance, was 2.0 at June 30, 2023 and December 31, 2022. Receivables increased approximately $7.2 million at June 30, 2023 compared to December 31, 2022. The average number of days sales outstanding in accounts receivable was 59 days at June 30, 2023 compared to 62 days at December 31, 2022. Accounts payable and other current liabilities increased by approximately $3.2 million at June 30, 2023 compared to December 31, 2022.

The Company's working capital, current ratio and long-term debt to equity ratio are as follows (dollar amounts in thousands):

	June 30, 2023	December 31, 2022
Working capital	$ 78,200	$ 83,473
Current ratio	4.09	4.77
Long term debt to equity ratio	60.3 %	76.7 %

Long-term debt consists of (i) borrowings under the Company’s revolving loan agreement with HSBC Bank, N.A. and (ii) amounts outstanding under the fixed rate mortgage on the Company’s manufacturing and distribution facilities in Rocky Mount, NC and Vancouver, WA. The revolving loan agreement provides for borrowings of up to $65 million, at an interest rate of SOFR plus 1.75%; interest is payable monthly. The loan agreement has an expiration date of May 31, 2026. The Company must pay a facility fee, payable quarterly, in an amount equal to one eighth of one percent (.125%) per annum of the average daily unused portion of the revolving credit line. The facility is intended to provide liquidity for growth, share repurchases, dividends, acquisitions, and other business activities. Under the revolving loan agreement, the Company is required to maintain specific amounts of funded debt to EBITDA, a fixed charge coverage ratio and must have annual net income greater than $0, measured as of the end of each fiscal year.

On November 8, 2022, the revolving loan agreement was amended to increase the ratio of funded debt to EBITDA. The amendment was in effect for four quarters commencing in the third quarter of 2022 and ending with the three months ended June 30, 2023. The amendment included an increase in the funded debt to EBITDA ratio for those four quarters ranging from a low of 4.75 to 1 to a high of 5.75 to 1. The amendment also increased the interest rate from SOFR +1.75% up to a high of SOFR + 2.35% on a basis that varies on a quarterly basis with the funded debt to EBITDA ratio. As of June 30, 2023, the Company was in compliance with the covenants under the revolving loan agreement, as amended.

During the first six months of 2023, total debt outstanding under the Company’s revolving credit facility decreased by approximately $10 million, compared to total debt thereunder at December 31, 2022. As of June 30, 2023, $39,979,000 was outstanding and $25,021,000 was available for borrowing under the Company’s credit facility.

The Company’s manufacturing and distribution facilities in Rocky Mount, NC and Vancouver, WA were financed by a fixed rate mortgage with HSBC Bank, N.A. at a fixed interest rate of 3.8%. The Company entered into the agreement on December 1, 2021. Payments of principal and interest are due monthly, with all amounts outstanding due on maturity on December 1, 2031. At June 30, 2023, there was approximately $10.9 million outstanding on the mortgage.

In response to the supply chain challenges encountered by the Company, the Company has implemented a series of cost reduction initiatives that are expected to generate over $5.0 million in savings in 2023. These initiatives have included a wide range of productivity improvements in our manufacturing and distribution facilities as well as a reduction of SG&A expenses.

The Company believes that cash generated from operating activities, together with funds available under its revolving loan agreement, will, under current conditions, be sufficient to finance the Company’s operations over the next twelve months from the filing of this report.

Item 3: Quantitative and Qualitative Disclosure about Market Risk

Not applicable.

Item 4: Controls and Procedures

(a) Evaluation of Internal Controls and Procedures

Under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of June 30, 2023. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that these disclosure controls and procedures are effective.

(b) Changes in Internal Control over Financial Reporting

During the quarter ended June 30, 2023, there were no changes in our internal control over financial reporting that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

   (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

   (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

   (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

   (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

   (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

   (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
