FUND AIM

The objective of this fund is to provide growth by tracking the performance of the FTSE World Europe ex UK Index. The fund will invest almost entirely in company shares. The fund's investments will closely match those that make up the Index. The Index consists of a broad spread of European company shares (excluding UK companies). The fund may use derivatives to reduce risk or cost, or to generate additional capital or income with no, or an acceptably low, level of risk.

INVESTMENT PHILOSOPHY

The Fund aims to provide exposure to stock market investment but without all the risk attached to individual stock selection. This produces low tracking error and limited stock picking or 'style' risks. The Fund takes a pragmatic approach to trading on index changes and cashflow and has lower management fees than active funds. This Fund is based on investments across European stock markets and has a broad spread of shares and invests in companies of all sizes.
