Scottish Widows Environmental Investor A

Acc

Fund Objective

To provide capital growth through investment in shares of UK companies that demonstrate a commitment to the protection and preservation of the natural environment. The benchmark index for the Fund is the FTSE All-Share Index (the "Index"). The Fund is actively managed by the Investment Adviser who chooses investments with the aim of outperforming the Index by 3% per annum on a rolling 3 year basis before deduction of fees. The FTSE All-Share Index has been selected as an appropriate benchmark as it provides a representation of the returns of securities in the UK equity market. This allows the Investment Adviser to select shares that meet the Fund's environmental criteria from a diverse range of UK shares. Quarterly Fund Manager Review

UK equities rose over the quarter. UK small and mid-cap indices outperformed the broader market as domestically focused stocks performed very strongly. This occurred as hopes built further that interest rates may have peaked and amid a continued pick-up in overseas “inbound” bids for smaller UK companies. Some of the large internationally exposed and economically sensitive areas of the market also performed well, especially in the industrial and financial sectors. More generally, however, larger companies were held back as sterling performed strongly against a weak US dollar. UK inflation moderated more than expected over the period with the Office for National Statistics (ONS) revealing that the consumer prices index had dropped to 3.9% in November. This contributed to hopes that the Bank of England may have finished its series of interest rate hikes. Meanwhile, revised data from the ONS revealed UK GDP fell in Q3, having previously showed zero growth. Chancellor of the Exchequer Jeremy Hunt announced an Autumn Statement that contained more policy measures than many had expected. Key initiatives included the extension of the 100% capital expenditure allowance, which allows companies to deduct expenditure on plants and machinery from taxable income.
