

CASH FUND

Corporate Acc Gross ISIN: GB00B14LVH90

Janus Henderson
INVESTORS

A unit trust, managed by Henderson Investment Funds Limited.

Objectives and investment policy

Objective

The Fund aims to provide a level of income that is in line with money market rates and consistent with preservation of your investment.

The Fund invests principally in:

- Short-term bank deposits
- Money market instruments

The Fund may also invest in:

- Bonds of any quality from any type of issuer

In choosing investments, the investment manager looks for fixed income instruments that offer capital protection and some income potential.

The Fund may use derivatives to reduce risk or to manage the Fund more efficiently.

Designed for Investors who understand the risks of the Fund, seek current income and protection of capital, and intend to invest their money for at least three years.

This Fund is designed to be used only as one component in several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this Fund.

Fund currency GBP **Share class currency** GBP

Terms to understand

Bonds Securities that represent an obligation to repay a debt along with interest.

Money market instruments A short term debt instrument, issued by a government or company as a way to raise money. Generally considered a cash equivalent.

Volatility How sharply the Fund's share price has gone up and down over a period, generally several years.

Derivatives Financial instruments whose value is linked to the price of an underlying asset (eg indices, rates, share prices).

You can buy, sell or switch units in the Fund on any business day, as defined within the "Definitions" Section of the Fund's prospectus.

The Fund offers accumulation units (units in which net income is retained within the price).

Risk and reward profile

♦ Potentially lower reward				Potentially higher reward ♦			
♦ Lower risk				Higher risk ♦			
1	2	3	4	5	6	7	

The value of an investment in the Fund can go up or down. When you sell your shares they may be worth less than you paid for them.

The risk/reward rating above is based on medium-term volatility. In the future, the Fund's actual volatility could be higher or lower and its rated risk/reward level could change.

The share class appears at 1 out of 7. Share classes in higher categories have shown greater and/or more frequent variations in share price in the past 5 years than those in lower categories. The lowest category does not mean risk free.

The rating does not reflect the possible effects of unusual market conditions or large unpredictable events. Under normal market conditions the following risks may apply:

Active management risk Active management techniques that have worked well in normal market conditions could prove ineffective or detrimental at other times.

Counterparty risk The Fund could lose money if a counterparty with which it trades becomes unwilling or unable to meet its obligations to the Fund.

Credit risk The value of a bond or money market security may fall if the financial health of the issuer weakens, or the market believes it may weaken. This risk is greater the lower the credit quality of the bond.

Derivatives risk Derivatives use exposes the Fund to risks different from, and potentially greater than, the risks associated with investing directly in securities and may therefore result in additional loss, which could be significantly greater than the cost of the derivative.

Hedging risk Measures designed to reduce the impact of certain risks may not be available or may be ineffective.

Interest rate risk When interest rates rise (or fall), the prices of different securities will be affected differently. In particular, bond values generally fall when interest rates rise. This risk is generally greater the longer the maturity of a bond investment.

Liquidity risk Any security could become hard to value or to sell at a desired time and price, increasing the risk of investment losses.

The full list of the Fund's risks are contained in the "Risk Warnings" section of the Fund's prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of managing and distributing it. These charges reduce the potential growth of your investment.

If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially to those shown in this document.

One-off charges taken before or after you invest*

Entry Charge 0.00%

Exit Charge 0.00%**

*The charges shown are maximum figures. In some cases you may pay less.

** Subject to a charge of up to 3.00% where the Manager suspects excessive trading by an investor (and specifically on subscriptions held for less than 90 days).

Charges taken from the Fund over a year

Ongoing Charges 0.24%

The ongoing charges are based on last year's expenses for the year ending 31 May 2016. Ongoing charges may vary from year to year.

The figure for ongoing charges excludes portfolio transaction costs, except in the case of an initial charge paid by the Fund when buying shares or units in another fund.

For more information about charges, please see the "Charges" section of the Fund's prospectus.

Past performance

The past performance is calculated in GBP.

The Fund was launched in May 1997 and the share class was launched in February 2009.

Past performance is not a guide to future performance.

The past performance shown in the chart takes into account all charges except entry charges.

Practical information

Trustee: National Westminster Bank Plc.

To obtain more information: This Key Investor Information Document may not contain all the information you need.

For the last published price of units in the Fund, or to obtain the annual/semi-annual report, please visit
