## Long Income Funds

Data as at: **31 January 2021**

Published: **February 2021**

TIME:Commercial Long Income has continued to maintain an impressive performance against the IA UK Direct Property sector, maintaining a top quartile position over the one, three and five year period to 31 January 2021.

## Continuation of suspension

The ACD and the Depositary have, in accordance with FCA rules, agreed to maintain the suspension of the Funds from 30 September 2020 on the new basis of liquidity risk and have notified the FCA of this decision. It is currently unclear how long the suspension will continue as it is linked to a number of factors including cash levels, future capital commitments, asset marketability, the FCA consultation and projected investor funds flows. However, our primary consideration is to act in the best interests of all shareholders. The decision whether to remain suspended is under continuous review and we shall continue to report this to the FCA at least every 28 days.

## Fund aim

The aim of the Fund is to offer shareholders a consistent income stream with some capital growth prospects through acquiring property with long leases including commercial freehold ground rents and commercial freehold property which benefit from long leases.

## Fund characteristics

### Income consistency

Our properties aim to generate consistent income. This is achieved through long, high quality tenancies, the financial strength of the tenants, and/or an over-collateralised ground rent structure.

### Inflation protection

Around 95% of rent reviews are linked to inflation or have a fixed uplift, rather than being subject to open-market negotiation. The majority of the rent reviews are upwards only.

### Diversified portfolio

The portfolio is made up of properties around the UK, across many different sectors of the economy.

### Lower volatility

The Weighted Average Lease Term (WALT) is more than five times greater than many traditional UK commercial property funds. This removes significant uncertainty in valuation around the potential loss of tenants.

### Track record

The TIME group has a long track record in long income property and manages over £3 billion of UK long income property assets.

### Capital growth

The fund may benefit from capital value increases in its property portfolio. This can happen in several ways, such as rental growth, lease extensions and yield shift.

### Featured asset - DHL

In July 2019, TIME:Commercial Long Income acquired the site and committed to the purchase of a distribution facility let to DHL. The initial land value was £15.5 million and the second payment of £51.5 million was made in October 2020 upon completion of the construction of the property. The rent review structure is 5 yearly increase set at 2% per annum compounded, and the Net Initial Yield for the acquisition was 4.39%. The property is located in the East Midlands, south of Leeds and in close proximity to Workson, Nottinghamshire. The property benefits from strong road links being close to the A57 and the A1 and M1.

## Fund manager commentary

### Fund manager commentary

TIME:Commercial Long Income has continued to maintain an impressive performance against the IA UK Direct Property sector, maintaining a top quartile position over the one, three and five year period to 31 January 2021. The value of the Fund's shares increased by 0.30% for the month of January 2021. This is the sixth successive monthly increase in the valuation and reflects a stabilisation in the long income market.

With the ongoing COVID-19 pandemic and the country experiencing another lockdown there remains significant uncertainty which is affecting the economic recovery. The Fund is well positioned with its long income investments across highly attractive sectors.

The property portfolio of the Fund will next be valued by the independent valuer on 28 February 2021.

Rental collection rates throughout the COVID-19 period have been in excess of 80% of the rent due and this remains the case for the most recent quarter (Q4 2020). Some tenants have been allowed to defer their rent in the COVID-19 period with repayment expected during 2021, and we remain in ongoing discussions with those tenants. Operational pressure remains and some tenants may still require support. Any concessions impact the income received by the Fund in the short to medium term, and consequently the income distributions, but by supporting tenants through this difficult period, the Fund is focused on the value of its property portfolio in the long term.

The Fund's income for the quarter to 31 December 2020 of 0.85% (based on the Class A Gross Accumulation shares) will be paid on 26 February 2021. The Fund's total return over the year to 31 January 2021 was -0.79%\*, comprising an income return of 3.17 % and a capital loss of 3.96% (\*based on the Class A Gross Accumulation Shares).

