## KEY RISKS

The value of an investment in the Fund can go down as well as up and possible loss of principal is a risk of investing. Investments in international, emerging and frontier market securities may involve risks such as social and political instability, market illiquidity, exchange-rate fluctuations, a high level of volatility and limited regulation, which may adversely affect the value of the Fund's assets. Investing in Chinese securities involve risks. Heightened risks related to the regulatory environment and the potential actions by the Chinese government could negatively impact performance. The Fund invests in holdings denominated in foreign currency, and is exposed to the risk that the value of the foreign currency will increase or decrease. The Fund invests primarily in equity securities, which may result in increased volatility. Investments in a single-country fund may be subject to a higher degree of market risk than diversified funds because of concentration in a specific country. The Fund invests in smaller companies, which are more volatile and less liquid than larger companies. Pandemics and other public health emergencies can result in market volatility and disruption. These and other risks associated with investing in the Fund can be found in the Prospectus.

## MATTHEWS ASIA

Matthews Asia believes in the long-term growth of Asia, one of the world's fastest-growing regions. Since 1991, we have focused our efforts and expertise in these countries, investing through a variety of market environments. Matthews Asia employs a bottom-up, fundamental investment philosophy with a focus on long-term investment performance. As of 31 March 2024, Matthews Asia had US\$8.4 billion in assets under management.

- 2 Holdings may combine more than one security from the same issuer and related depositary receipts.
- 3 Percentage values in data are rounded to the nearest tenth of one percent; the values may not sum to 100% due to rounding. Percentage values may be derived from different data sources and may not be consistent with other Fund literature.
- 4 Equity market cap of issuer. The Portfolio's market cap exposure breakdown presented is used for comparison purposes and the definition of the capitalization breakdown is from MSCI. The Fund defines Small Companies as companies with market capitalization no higher than the greater of US\$5 billion or the market capitalization of the largest company included in the Fund's primary benchmark, the MSCI China Small Cap Index.
- 5 Active Share is calculated by taking the absolute value of the difference between portfolio holdings and benchmark weights, summing all of these differences, and dividing by two. The calculation will result in an active share number between 0%, which indicates the portfolio perfectly replicates the benchmark, and 100%, which indicates there is no overlap whatsoever between the portfolio and the index. Active Share was calculated including cash held in the Fund.
- 6 The P/E Ratio is the share price of a stock as of the report date, divided by the forecasted earnings per share for a 12-month period (FY1) or a 24-month period (FY2). For the Fund, this is the weighted harmonic average estimated P/E ratio of all the underlying stocks in the Fund, excluding negative earners. There is no guarantee that the composition of the Fund will remain unchanged, or that forecasted earnings of a stock will be realized. Information provided is for illustrative purposes only.
- 7 A measure of the market's expectations of a firm's future financial health. Because this measure deals with cash flow, the effects of depreciation and other non-cash factors are removed. Similar to price/earnings ratio, this measure provides an indication of relative value.
- 8 Price-to-Book Ratio (P/B Ratio) is used to compare a stock's market value to its book value. It is calculated by dividing the current closing price of the stock by the latest quarter's book value per share. A lower P/B ratio could mean that the stock is undervalued.
- 9 Return on Equity (ROE) is the amount of net income returned as a percentage of shareholders equity. Return on equity measures a corporation's profitability by revealing how much profit a company generates with the money shareholders have invested, and is calculated as net income divided by shareholder's equity.
- 10 Earnings Per Share (EPS) is the amount of annual profit (after tax and all other expenses) attributable to each share in a company. EPS is calculated by dividing profit by the average number of shares in a company. Earnings growth is not a measure of a fund's future performance.
- 11 **Mainland China listed Companies** include A Shares and B Shares. **A Shares** are Mainland Chinese companies incorporated in China and listed on the Shanghai or Shenzhen exchanges, available mostly to local Chinese investors and qualified institutional investors. **B Shares** are mainland Chinese companies listed on the Shanghai and Shenzhen stock exchanges, available to both Chinese and non-Chinese investors. **ADRs** are American Depositary Receipts and **GDRs** are Global Depositary Receipts. **Hong Kong Listed Companies** include SAR (Hong Kong) companies, China-affiliated corporations, and H Shares. SAR companies are companies that conduct business in Hong Kong and/or mainland China. China-affiliated corporations [CAC], also known as "Red Chips," are mainland China companies with partial state ownership listed in Hong Kong, and incorporated in Hong Kong. H Shares are mainland Chinese companies listed on the Hong Kong exchange but incorporated in mainland China. **Other** represents Chinese companies listed in other countries or non-China companies with a majority of revenue coming from China such as Japan, Singapore, Taiwan and the United States or other non-China companies.

