7IM Personal Injury Fund

As at 31 January 2020

INVESTMENT OBJECTIVE

The fund aims to provide a long-term return (at least 5 years) from investment in a range of asset classes. The fund has been designed to be potentially suitable for investment by or on behalf of individuals who have been granted personal injury awards but is not restricted to such persons.

INVESTMENT PROCESS

Our process begins with the formulation of a strategic asset allocation. This asset allocation is reviewed regularly based on our assessment of current economic, political and market conditions. These investment decisions are implemented predominantly with active and passive securities.

WHAT YOU NEED TO CONSIDER

Prior to investing, you need to consider the level of risk you are prepared to take, how much growth you want to achieve, and over what time period. If you have a long time to grow your investments you might be able to ride out market ups and downs better than someone who needs their money in just 5 years. You should regularly reassess the suitability of your investments to ensure that they continue to meet your investment goals and suit your time horizon. You should be aware that there can be no guarantees. The value of investments may go up and down and you may get back less than you invested originally.

TARGET MARKET

This fund is aimed at investors who have identified their own risk tolerance, using a financial adviser and/or a risk tolerance questionnaire, and understand the potential range of returns, in the majority of scenarios, which this fund may experience, with no guarantee. It should be considered a long term investment (at least five years) and is not appropriate for investors seeking guaranteed returns or no loss of capital over any time period.