### Outlook

We are pleased to report that the Fund has continued to outperform its traditional commercial property OEIC peers. The main reasons for this outperformance are the specific features of long income (including the high Weighted Average Lease Term (WALT) married with tenant quality) and also the lack of exposure to high street retail and shopping centre retail. As noted in the Fund commentary, a proportion of the rental payments have been deferred during the COVID-19 period with the rest waived or not due for payment as a result of a CVA (Travelodge).

Therefore on current expectations it is expected that income distributions will be around 15% to 20% lower than usual but following this we expect distributions to be back at normal (historical) levels in the middle of 2021 as some deferred amounts start to be recovered.

Whilst uncertainty remains and there is always the possibility of further capital value decreases, the Fund and its property portfolio is well positioned and we anticipate the positive performance in property values to continue, with an annual income return of between 3% and 3.5%.

### FCA consultation on open-ended property fund structures

The Financial Conduct Authority (FCA) has proposed a consultation on open-ended property funds <https://www.fca.org.uk/news/press-releases/fca-consults-newrules-improve-open-ended-property-fund-structures>. The FCA has proposed that longer redemption periods would benefit investors. We have submitted our response to the FCA as part of this consultation process, which was open until 3 November 2020. Following the consultation, the FCA intends to publish its findings this year.

### HMRC consultation on ISA investment in open-ended property funds

HMRC has recognised that the FCA's consultation proposals may run contrary to ISA legislation, which requires ISA investors to be able to access their funds or transfer them to another ISA within 30 days of making an instruction to their ISA manager. Under current legislation such property funds would no longer be ISA eligible investments.

In order to mitigate the impact on ISA holders if the FCA's consultation proposals are introduced, HMRC is considering whether to allow existing ISA investments in open-ended property funds to remain within the ISA, while potentially prohibiting 'new' ISA investments in such funds.

The HMRC consultation closed on 13 December 2020, with its findings expected to be published in 2021.

### Fund suspension

The ACD and the Depositary have, in accordance with FCA rules, agreed to maintain the suspension of the Fund from 30 September 2020 on the basis of liquidity risk and have notified the FCA of this decision.

The Fund has been suspended since 18 March 2020 as a result of material uncertainty in the Fund's independent valuers' opinion of property values, caused by the outbreak of COVID-19. On 30 September 2020 the independent valuer removed material uncertainty from its valuation of the Fund's property portfolio. However, the ACD and Depositary have agreed that it is in the best interests of shareholders to continue the suspension in dealing in the Fund's shares (and the units of its feeder trust, ARC TIME Commercial Long Income Feeder Trust) on the basis of liquidity risk.

TIME:Commercial Long Income is currently holding cash of around 9% of NAV. From discussions with our existing investors and having reviewed recent activity in comparable funds, we believe the Fund may need to reach around 20% cash before it will be in a position to reopen. The Fund has further sales in solicitors' hands that will see it exceed this threshold. Consequently, we are expecting to be in a position to reopen the Fund during March 2021 once sufficient sales have been completed. As we go through this process, all decisions will continue to be taken in the best interests of shareholders.

The Fund will continue to be managed in accordance with its investment objective and will pay its quarterly distributions in the normal manner, with the next distribution to be paid on 26 February 2021. We will also continue to publish daily prices, which can be viewed at [www.time-investments.com](http://www.time-investments.com) so you can value your investment. However, any dealing instructions we receive during this period of suspension will be rejected until such time as the suspension on dealing in the Fund is lifted. We recommend that investors wishing to discuss future subscriptions and redemptions in the fund reach out to their local Business Development Manager on 020 7391 4747. For more information as it becomes available, including our Q&A, please visit our website [www.time-investments.com](http://www.time-investments.com).

We understand that the suspension of dealing may be causing concern for investors in the Fund. We can assure you that we are striving to do all we can to bring further clarity to the situation as soon as possible. All decisions will continue to be taken in the best interests of shareholders. For individual shareholders, should you require any further assistance please do not hesitate to contact our Client Services Team on 0345 600 1213 or by e-mailing [enquiries@time-investments.com](mailto:enquiries@time-investments.com).
