ATOMERA INCORPORATED
NOTES TO THE UNAUDITED CONDENSED FINANCIAL STATEMENTS
For the Three and Six Months Ended June 30, 2025 and 2024

1. NATURE OF OPERATIONS

Atomera Incorporated (“Atomera” or the “Company”) was incorporated in the state of Delaware in March 2007 under the name MEARS Technologies, Inc. and is engaged in the development, commercialization and licensing of proprietary processes and technologies for the semiconductor industry. On January 12, 2016, the Company changed its name to Atomera Incorporated.

Atomera is an early-stage company, having only limited revenue-generating activities, and is devoting substantially all its efforts toward technology research and development and to commercially licensing its technology to designers and manufacturers of integrated circuits.

2. LIQUIDITY AND MANAGEMENT PLANS

At June 30, 2025, the Company had cash and cash equivalents of approximately \$22.0 million and working capital of approximately \$20.0 million. The Company has generated only limited revenues since inception and has incurred recurring operating losses. Accordingly, it is subject to all the risks inherent in the initial organization, financing, expenditures, and scaling of a new business that is not generating positive cashflow.

On May 31, 2022, Atomera entered into an Equity Distribution Agreement with Oppenheimer & Co. Inc. and Craig-Hallum Capital Group LLC (“Craig-Hallum”), as agents, under which the Company offered and sold, from time to time at its sole discretion, shares of its \$0.001 par value common stock in an at the market offering to or through the agents, having aggregate offering proceeds of up to \$50.0 million (the “2022 ATM”). The 2022 ATM Facility expired on March 18, 2025.

On May 27, 2025, Atomera entered into an Equity Distribution Agreement with Craig-Hallum as agent, under which the Company may offer and sell, from time to time at its sole discretion, shares of its \$0.001 par value common stock in an at-the-market offering to or through the agent, having aggregate offering proceeds of up to \$50.0 million (the “2025 ATM”). During the three months ended June 30, 2025 the Company sold approximately 185,000 shares of common stock pursuant to 2025 ATM at an average price per share of approximately \$5.21 resulting in approximately \$792,000 in net proceeds to the Company after deducting commissions and other offering expenses.

During the six months ended June 30, 2025, the Company sold approximately 349,000 shares pursuant to the 2022 ATM and the 2025 ATM at an average price per share of approximately \$9.89, resulting in approximately \$3.2 million of net proceeds to the Company after deducting commissions and other offering expenses.

Based on the funds it has available as of the date of the filing of this report, the Company believes that it has sufficient capital to fund its current business plans and obligations over, at least, 12 months from the date that these financial statements have been issued. The Company’s future capital requirements and the adequacy of its available funds will depend on many factors, including the Company’s ability to successfully commercialize its technology, competing technological and market developments, and the need to enter into collaborations with other companies or acquire technologies to enhance or complement its current offerings.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Significant Accounting Policies

There have been no material changes in the Company's significant accounting policies to those previously disclosed in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission ("SEC") on March 4, 2025.

Basis of Presentation of Unaudited Condensed Financial Information

The unaudited condensed financial statements of the Company for the three and six months ended June 30, 2025 and 2024 have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and pursuant to the requirements for reporting on Form 10-Q and Article 8 of Regulation S-X. Accordingly, they do not include all the information and footnotes required by GAAP for complete financial statements. However, such information reflects all adjustments (consisting solely of normal recurring adjustments) which are, in the opinion of management, necessary for the fair presentation of the Company's financial position and its results of operations. Results shown for interim periods are not necessarily indicative of the results to be obtained for a full fiscal year. The balance sheet information as of December 31, 2024 was derived from the audited financial statements included in the Company's financial statements as of and for the year ended December 31, 2024, included in the Company's Annual Report on Form 10-K filed with the SEC on March 4, 2025. These unaudited condensed financial statements should be read in conjunction with that report.

Cash, Cash Equivalents, and Short-Term Investments

The Company considers all highly-liquid investments with an original maturity of three months or less, when purchased, to be cash equivalents. Cash equivalents may be invested in money market funds or U.S. agency bonds. Cash and cash equivalents are carried at cost, which approximates their fair value.

The Company's portfolio of short-term investments is comprised solely of U.S. treasury bills and agency bonds with maturities of more than three months, but less than one year. The Company classifies these as available-for-sale at purchase date and will reevaluate such designation at each period end date. The Company may sell these marketable debt securities prior to their stated maturities depending upon changing liquidity requirements. These debt securities are classified as current assets in the condensed balance sheets and recorded at fair value, with unrealized gains or losses included in accumulated other comprehensive income (loss).

Gains and losses are recognized when realized. Gains and losses are determined using the specific identification method and are reported in other income, net in the condensed statements of operations when incurred. Unrealized gains and losses are included in other comprehensive income (loss) on the condensed balance sheets.