Overall Morningstar Ratings are reflective of the USD Accumulation Share class.

Fund ratings represent an opinion only and are not a recommendation to buy or sell any fund.

The MSCI China Small Cap Index is a free float-adjusted market capitalization-weighted small cap index of the Chinese equity securities markets, including H shares listed on the Hong Kong exchange, B shares listed on the Shanghai and Shenzhen exchanges, Hong Kong-listed securities known as Red Chips (issued by entities owned by national or local governments in China) and P Chips (issued by companies controlled by individuals in China and deriving substantial revenues in China), and foreign listings (e.g., ADRs). Index is for comparative purposes only and it is not possible to invest directly in an index.

## IMPORTANT INFORMATION

*This is a marketing communication. This document is not a Prospectus/Offering Document and does not constitute an offer to the public. No public offering or advertising of investment services or securities is intended to have taken effect through the provision of these materials. Investors should carefully consider the investment objectives, risks, charges and expenses of the Fund before making an investment decision. The current prospectus, Key Information Document or Key Investor Information Document, or other offering documents ("Offering Documents") contain this and other information. Please refer to the Offering Documents before making any final investment decisions.*

The Fund is a sub-fund of Matthews Asia Funds, an umbrella fund, with segregated liability between sub-funds, established as an open-ended investment company with variable capital and incorporated with limited liability under the laws of Luxembourg. It is authorised by the Commission de Surveillance du Secteur Financier (CSSF) as a UCITS and is registered for public offer and sale in certain jurisdictions only. Not all share classes are registered in each jurisdiction. **GENERALLY NOT FOR SALE IN THE U.S. OR TO U.S. PERSONS.**

Matthews Asia is the brand for Matthews International Capital Management, LLC and its direct and indirect subsidiaries.

Investing in emerging and frontier securities involves greater risks than investing in securities of developed markets, as issuers in these countries generally disclose less financial and other information publicly or restrict access to certain information from review by non-domestic authorities. Emerging and frontier markets tend to have less stringent and less uniform accounting, auditing and financial reporting standards, limited regulatory or governmental oversight, and limited investor protection or rights to take action against issuers, resulting in potential material risks to investors.

This material does not constitute or contain an offer, solicitation, recommendation or investment advice with respect to the purchase of the Funds described herein or any security. Prospective investors should carefully review the information contained in the Offering Documents and consult their professional legal, tax and financial advisers as to the suitability of any investment in light of their particular circumstances and applicable citizenship, residence or domicile, including any tax or foreign exchange control restrictions. The Fund's shares may not be sold to citizens or residents of the United States or in any other state, country or jurisdiction where it would be unlawful to offer, solicit an offer for, or sell the shares. No securities commission or regulatory authority has in any way passed upon the merits of an investment in the Fund or the accuracy or adequacy of this information or the material contained herein or otherwise. Neither this factsheet nor the Offering Documents have been approved in any jurisdiction where the Fund has not been registered for public offer and sale. Application for shares may only be made by way of the Fund's most recent Offering Documents. To obtain the Offering Documents, please contact Matthews Asia or your financial professional. Please read the Offering Documents carefully before investing. Fees and expenses vary among Funds and share classes.

The information contained herein has been derived from sources believed to be reliable and accurate at the time of compilation, but no representation or warranty (express or implied) is made as to the accuracy or completeness of any of this information. Matthews Asia and its affiliates do not accept any liability for losses either direct or consequential caused by the use of this information.

Portfolio characteristics for the Fund may vary from time to time from what is shown. It should not be assumed that any investment in the securities listed was or will be profitable.

Matthews International Capital Management, LLC is the Investment Manager to the Matthews Asia Funds, and is a U.S.-based investment adviser registered with the U.S. Securities and Exchange Commission who has not represented and will not represent that it is otherwise registered with any other regulator or regulatory body. Registration does not imply a certain level of skill or training.

In Singapore, this document is available to, and intended for Institutional Investors under Section 304 of the Securities and Futures Act. It should not be circulated or distributed to the retail public in Singapore. This advertisement has not been reviewed by the Monetary Authority of Singapore.

In the UK, this document is only made available to professional clients and eligible counterparties as defined by the Financial Conduct Authority ("FCA"). Under no circumstances should this document be forwarded to anyone in the UK who is not a professional client or eligible counterparty as defined by the FCA.
