

abrdn Short Dated Global Inflation-Linked Bond Tracker Fund

B Accumulation GBP

31 March 2024

Objective

To generate income and some growth over the long term (5 years or more) by tracking the return of the Bloomberg World Government Inflation-Linked 1-10 years Index (Hedged to GBP).

Performance Target: To match the return of the Bloomberg World Government Inflation-linked 1-10 years Index (Hedged to GBP) (before charges). There is no certainty or promise that the Performance Target will be achieved. Bloomberg World Government Inflation-Linked Index (Hedged to GBP) (the "Index") is a representative index of the global market for inflation-linked government bonds.

Portfolio Securities

- The fund will invest at least 90% in government bonds (which are like loans to government that pay interest) that make up the Index.
- The fund may also invest in other funds (including those managed by abrdn), cash and assets that can be turned into cash quickly.
- The fund can invest 35% or more in bonds issued by a single government.

Key risks

- The value of investments and the income from them can fall and investors may get back less than the amount invested
- Tracking Error Risk - The fund may not perform fully in-line with the index which it is tracking because of factors which may include transaction costs, timing and holding mismatching, or in the event of extreme market disruption.
- Currency Hedged Indices Risk - Due to timing differences, currency hedging applied to the fund may differ to that of the index. This may mean that the fund's performance deviates from that of the index.
- Credit Risk - The fund invests in securities which are subject to the risk that the issuer may default on interest or capital payments.