Adoption of Recent Accounting Standards

In December 2023, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures*. This new guidance requires entities on an annual basis disclose specific categories in the income tax rate reconciliation and provide additional information for reconciling items that meet a quantitative threshold. The guidance applies to annual periods beginning after December 15, 2024 on a prospective basis, (early adoption is permitted). The Company adopted this standard on January 1, 2025 for the annual period ending December 31, 2025. While the standard requires additional disclosures, the adoption did not have a material impact on the Company's financial position, results of operations or financial statement disclosures.

Recent Accounting Standards

In November 2024, the FASB issued ASU 2024-03 (as clarified by ASU 2025-01 in January 2025), *Income Statement-Reporting Comprehensive Income-Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses* (“ASU 2023-03”), requiring public entities to disclose additional information about specific expense categories in the notes to the financial statements on an interim and annual basis. ASU 2024-03 is effective for annual reporting periods beginning after December 15, 2026, and for interim periods within annual reporting periods beginning after December 15, 2027, with early adoption permitted. The Company does not believe ASU 2024-03 will have a material impact on its financial position, results of operations or financial statement disclosure.

In May 2025, the FASB issued ASU 2025-04 “*Compensation - Stock Compensation (Topic 718) and Revenue from Contracts with Customers (Topic 606): Clarifications to Share-Based Consideration Payable to a Customer*” (“ASU 2025-04”) which clarifies the guidance on the accounting for share-based payment awards that are granted by an entity as consideration payable to its customer, with the intent to reduce diversity in practice and improve existing guidance by revising the definition of a “performance condition” and eliminating a forfeiture policy election for service conditions associated with share-based consideration payable to a customer. It also clarifies the guidance in Topic 606 on the variable consideration constraint does not apply to share-based consideration payable to a customer “regardless of whether an award’s grant date has occurred”. ASU 2025-04 will be effective for the annual periods beginning after December 15, 2026 with early adoption permitted. The Company does not believe ASU 2025-04 will have a material impact on its financial position, results of operations or financial statement disclosure.

4. FAIR VALUE MEASUREMENTS

Accounting Standards Codification (“ASC”) 820, *Fair Value Measurements* (“ASC 820”) states that fair value represents the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or a liability. The three-tiered fair value hierarchy, which prioritizes which inputs should be used in measuring fair value, consists of:

Level 1 — Quoted prices (unadjusted) in active markets for identical assets and liabilities.

Level 2 — Inputs other than Level 1 that are observable, either directly or indirectly, such as unadjusted quoted prices for similar assets and liabilities, unadjusted quoted prices in the markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The Company’s cash equivalents and short-term investments were measured at fair value on a recurring basis as Level 1 assets.

The Company's cash, cash equivalents and short-term investments classified by security type as of June 30, 2025 and December 31, 2024 consisted of the following (in thousands):

	June 30, 2025			
	Cost	Unrealized Gain/(Loss)	Accretion of Discount	Fair Value
Cash	\$ 381	\$ –	\$ –	\$ 381
Money market funds	21,645	–	–	21,645
Total	<u>\$ 22,026</u>	<u>\$ –</u>	<u>\$ –</u>	<u>\$ 22,026</u>

	December 31, 2024			
	Cost	Unrealized Gain/(Loss)	Accretion of Discount	Fair Value
Cash	\$ 1	\$ –	\$ –	\$ 1
Money market funds	25,777	–	–	25,777
US agency bonds	976	1	18	995
Total	<u>\$ 26,754</u>	<u>\$ 1</u>	<u>\$ 18</u>	<u>\$ 26,773</u>

5. REVENUE

The Company recognizes revenue in accordance with ASC 606. The amount of revenue that the Company recognizes reflects the consideration it expects to receive in exchange for goods or services and such revenue is recognized at the time when goods or services are transferred and/or delivered to its customers. Revenue is recognized when the Company satisfies a performance obligation by transferring the product or service to the customer, either at a point in time or over time. The Company usually recognizes revenue from integration service agreements and from manufacturing licenses at a point in time unless the agreements provide for customer acceptance in which case revenue is recognized over time. Revenue from MSTcad licenses is recognized over a period of time.

The following table provides information about disaggregated revenue by primary geographical markets and timing of revenue recognition (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2025	2024	2025	2024
Primary geographic markets				
North America	\$ –	\$ 72	\$ 4	\$ 90
Asia Pacific	–	–	–	–
Total	<u>\$ –</u>	<u>\$ 72</u>	<u>\$ 4</u>	<u>\$ 90</u>
Timing of revenue recognition				
Products and services transferred at a point in time	\$ –	\$ 50	\$ –	\$ 50
Products and services transferred over time	–	22	4	40
Total	<u>\$ –</u>	<u>\$ 72</u>	<u>\$ 4</u>	<u>\$ 90</u>

Unbilled contracts receivable

Timing of revenue recognition may differ from the timing of invoicing customers. Accounts receivable includes amounts billed and currently due from customers. Unbilled contracts receivable represents unbilled amounts expected to be received from customers in future periods, where the revenue recognized to date exceeds the amount billed, and the right to receive payment is subject to the underlying contractual terms. Unbilled contracts receivable amounts may not exceed their net realizable value and are classified as long-term assets if the payments are expected to be received more than one year from the reporting date.

