

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Quilter Investors Asia Pacific (ex Japan) Large-Cap Equity Fund U2 (GBP) Income Shares (GB00B8HNTS84)

A sub-fund of Quilter Investors OEIC. Managed by Quilter Investors Limited

Objectives and Investment Policy

Objective: capital growth. The Fund aims to outperform the MSCI All Countries Asia Pacific ex Japan Index, net of charges, over rolling five-year periods.

Policy: the Fund invests at least 80% of the value of its property in shares of companies that are listed, located or have a significant portion of their business in developed and emerging markets in Asia and Australasia (excluding Japan). Investment may be direct or indirect (e.g. through collective investment schemes or derivatives), however the Manager expects that the Fund will typically hold investments directly.

The Fund invests a minimum of 60% of its property in large-cap companies, while the remainder may be invested in companies of any size, including smaller companies. The Fund may at times be concentrated in terms of the number of investments it holds (i.e. have less than 50 holdings). The Fund may invest in China A Shares through the Hong Kong Stock Connect ("Stock Connect").

The Fund may use derivatives (i.e. financial contracts whose value is linked to the expected price movements of an underlying investment) with the aim of reducing the overall costs and/or risks of the Fund and/or generating additional income or growth (often referred to as 'Efficient Portfolio Management').

The Fund is managed by an investment adviser selected by the Manager for its expected ability to manage the Fund according to the investment objective and policy. The Manager continuously monitors and may periodically make changes to this appointment. The investment adviser's current strategy is to typically favour shares of companies it believes to be undervalued.

Target benchmark: the target benchmark for the Fund is the MSCI All Countries Asia Pacific ex Japan Index. The target benchmark is representative of the companies in which the Fund primarily invests. The Fund is actively managed and the Fund investments may differ from those included in the target benchmark provided they are allowed in the investment policy.

Recommendation: the Fund may not be appropriate for investors who plan to withdraw their money within five years.

Treatment of income: income from investments, net of expenses, will be paid to shareholders.

Dealing: you can generally buy and sell shares on any day on which the London Stock Exchange is open for normal business – please refer to the Prospectus for exceptions.

Risk and Reward Profile

The calculated risk and reward category, as shown above, uses a method of calculation derived from EU rules. It is based on the rate at which the returns of the Fund have moved up and down in the past (i.e. volatility) and is not a guide to the future risk and reward category of the Fund. The category shown is not a target or guarantee and may shift over time. Even the lowest category 1 does not mean a risk-free investment. The seven-category scale is nonlinear, for example, 2 is not twice as risky as 1.

Funds in category 6 have in the past shown relatively high volatility. With a fund of category 6, you have a relatively high risk of losing money but your chance for gains is also relatively high.

Investment risk - there is no guarantee that the Fund will achieve its objective. A capital loss of some or all of the amount invested may occur.

Company shares (i.e. equities) risk - the value of company shares may rise and fall due to the performance of individual companies or because of general market and economic conditions.

Geographic concentration risk - a fall in the Asia Pacific markets may have a significant impact on the value of the Fund because it primarily invests in these markets.

Emerging markets risk - less developed countries may face more political, economic or structural challenges than developed countries.

Stock Connect risk - the Fund may invest in China A Shares through Stock Connect. Stock Connect is governed by regulations which are untested and subject to change.

This may result in additional operational risks. Trading limitations and restrictions on foreign ownership may constrain the Fund's ability to pursue its investment strategy.

Concentration risk (number of investments) - the Fund may at times hold a smaller number of investments, and therefore a fall in the value of a single investment may have a greater impact on the Fund's value than if it held a larger number of investments.

Liquidity risk - some investments may become hard to value or sell at a desired time and price. In extreme circumstances this may affect the Fund's ability to meet redemption requests upon demand.

Style bias risk - funds that favour shares of either undervalued companies ("value stocks") or companies with the potential for growth ("growth stocks") may be subject to periods of underperformance, as value and growth stocks typically outperform each other, and markets generally, at different times.

Currency risk - the Fund is denominated in British Pounds but holds assets denominated in other currencies. The value of your shares may rise and fall as a result of exchange rate movements.

Derivative risk - the Fund may use derivatives for Efficient Portfolio Management (EPM). Derivatives involve a level of risk, however, for EPM they should not increase the overall riskiness of the Fund. Derivatives also involve counterparty risk where the institutions acting as counterparty to derivatives may not meet their contractual obligations.

Capital erosion risk - the Fund takes its charges from the income of the Fund in the first instance. The impact of Fund charges may be material on the value of any income you receive from your investment. There is potential for capital erosion if insufficient income is generated by the Fund to cover these charges. Capital erosion may have the effect of reducing the level of income generated.

For full details of the Fund's risks, please see the section in the prospectus headed "Risks".

Charges

These charges are used to pay the costs of running the Fund, including the costs of marketing and distribution. Overall, they reduce the growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.	
Charges taken from the Fund over a year	
Ongoing charge	0.80%
Charges taken from the Fund under specific conditions	
Performance fee	None

The ongoing charge figure is based on the Fixed Ongoing Charge which is detailed in the prospectus, but may also include charges for investing in closed-ended funds such as investment trusts. The ongoing charge figure excludes portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling shares in another collective investment undertaking and may vary from year to year.

You can find out more details about the charges applicable to this Fund by looking at Appendix I of the prospectus and the Charges and Expenses disclosure at www.quilter.com/charges-and-expenses.

Past Performance

Past performance is not a guide to future performance. The past performance shown does not take into account any entry or exit charges but does take into account the ongoing charge, as shown in the Charges section.

The value of the class is calculated in British Pounds. The Index is in British Pounds. The Fund launched on 10 July 2013. This class started to issue shares on 2 April 2014.

Practical Information

The Depositary is Citibank UK Limited.

Quilter Investors Asia Pacific (ex Japan) Large-Cap Equity Fund is a sub-fund of Quilter Investors OEIC (the "Company"). The assets and liabilities of each sub-fund are segregated from other sub-funds although it is not yet known whether a foreign court would give effect to segregated liability under a foreign law contract and so this is not certain in every circumstance.

Further information about the Company, copies of its prospectus, annual and half-yearly reports may be obtained, for the entire Company, free of charge in English from the registrar, SS&C, P.O. Box 10278 Chelmsford, CM99 2AR or visit www.quilter.com/documents.

Details of Quilter Investors Limited's remuneration policy which includes a description of how remuneration and benefits are calculated, the identities of the persons responsible for awarding remuneration and benefits and details of the remuneration committee, are available at www.quilter.com/documents.
