JUPITER

Jupiter UK Smaller Companies Fund U2 GBP Inc (GB00BHBX8W48)

A sub-fund of Jupiter Investment Management Series I.

Managed by Jupiter Unit Trust Managers Limited.

Objectives and Investment Policy

Objective: to achieve capital growth. In seeking to achieve its investment objective the fund will aim to deliver a return, net of fees, greater than that of the Deutsche Numis Smaller Companies Index excluding Investment Companies over rolling 3 year periods.

Policy: the Fund invests primarily in UK company shares and similar investments. The Fund will typically invest at least 80% in smaller companies, which are defined as those companies quoted on a regulated market and that are no larger than the largest company in the Deutsche Numis Smaller Companies Index at the time of investment. The Fund may invest up to 10% in unlisted companies.

The Fund may also invest in other transferable securities (including shares of companies based anywhere in the world), open-ended funds (including funds managed by Jupiter and its associates), warrants, cash, near cash, money market instruments and deposits.

The Fund may use derivatives (i.e. financial contracts whose value is linked to the expected price movements of an underlying investment) with the aim of reducing the overall costs and/or risks of the Fund.

The Fund is actively managed. Portfolio construction is driven by research into a company's future prospects in the context of the economic environment to identify attractively priced investment opportunities.

The Deutsche Numis Smaller Companies Index excluding Investment Companies is a broad representation of the Fund's investment universe and as such is a point of reference against which the performance of the Fund may be measured. Although a large proportion of the Fund's investments may be components of the Index, the Fund has the ability to deviate significantly from the Index.

Portfolio transaction costs are paid out of the assets of the Fund in addition to the charges set out below, and may have an impact on the performance of the Fund.

Recommendation: the Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Treatment of income: income from investments, net of expenses, will be paid to shareholders.

Dealing: you can generally buy and sell shares on any day on which the London Stock Exchange is open for normal business – please refer to the Prospectus for exceptions.

Risk and Reward Profile

The calculated risk and reward category, as shown above, uses a method of calculation derived from EU rules. It is based on the rate at which the returns of the Fund have moved up and down in the past (i.e. volatility) and is not a guide to the future risk and reward category of the Fund. The category shown is not a target or guarantee and may shift over time. Even the lowest category 1 does not mean a risk-free investment. The seven-category scale is nonlinear, for example, 2 is not twice as risky as 1.

Typically lower rewards — **Typically higher rewards**

Lower risk — **Higher risk**

1	2	3	4	5	**6**	7

- The lowest category does not mean 'no risk'.
- The Fund is in this category due to the nature of its investments and previous levels of volatility (how much the value of the Fund rises and falls). Funds in category 6 have in the past shown relatively high volatility. With a fund of category 6, you have a relatively high risk of losing money but your chance for gains is also relatively high.
- **Pricing Risk** - Price movements in financial assets mean the value of assets can fall as well as rise, with this risk typically amplified in more volatile market conditions.
- **Market Concentration Risk (Geographical Region/Country)** - Investing in a particular country or geographic region can cause the value of this investment to rise or fall more relative to investments whose focus is spread more globally in nature.
- **Derivative risk** - the Fund may use derivatives to reduce costs and/or the overall risk of the Fund (this is also known as Efficient Portfolio Management or "EPM"). Derivatives involve a level of risk, however, for EPM they should not increase the overall riskiness of the Fund.
- **Liquidity Risk (less liquid securities)** - some investments may be hard to value or sell at a desired time and price. In extreme circumstances this may affect the Fund's ability to meet redemption requests upon demand.
- **Liquidity Risk (general)** - During difficult market conditions there may not be enough investors to buy and sell certain investments. This may have an impact on the value of the Fund.
- **Liquidity Risk (Unlisted)** - The Fund may hold unlisted securities which can be difficult to value and negatively impact Fund liquidity.
- **Counterparty Risk** - the risk of losses due to the default of a counterparty e.g. on a derivatives contract or a custodian that is safeguarding the Fund's assets.
- **Smaller Companies** - The Fund invests in smaller companies, which can be less liquid than investments in larger companies and can have fewer resources than larger companies to cope with unexpected adverse events. In less favourable market conditions these companies may therefore under-perform larger companies and the Fund may under-perform funds that invest predominantly in larger companies.
- For a more detailed explanation of risks, please refer to the "**Risk Factors**" section of the prospectus.

Charges

One-off charges taken before or after you invest

Entry charge	None
Exit charge	None

This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out. In some cases, you might pay less and you can find out the actual entry and exit charges from your financial adviser or distributor.

Charges taken from the Fund over a year

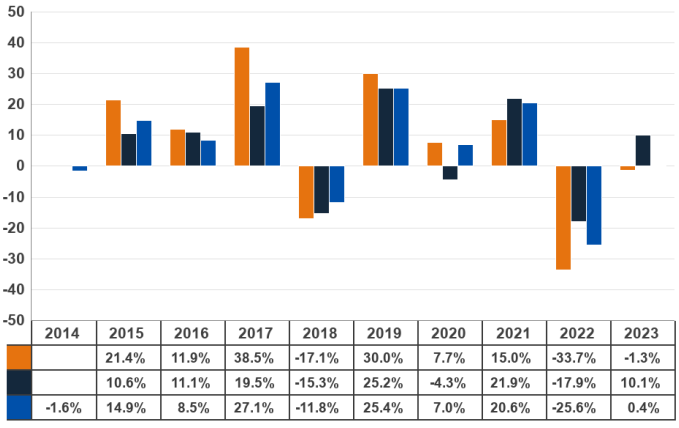

Ongoing charges	0.86%

Charges taken from the Fund under specific conditions

Performance fee	None

- These charges are used to pay the costs of running the Fund, including the costs of marketing and distribution. Overall, they reduce the growth of your investment.
- The ongoing charges figure is based on the fixed annual charge as detailed in the prospectus. With effect from 23/02/24 the fixed annual charge may be subject to a discount based on the value of the Fund's scheme property. The current discount rate, if applicable, can be found at www.jupiteram.com/tiered-pricing. Where the Fund invests in other underlying funds, which may include closed-ended funds such as investment trusts, the ongoing charges figure will include the ongoing charges for those funds, and will therefore vary from year to year. The ongoing charges figure excludes portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling shares in another collective investment undertaking.
- You can find out more details about the charges by looking at Schedule 1 of the prospectus.