Deferred Revenue

The Company records deferred revenue for customers that were issued invoices, but from which the Company has not yet recognized the revenue based on its revenue recognition policy. As of June 30, 2025, the Company did not have any deferred revenue to recognize in the future.

6. BASIC AND DILUTED LOSS PER SHARE

Basic net loss per share is calculated by dividing the net loss by the weighted-average number of shares outstanding for the period. Diluted net loss per share is computed by dividing the net loss attributable to common stockholders by the sum of the weighted average number of shares of common stock outstanding and the dilutive common stock equivalent shares outstanding during the period. The Company's potentially dilutive common stock equivalent shares, which include incremental common shares issuable upon (i) the exercise of outstanding stock options and (ii) vesting of restricted stock units and (iii) restricted stock awards, are only included in the calculation of diluted net loss per share when their effect is dilutive. Since the Company has had net losses for all periods presented, all potentially dilutive securities are anti-dilutive. Accordingly, basic and diluted net loss per share are equal.

The following potential common stock equivalents were not included in the calculation of diluted net loss per common share because the inclusion thereof would be anti-dilutive (in thousands):

	Six Months Ended	
	June 30,	
	2025	2024
Stock Options	3,323	3,613
Unvested restricted stock units	635	–
Unvested restricted stock awards	318	567
Total	<u>4,276</u>	<u>4,180</u>

7. LEASES

The Company accounts for leases over one year under ASC 842. Lease expense for the Company's operating leases consists of the lease payments recognized on a straight-line basis over the lease term. Expenses for the Company's financing leases consists of the amortization expenses recognized on a straight-line basis over the lease term and interest expense.

The Company's lease agreement for a tool used in the development and marketing of the Company's technology established a monthly lease payment of \$150,000 per month. The lease contains a provision for an annual adjustment of lease payments based on tool availability and usage during the preceding 12 months and the adjusted payment is calculated on August 1 of each year of the lease. Effective August 1, 2023, the lease payments for this tool were adjusted to \$137,650 per month for the period August 1, 2023 through July 31, 2024. This adjustment to the lease payments also resulted in a reduction in the ROU and corresponding lease liability. Effective August 1, 2024, the lease payments for this tool were adjusted to \$124,071 per month for the period August 1, 2024 through July 31, 2025. This adjustment to the lease payments also resulted in a reduction in the ROU and corresponding lease liability.

In December 2024, the Company entered into a lease agreement for a tool in Tempe, Arizona. The term of this lease is for 12 months beginning on January 1, 2025 for \$95,000 per month. Since the lease term is not for more than one year and there are no extension provisions in the lease, the future lease payments are not included in the lease obligations on the Company's condensed balance sheets.

Lease expense for operating leases consists of the lease payments recognized on a straight-line basis over the lease term. Expenses for financing leases consists of the amortization expenses recognized on a straight-line basis over the lease term and interest expense. The components of lease costs were as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2025	2024	2025	2024
Financing lease costs:				
Amortization of ROU assets	\$ 250	\$ 281	\$ 501	\$ 562
Interest on lease liabilities	18	35	39	74
Total financing lease costs	<u>\$ 268</u>	<u>\$ 316</u>	<u>\$ 540</u>	<u>\$ 636</u>
Operating lease costs:				
Fixed lease costs	\$ 66	\$ 65	\$ 131	\$ 131
Variable lease costs	1	–	2	–
Short-term lease costs	286	261	571	522
Total operating lease costs	<u>\$ 353</u>	<u>\$ 326</u>	<u>\$ 704</u>	<u>\$ 653</u>

Future minimum payments under non-cancellable leases as of June 30, 2025 were as follows (in thousands):

For the Year Ended December 31,	Financing leases	Operating leases
Remaining 2025	\$ 697	\$ 104
2026	479	23
Total future minimum lease payments	1,176	127
Less imputed interest	(28)	(3)
Total lease liability	<u>\$ 1,148</u>	<u>\$ 124</u>

The table below provides supplemental information and non-cash activity related to the Company's operating and financing leases are as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2025	2024	2025	2024
Operating cash flow information:				
Cash paid for amounts included in the measurement of operating lease liabilities	\$ 62	\$ 61	\$ 164	\$ 171
Cash paid for amounts included in the measurement of financing liabilities	\$ 297	\$ 330	\$ 594	\$ 549

The table above does not include short-term leases that are one-year or less. The weighted average remaining discount rate is 5.25% for the Company's financing leases and 5.54% for the Company's operating leases. The weighted average remaining lease term is 1.1 years for the financing lease and 0.6 years for operating leases.

