The Fund may also invest in bonds issued by governments and shares of companies. The fund manager selects bonds and shares based upon analysis of a company's financial status, quality of its management, expected profitability and prospects for growth.

Risk and Reward Profile

The risk category is calculated using historical performance data and may not be a reliable indicator of the Fund's future risk profile.

The risk category shown is not guaranteed and may shift over time.

The lowest category does not mean risk free.

Why is this Fund in this category?

The capital of the Fund is not guaranteed. The Fund is invested in financial markets and uses techniques and instruments which are subject to some level of variation which may result in gains or losses.

Additional Risks

Credit Risk: the risk that an issuer of bonds will default on its obligations to pay income or repay capital, resulting in a decrease in

Fund value. The value of a bond (and, subsequently, the Fund) is also affected by changes in market perceptions of the risk of future default. The risk of default for high yield bonds may be greater than bonds of investment grade issuers.

Interest Rate Risk: fluctuations in interest rates will change the value of bonds, impacting the value of the Fund. Generally, when interest rates rise, the value of the bonds fall and vice versa. The valuation of bonds will also change according to market perceptions of future movements in interest rates.

Liquidity Risk: some investments may trade infrequently and in small volumes. As a result the Fund manager may not be able to sell at a preferred time or volume or at a price close to the last quoted valuation. The Fund manager may be forced to sell a number of such investments as a result of a large redemption of units in the Fund. Depending on market conditions, this could lead to a significant drop in the Fund's value and in extreme circumstances lead the Fund to be unable to meet its redemptions.

Further explanation of the risks associated with an investment in this Fund can be found in the prospectus.
