*Source: Morningstar, NAV to NAV basis, Net Income Reinvested, Net of Fees. *Performance data for periods less than 1 year is illustrated on a cumulative growth basis. The Fund's performance is measured against the performance of the FTSE World Europe ex-UK Index (the "Benchmark") which the manager of the Fund has assessed to be the most appropriate Benchmark for targeting performance. The performance of the Fund seeks to match or exceed the Benchmark performance. The Fund is not constrained by the Benchmark as the Fund has flexibility to invest in securities and asset classes not included in the Benchmark. The Fund will only invest in securities and asset classes listed in the Fund Prospectus or Fund Supplement. IA Sector performance data are post-tax returns that take into account the taxes a hypothetical investor pays on fund distributions and capital gains. The returns from your investment may be affected by changes in the exchange rate.

Glossary

Active Share measured as a percentage, active share is the degree of deviation in holdings between a portfolio and its benchmark. Active share of a portfolio is calculated as half the sum of the absolute active weights of all securities in a portfolio and its benchmark. For portfolios without shorts, the statistic ranges from 0% (index tracker) to 100% (no overlap with index). The higher the number, the more "active" the manager is.

Alpha represents the return of a portfolio that is attributable to the manager's investment decisions.

Beta measures a fund's sensitivity to movements in the overall market.

EPS represents the fiscal period earnings per share (EPS) for the period.

Information ratio represents the value added by the manager (excess return) divided by the tracking error.

The **Ongoing Charges** represent the ongoing costs to the fund from one year to the next which includes but is not limited to the fund's annual management fees, professional fees, audit fees, custody fees and custody transaction fees. It