8. STOCK BASED COMPENSATION

In May 2017, the Company's shareholders approved its 2017 Stock Incentive Plan ("2017 Plan") after its 2007 Stock Incentive Plan ("2007 Plan") had expired in March 2017. The 2017 Plan provides for the grant of non-qualified stock options and incentive stock options to purchase shares of the Company's common stock and for the grant of restricted and unrestricted shares of common stock and restricted stock units. The 2017 Plan provides for the issuance of 3,750,000 shares of common stock. In May 2023, the Company's shareholders approved its 2023 Stock Incentive Plan ("2023 Plan"). The 2023 plan provides for the issuance of 2,000,000 shares of common stock. In May 2025, Company's shareholders approved an amendment to the 2023 Plan, adding an additional 1,750,000 shares to this plan. All employees (including officers and directors who are also employees), as well as all of the nonemployee directors and other consultants, advisors and other persons who provide services to the Company are eligible to receive incentive awards under the 2017 Plan and 2023 Plan. Generally, stock options, restricted stock and restricted stock units issued under the 2017 Plan and 2023 Plan vest over a period of one to four years from the date of grant. As of June 30, 2025, approximately 2.5 million shares remain available for issuance under both available plans.

The following table summarizes the stock-based compensation expense recorded in the Company's results of operations for stock options, restricted stock awards and restricted stock units granted under the Company's incentive plans (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2025	2024	2025	2024
Research and development	\$ 536	\$ 398	\$ 995	\$ 775
General and administrative	740	525	1,339	1,108
Selling and marketing	2	64	(47)	128
Total	\$ 1,278	\$ 987	\$ 2,287	\$ 2,011

As of June 30, 2025, there was approximately \$8.7 million of total unrecognized compensation expense related to unvested share-based compensation arrangements. This cost is expected to be recognized over a weighted-average period of 2.2 years.

Stock Options:

The weighted average grant date fair value per share of the options granted under the Company's Plans was \$5.00 for the three and six months ended June 30, 2025. The weighted average grant date fair value per share of the options granted under the Company's Plans was \$3.92 and \$4.97 for the three and six months ended June 30, 2024, respectively. The following table summarizes stock option activity during the six months ended June 30, 2025 (in thousands except exercise prices and contractual terms):

	Number of Shares	Weighted- Average Exercise Prices per Share	Weighted- Average Remaining Contractual Term (In Years)	Intrinsic Value
Outstanding at January 1, 2025	3,793	\$ 6.64		
Granted	2	\$ 5.78		
Exercised	(173)	\$ 5.23		
Forfeited	(167)	\$ 3.50		
Expired	(132)	\$ 5.99		
Outstanding at June 30, 2025	<u>3,323</u>	<u>\$ 6.90</u>	<u>3.89</u>	<u>\$ 881</u>
Exercisable at June 30, 2025	<u>2,870</u>	<u>\$ 6.89</u>	<u>3.20</u>	<u>\$ 830</u>

Restricted Stock Awards:

The Company has issued restricted stock awards to employees, directors and consultants and estimates the fair value based on the closing price on the day of grant. There were no restricted stock awards issued in the six months ended June 30, 2025. The following table summarizes all restricted stock award activity during the six months ended June 30, 2025 (in thousands except per share data):

	Number of Shares	Weighted-Average Grant Date Fair Value per Share
Outstanding at January 1, 2025	469	\$ 7.17
Vested	(151)	\$ 7.01
Outstanding non-vested shares at June 30, 2025	<u>318</u>	<u>\$ 7.24</u>

Restricted Stock Units:

Beginning in January 2025, the Company began issuing restricted stock units ("RSUs") to employees, directors and consultants and a portion of the RSUs issued are subject to time-based vesting and a portion are subject to performance-based vesting criteria. The fair value of time-based RSUs is based on the closing price on the day of grant and they vest over zero to four years. Awards of performance-based restricted stock units by the Company have a performance period of one, two and three years with the vesting of each award tranche dependent on the Company's Total Shareholder Return ("TSR") relative to the TSR of companies in the Russell 2000 Index over that tranche's performance period. The fair value for performance-based awards is fixed at the grant date using a Monte Carlo simulation and the amount of compensation expense is not adjusted during the performance period regardless of changes in the level of TSR achievement.

The weighted average grant date fair value per share of the RSUs granted was \$7.75. The following table summarizes all restricted stock unit activity during the six months ended June 30, 2025 (in thousands except per share prices data):

	Time-Based Units	Performance- Based Units	Total Restricted Stock Units	Weighted-Average Grant Date Fair Value per Share
Outstanding at January 1, 2025	–	–	–	\$ –
Granted	471	251	722	\$ 7.75
Vested	(27)	–	(27)	\$ 6.33
Forfeited	(30)	(30)	(60)	\$ 8.21
Outstanding at June 30, 2025	<u>414</u>	<u>221</u>	<u>635</u>	<u>\$ 7.76</u>

9. COMMITMENTS AND CONTINGENCIES

Litigation, Claims and Assessments

The Company may be subject to periodic lawsuits, investigations and claims that arise in the ordinary course of business. The Company is not party to any material litigation as of June 30, 2025, or through the date these financial statements have been issued.

