As of 31/10/2023

Investment Returns over 5 Years

Investment Objective

The Fund seeks to achieve a total return comprised of income and capital growth, over 5 years.

Investment Policy

The Fund invests in different asset classes worldwide, including company shares, commodities, cash instruments, real estate (such as property) and investments issued by banks or governments that are a short-term loan to the issuer by the buyer. The fund will therefore contain more than one asset class in its portfolio. (cash, equity, bonds, derivatives*), as well as investments into other, carefully selected third-party funds managed by specialist fund managers.

*The value of a derivative is dependent on an underlying asset/investment.

There is no guarantee that the Fund will achieve its objective over any particular period or at all.

To help investors compare funds with broadly similar characteristics, the Investment Association (the trade body that represents UK investment managers) has grouped many funds sold in the UK into sectors. This Fund is classified in the Investment Association Mixed Investment 20-60% shares sector. Investors can use this sector to assess the Fund's performance.
