Jupiter Asset Management Series PLC - Jupiter Global Emerging Markets Focus Fund

(the 'Fund'), a sub-fund of Jupiter Asset Management Series PLC

U2 GBP Acc (ISIN - IE00BFWH3712)

The Manager is Jupiter Asset Management (Europe) Limited (the "Manager")

Objectives and Investment Policy

Objective: capital growth over the long term by investing in shares (i.e. equities) and similar investments of companies listed, traded or dealt in on a regulated market in emerging markets worldwide and companies that have a predominant proportion of their assets or business operations in these emerging market countries.

Policy: in seeking to achieve its investment objective, the fund aims to deliver a return, net of fees, greater than that of the MSCI EM (Emerging Markets) Index with net dividends re-invested over rolling 3 year periods.

The Fund will typically invest at least 80% in company shares and similar investments. Companies may be of all sizes and in any industry (e.g. pharmaceuticals, finance, etc).

The Fund may invest up to 20% in China A-Shares through the China-Hong Kong Stock Connect scheme.

The Fund will typically invest in the shares of fewer than 50 companies.

The Fund may use derivatives (i.e. financial contracts whose value is linked to the expected price movements of an underlying investment), with the aim of generating returns and reducing the overall costs and/or risks of the Fund.

The Fund is actively managed. Portfolio construction is driven by research into a company's future prospects in the context of the economic environment to identify attractively priced investment opportunities.

The Fund promotes environmental and social characteristics on an ongoing basis within the scope of Article 8 of the Sustainable Finance Disclosure Regulation. The environmental and social characteristics selected for the Jupiter Global Emerging Markets Focus Fund include the promotion of the transition to a low carbon economy and upholding responsibilities to people and planet.

The Index is a broad representation of the Fund's investment universe. Although a large proportion of the Fund's investments may be components of the Index, the Fund has the ability to deviate significantly from the Index.

Portfolio transaction costs are paid out of the assets of the Fund in addition to the charges set out below, and may have an impact on the performance of the Fund.

Recommendation: the Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Treatment of income: as shares in this class are accumulation shares, income from investments will be reinvested into the Fund and reflected in the value of the shares.

Dealing: you can buy and sell shares on business days (excluding Saturdays, Sundays and public holidays) where retail banks are open for business in Dublin and London and the New York Stock Exchange is open for business in New York.

Risk and Reward Profile

The calculated risk and reward category, as shown above, uses a method of calculation derived from EU rules. It is based on the rate at which the returns of the Fund have moved up and down in the past (i.e. volatility) and is not a guide to the future risk and reward category of the Fund. The category shown is not a target or guarantee and may shift over time. Even the lowest category 1 does not mean a risk-free investment. The seven-category scale is nonlinear, for example, 2 is not twice as risky as 1.

- Funds in category 6 have in the past shown relatively high volatility. With a fund of category 6, you have a relatively high risk of losing money but your chance for gains is also relatively high.
- Investment risk** - there is no guarantee that the Fund will achieve its objective. A capital loss of some or all of the amount invested may occur.
- Company shares (i.e. equities) risk** - the value of Company shares and similar investments may go down as well as up in response to the performance of individual companies and can be affected by daily stock market movements and general market conditions.
- Stock Connect risk** - Stock Connect is governed by regulations which are subject to change. Trading limitations and restrictions on foreign ownership may constrain the Fund's ability to pursue its investment strategy.
- Concentration risk (number of investments)** - the Fund may at times hold a smaller number of investments, and therefore a fall in the value of a single investment may have a greater impact on the Fund's value than if it held a larger number of investments.
- Currency risk** - the Fund is denominated in USD but holds assets denominated in

other currencies. This share class is denominated in GBP. The value of your shares may rise and fall as a result of exchange rate movements.

- Smaller companies risk** - smaller companies are subject to greater risk and reward potential. Investments may be volatile or difficult to buy or sell.
- Emerging markets risk** - less developed countries may face more political, economic or structural challenges than developed countries.
- Liquidity Risk (less liquid securities)** - some investments may be hard to value or sell at a desired time and price. In extreme circumstances this may affect the Fund's ability to meet redemption requests upon demand.
- Derivative risk** - the Fund may use derivatives to generate returns as well as to reduce costs and/or the overall risk of the Fund. Using derivatives can involve a higher level of risk. A small movement in the price of an underlying investment may result in a disproportionately large movement in the price of the derivative investment. Derivatives also involve counterparty risk where the institutions acting as counterparty to derivatives may not meet their contractual obligations.
- Capital erosion risk** - the Fund takes its charges from the capital of the Fund. Investors should be aware that there is potential for capital erosion if insufficient capital growth is achieved by the Fund to cover the charges.
- Sustainability Article 8** - Investments are selected or excluded on both financial and non-financial criteria. The Fund's performance may differ from the broader market or other Funds that do not utilize ESG criteria when selecting investments.
- For a more detailed explanation of risks, please refer to the "Risk Factors" section of the prospectus.

Charges

One-off charges taken before or after you invest

Entry charge	None
Exit charge	None

This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out. In some cases, you might pay less and you can find out the actual entry and exit charges from your financial adviser or distributor.

Charges taken from the Fund over a year

Ongoing charges	0.87%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	None
-----------------	------

- These charges are used to pay the costs of running the Fund, including the costs of marketing and distribution. Overall, they reduce the growth of your investment.
- The ongoing charges figure is based on the expenses of the Fund for the 12 month period ended December 2023. Where the Fund invests in other underlying funds, which may include closed-ended funds such as investment trusts, the ongoing charges figure will include the ongoing charges for those funds, and will therefore vary from year to year. The ongoing charges figure excludes portfolio transaction costs, except in the case of an entry/ exit charge paid by the Fund when buying or selling shares in another collective investment undertaking.
- It is not the intention for a switching charge (2.50%) to apply but the Fund reserves the right to impose a switching charge in the future.
- You can find out more details about the charges by looking at the *Fees and Expenses* section of the prospectus.