10. EQUITY

On April 28, 2024, the Company sold 2,247 shares of its common stock to the Chief Executive Officer, Scott Bibaud, at a price of \$4.45 per share, which was determined to be the fair market value on the date of the transaction. The total proceeds from the sale amounted to approximately \$10,000.

11. SEGMENT INFORMATION

The Company operates as a single operating segment. The Company's chief operating decision maker ("CODM") is its chief executive officer and chief financial officer who review financial information. The CODM uses total operating expense, operating margin and related impact on cash consumption to assess financial performance and allocate resources. These financial metrics are used by the CODM to make key operating decisions, such as the determination of the overall headcount, allocation of headcount, research and development expenditures, licensing and royalty rates offered to customers and capital expenditure commitments. The measure of assets is reported on the accompanying condensed balance sheets as total assets.

The following table presents selected financial information with respect to the Company's single operating segment for the three and six months ended June 30, 2025 and 2024:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2025	2024	2025	2024
Revenue	\$ –	\$ 72	\$ 4	\$ 90
Less expenses ⁽¹⁾ :				
Employee related expenses	1,516	1,384	3,303	3,207
Stock-based compensation	1,278	987	2,287	2,011
Tool related expenses	611	626	1,222	1,251
Consulting expenses	107	225	256	391
Metrology and other outsourced research expenses	441	254	902	449
Intellectual property related expenses	302	380	653	573
Other operating items ⁽²⁾	1,000	846	2,099	1,872
Operating margin	(5,255)	(4,630)	(10,718)	(9,664)
Other income (expense), net	288	269	542	481
Net loss	<u>\$ (4,967)</u>	<u>\$ (4,361)</u>	<u>\$ (10,176)</u>	<u>\$ (9,183)</u>

(1) Expenses classified as cost of revenue are included in the line items presented and not as a separate category.

(2) Other operating expenses include items not listed above separately. These include travel and entertainment, professional development, information technology costs, office related costs, depreciation, other research and development costs, other sales and marketing costs and other general and administrative costs.

12. SUBSEQUENT EVENTS

Management has evaluated subsequent events and transactions through the date these financial statements were issued.

Since June 30, 2025, the Company has issued approximately 393,000 additional shares through its ATM offering at an average price per share of \$5.23 resulting in additional net proceeds of approximately \$2.0 million, after deductions of commissions and expenses.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of the financial condition and results of operations of Atomera Incorporated should be read in conjunction with our financial statements and the accompanying notes that appear elsewhere in this Quarterly Report on Form 10-Q. Statements in this Quarterly Report include forward-looking statements based upon current expectations that involve risks and uncertainties, such as our plans, objectives, expectations and intentions. We use words such as “anticipate,” “estimate,” “plan,” “project,” “continuing,” “ongoing,” “expect,” “believe,” “intend,” “may,” “will,” “should,” “could,” and similar expressions to identify forward-looking statements. Although forward-looking statements in this Quarterly Report reflect the good faith judgment of our management, such statements can only be based on facts and factors currently known by us. Consequently, forward-looking statements are inherently subject to risks, uncertainties, and changes in condition, significance, value and effect, including those risk factors set forth in our Annual Report on Form 10-K for the year ended December 31, 2024 filed with the SEC on March 4, 2025. Such risks, uncertainties and changes in condition, significance, value and effect could cause our actual results to differ materially from those expressed herein and in ways not readily foreseeable. Readers are urged not to place undue reliance on these forward-looking statements, which speak only as of the date of this Quarterly Report and are based on information currently and reasonably known to us. We undertake no obligation to revise or update any forward-looking statements in order to reflect any event or circumstance that may arise after the date of this Quarterly Report. Readers are urged to carefully review and consider the various disclosures made in this Quarterly Report, which attempt to advise interested parties of the risks and factors that may affect our business, financial condition, results of operations and prospects.

Overview

We are engaged in the business of developing, commercializing and licensing proprietary processes and technologies for the \$550+ billion semiconductor industry. Our lead technology, named Mears Silicon Technology™, or MST®, is a thin film of reengineered silicon, typically 100 to 300 angstroms (or approximately 20 to 60 silicon atomic unit cells) thick. MST is our proprietary and patent-protected performance enhancement technology that we believe addresses a number of key engineering challenges facing the semiconductor industry. We believe that by incorporating MST, transistors can be made smaller, with increased speed, reliability and power efficiency. In addition, since MST is an additive and low-cost technology, we believe it can be deployed on an industrial scale, with machines commonly used in semiconductor manufacturing. We believe that MST can be widely incorporated into the most common types of semiconductor products, including analog, logic, optical and memory integrated circuits.

We do not design or manufacture integrated circuits directly. Instead, we develop and license technologies and processes that we believe offer the designers and manufacturers of integrated circuits a low-cost solution to the industry’s need for greater performance and lower power consumption. Our customers and partners include:

- foundries, which manufacture integrated circuits on behalf of fabless manufacturers;
- integrated device manufacturers, or IDMs, which are the fully-integrated designers and manufacturers of integrated circuits;
- fabless semiconductor manufacturers, which are designers of integrated circuits that outsource the manufacturing of their chips to foundries;
- original equipment manufacturers, or OEMs, that manufacture the epitaxial, or epi, machines used to deposit semiconductor layers, such as the MST film, onto silicon wafers; and
- electronic design automation companies, which make tools used throughout the industry to simulate performance of semiconductor products using different materials, design structures and process technologies.

Our commercialization strategy is to generate revenue through licensing arrangements whereby foundries, IDMs and fabless semiconductor manufacturers pay us a license fee for their right to use MST technology in the manufacture of silicon wafers as well as a royalty for each silicon wafer or device that incorporates our MST technology. We also license our MSTcad software to our customers for use in simulating the effects of using MST technology on their wafers and/or devices. To date, we have generated revenue from (i) licensing agreements with ST Microelectronics (ST) and Asahi Kasei Microdevices (AKM), both of which are IDMs, one fabless manufacturer and one foundry, (ii) a joint development agreement, or JDA, with a leading semiconductor provider, (iii) engineering services provided to foundries, IDMs and fabless companies and (iv) licensing MSTcad.

We were organized as a Delaware limited liability company under the name Nanovis LLC on November 26, 2001. On March 13, 2007, we converted to a Delaware corporation under the name Mears Technologies, Inc. On January 12, 2016, we changed our name to Atomera Incorporated.

On May 31, 2022, we entered into an Equity Distribution Agreement with Oppenheimer & Co. Inc. and Craig-Hallum Capital Group LLC (“Craig-Hallum”), as agents, under which we offered and sold, from time to time at our sole discretion, shares of our common stock in an at the market offering to or through the agents, having aggregate offering proceeds of up to \$50.0 million (the “2022 ATM”). The 2022 ATM expired on March 18, 2025.

On May 27, 2025, we entered into an Equity Distribution Agreement Craig-Hallum as agent, under which we may offer and sell, from time to time at our sole discretion, shares of our common stock in an “at-the-market” offering, (“2025 ATM”) to or through the agent, having aggregate offering proceeds of up to \$50.0 million. During the three months ended June 30, 2025, we sold approximately 185,000 shares pursuant to the 2025 ATM at an average price per share of approximately \$5.21, resulting in approximately \$792,000 of net proceeds to us after deducting commissions and other offering expenses.

During the six months ended June 30, 2025, we sold approximately 349,000 shares pursuant to the 2022 ATM and the 2025 ATM at an average price per share of approximately \$9.89, resulting in approximately \$3.2 million of net proceeds to us after deducting commissions and other offering expenses.

Results of Operations

Revenues. To date, we have only generated limited revenue from customer engagements for engineering services, integration license agreements, a manufacturing license granted under a JDA, our license agreement with ST and licensing of MSTcad. Our license agreement with ST, which was executed in April 2023, is our first commercial manufacturing and distribution agreement and, assuming successful completion of contractual milestones and payments of associated fees, will entitle us to royalties on all MST-enabled products manufactured for commercial purposes. Our MSTcad licenses grant customers the right to use MSTcad software to simulate the effects of incorporating MST technology into their semiconductor manufacturing process. MSTcad licenses are granted on a monthly or yearly basis and revenue is recognized over time.

Revenue for the three and six months ended June 30, 2025 was approximately \$0 and \$4,000, respectively. Our revenue consisted of MSTcad licensing and related consulting services revenue. Revenue for the three and six months ended June 30, 2024 was approximately \$72,000 and \$90,000, respectively. Our revenue in 2024 consisted of MSTcad license revenue, consulting services related to MSTcad and the delivery of MST wafers.

Cost of revenue. Cost of revenue consists of costs of materials, as well as direct compensation and expenses incurred to provide deliverables that result in payment of success fees, delivery of wafers in connection with integration license agreements and consulting services provided for our MSTcad licenses. Cost of revenue is expensed when incurred and may not correspond with revenue earned in the same period. Cost of revenue for the three and six months ended June 30, 2025 was \$62,000 for each period. Cost of revenue for the three and six months ended June 30, 2024 was \$74,000 and \$107,000, respectively. We anticipate that our cost of revenue will vary substantially depending on the mix of license and engineering services revenues we receive and the nature of products and/or services delivered in each customer engagement.

Operating expenses. Operating expenses consist of research and development, general and administrative, and selling and marketing expenses. For the three months ended June 30, 2025 and 2024, our operating expenses totaled approximately \$5.2 million and \$4.6 million, respectively. For the six months ended June 30, 2025 and 2024, our operating expenses totaled approximately \$10.7 million and \$9.6 million, respectively.

Research and development expense. To date, our operations have focused on research, development, patent prosecution, and commercialization of our MST technology and related technologies such as MSTcad. Our research and development costs primarily consist of payroll and benefits costs for our engineering staff and costs of outsourced fabrication (including epi tool leases) and metrology of semiconductor wafers incorporating our MST technology.

For the three months ended June 30, 2025 and 2024, we incurred approximately \$3.0 million and \$2.6 million, respectively, of research and development expenses, an increase of approximately \$415,000, or 16%. This increase was primarily due to increases in device fabrication costs of approximately \$136,000, employee costs of approximately \$125,000 and stock-based compensation expenses of approximately \$137,000.

For the six months ended June 30, 2025 and 2024, we incurred approximately \$6.3 million and \$5.4 million, respectively, of research and development expenses, an increase of approximately \$812,000, or 15%. This increase was primarily due to increases in device fabrication costs of approximately \$317,000, employee costs of approximately \$216,000 and stock-based compensation expenses of approximately \$219,000.

General and administrative expense. General and administrative expenses consist primarily of payroll and benefit costs for administrative personnel, office-related costs and professional fees. General and administrative costs were approximately \$2.0 million and \$1.8 million for the three months ended June 30, 2025 and 2024, respectively, representing an increase of approximately \$216,000, or 12%. The increase is primarily related to increases of approximately \$215,000 in stock-based compensation expenses.

General and administrative costs were approximately \$4.1 million and \$3.6 million for the six months ended June 30, 2025 and 2024, respectively, representing an increase of approximately \$493,000, or 14%. The increase is primarily related to increases of approximately \$231,000 in stock-based compensation expenses, approximately \$97,000 in corporate legal fees and approximately \$80,000 in intellectual property related expenses related to our patent portfolio.

Selling and marketing expense. Selling and marketing expenses consist primarily of salary and benefits for our sales and marketing personnel and business development consulting services. Selling and marketing expenses for the three months ended June 30, 2025 and 2024 were approximately \$141,000 and \$207,000, respectively, representing a decrease of approximately \$66,000, or 32%. The decrease in costs is primarily due to a reduction in headcount.

Selling and marketing expenses for the six months ended June 30, 2025 and 2024 were approximately \$265,000 and \$557,000, respectively, representing a decrease of approximately \$292,000, or 52%. The decrease in costs is primarily due to a reduction in headcount.

Interest income. Interest income for the three months ended June 30, 2025 and 2024 was approximately \$234,000 and \$185,000, respectively. Interest income for the six months ended June 30, 2025 and 2024 was approximately \$504,000 and \$390,000, respectively. Interest income reflects interest earned on our cash, cash equivalents and short-term investments and are impacted by current interest rates and average balances over the periods presented.

Accretion income. Accretion income for the three and six months ended June 30, 2025 was approximately \$0 and \$6,000, respectively. Accretion income for the three and six months ended June 30, 2024 was approximately \$47,000 and \$93,000, respectively. Accretion income relates to the increase in value of our available-for-sale securities from the purchase date through the maturity date. As of June 30, 2025, our cash and cash equivalents are held as cash and mutual funds.

Interest expense. Interest expense for the three months ended June 30, 2025 and 2024 was approximately \$18,000 and \$35,000, respectively. Interest expense for the six months ended June 30, 2025 and 2024 was approximately \$39,000 and \$74,000, respectively. Interest expense is related to the tool financing lease entered into in August 2021.

Other income (expense), net. Other income for the three months ended June 30, 2025 and 2024 was approximately \$71,000 and \$72,000 respectively, and for the six months ended June 30, 2025 and 2024 was approximately \$71,000 and \$72,000, respectively. For all periods presented, these amounts consist primarily of a refundable state research and development tax credit, net of filing costs and tax consulting services.

Cash Flows from Operating, Investing and Financing Activities

Net cash used in operating activities of approximately \$8.3 million for the six months ended June 30, 2025 resulted primarily from our net loss of approximately \$10.2 million and a decrease in our accrued payroll expenses of approximately \$979,000, offset by approximately \$2.3 million of stock-based compensation.

Net cash used in operating activities of approximately \$7.3 million for the six months ended June 30, 2024 resulted primarily from our net loss of approximately \$9.2 million offset by approximately \$2.0 million of stock-based compensation.

Net cash provided by investing activities of approximately \$986,000 for the six months ended June 30, 2025 consisted primarily of the maturity of short-term available-for-sale investments.

Net cash provided by investing activities of approximately \$3.2 million for the six months ended June 30, 2024 consisted primarily of the maturity of short-term available-for-sale investments, offset by the purchase of short-term available-for-sale investments.

Net cash provided by financing activities of approximately \$3.5 million for the six months ended June 30, 2025 primarily related to the net proceeds from sales under our ATM and stock option exercises, offset by the principal payments on our financing lease.

Net cash provided by financing activities of approximately \$6.0 million for the six months ended June 30, 2024 primarily related to the net proceeds from our ATM offering, offset by the principal payments on our financing lease.

Liquidity and Capital Resources

As of June 30, 2025, we had cash and cash equivalents of approximately \$22.0 million and working capital of approximately \$20.0 million. For the six months ended June 30, 2025 we had a net loss of approximately \$10.2 million and used approximately \$8.3 million of cash and cash equivalents in operations. Since inception, we have incurred recurring operating losses.

During the three months ended June 30, 2025, we sold approximately 185,000 shares of commons stock pursuant to the 2025 ATM at an average price per share of approximately \$5.21, resulting in approximately \$792,000 of net proceeds to the Company after deducting commissions and other offering expenses.

During the six months ended June 30, 2025, we sold approximately 349,000 shares pursuant to the 2022 ATM and the 2025 ATM at an average price per share of approximately \$9.89, resulting in approximately \$3.2 million of net proceeds to us after deducting commissions and other offering expenses.

We believe that our available working capital is sufficient to fund our presently forecasted working capital requirements for, at least, the next 12 months following the date of the filing of this report. However, our future capital requirements and the adequacy of our available funds will depend on many factors, including our ability to successfully commercialize our MST technology, competing technological and market developments, and the need to enter into collaborations with other companies or acquire technologies to enhance or complement our current offerings. If we are not able to generate sufficient revenue from license fees and royalties in a timeframe that satisfies our cash needs, we will need to raise more capital. In the event we require additional capital, we will endeavor to acquire additional funds through various financing sources, including our ATM, follow-on equity offerings, debt financing and joint ventures with industry partners. In addition, we will consider alternatives to our current business plan that may enable us to achieve revenue-producing operations and meaningful commercial success with a smaller amount of capital. If we are unable to secure additional capital, we may be required to curtail our research and development initiatives and take additional measures to reduce costs in order to conserve cash.

Critical Accounting Estimates

There have been no changes to our critical accounting estimates from those included in our Annual Report on Form 10-K for the year ended December 31, 2024 filed with the SEC on March 4, 2025.

Item 3. Quantitative and Qualitative Disclosure about Market Risk.

Not applicable.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our chief executive officer and principal financial and accounting officer, has evaluated the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934. Based on this evaluation, management concluded that our disclosure controls and procedures were not effective as of June 30, 2025 because of the material weakness described below.

Changes in Internal Control over Financial Reporting

As disclosed in our Annual Report on Form 10-K for the year ended December 31, 2024, management previously identified a material weakness in our internal controls because we did not design and implement effective controls over the review and approval of journal entries into our general ledger. In 2025, we began implementing enhanced controls to review and approve journal entries and are currently testing the operational effectiveness of these controls. Otherwise, there have not been any changes to our internal controls over financial reporting (as defined by Rule 13a-15(f) and 15(d)-15(f) under the Exchange Act) during the three-month period ended June 30, 2025 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II. Other Information

Item 1A. Risk Factors

The primary risk factors affecting our business have not changed materially from the risk factors set forth in our Annual Report on Form 10-K for the year ended December 31, 2024 filed with the SEC on March 4, 2025.

Item 5. Other Information

During the quarter ended June 30, 2025, no director or officer of the Company adopted or terminated a “Rule 10b5-1 trading arrangement” or “non-Rule 10b5-1 trading arrangement,” as each term is defined in Item 408(a) of Regulation S-K.

CERTIFICATIONS

I, Scott A. Bibaud, certify that:

- (1) I have reviewed this Form 10-Q of Atomera Incorporated (the “Company”);
- (2) Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- (3) Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the Company as of, and for, the periods presented in this report;
- (4) The Company’s other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the company and have:
 - (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Company, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) evaluated the effectiveness of the Company’s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the period covered by this report based on such evaluation; and
 - (d) disclosed in this report any change in the Company’s internal control over financial reporting that occurred during the Company’s most recent quarter that has materially affected, or is reasonably likely to materially affect, the Company’s internal control over financial reporting; And
- (5) The Company’s other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Company’s auditors and the audit committee of the Company’s board of directors (or persons performing the equivalent functions):
 - (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Company’s ability to record, process, summarize and report financial information; and
 - (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the Company’s internal control over financial reporting.

**CERTIFICATION PURSUANT TO 18
U.S.C. 1350, AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Quarterly Report of Atomera Incorporated (the "Company") on Form 10-Q for the period ended June 30, 2025 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Scott A. Bibaud, the Chief Executive Officer, and Francis B. Laurencio, the Chief Financial Officer, of the Company, respectively, certify, pursuant to 18 U.S.C. §1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that to my knowledge:

1. The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
2. The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
