INVESTMENT OBJECTIVE

The fund aims to provide a balance of income and capital growth.

INVESTMENT PROCESS

Our process begins with the formulation of a strategic asset allocation. This asset allocation is reviewed regularly based on our assessment of current economic, political and market conditions. These investment decisions are implemented predominantly with active and passive securities.

WHAT YOU NEED TO CONSIDER

Prior to investing, you need to consider the level of risk you are prepared to take, how much growth you want to achieve, and over what time period. If you have a long time to grow your investments you might be able to ride out market ups and downs better than someone who needs their money in just 5 years. You should regularly reassess the suitability of your investments to ensure that they continue to meet your investment goals and suit your time horizon. You should be aware that there can be no guarantees. The value of investments may go up and down and you may get back less than you invested originally.

TARGET MARKET

This fund is aimed at investors who have identified their own risk tolerance, using a financial adviser and/or a risk tolerance questionnaire, and understand the potential range of returns, in the majority of scenarios, which this fund may experience, with no guarantee. It should be considered a long term investment (at least five years) and is not appropriate for investors seeking guaranteed returns or no loss of capital over any time period.

IMPORTANT INFORMATION

The specific details of the funds including investment policy, charges and the particular risks associated with the funds are explained in the Prospectus and Key Investor Information Documentation (KIIDs) – a link to these is available via the 7IM website (www.7im.co.uk).

- ‡ Please allow up to 10 working days after the Distribution Date for dividends to be processed and applied to individual client accounts.
- † Ongoing Charges Figure includes 7IM Annual Management Charge. Source: KIIDs 26/08/2020.
- * The Average Annual Guideline Return (AAGR) is based on investments being held for a period of 5 years or longer. This data is based on long-term forecast asset class data. Forecast returns are not a reliable indicator of future performance. The AAGR is quoted gross of fees. If the AAGR is achieved, the return you actually receive will be lower, due to the effect of the fees and charges detailed in the Key Information section of this document, as well as any other fees payable to your Financial Adviser.
- ** 7IM's funds are mapped against a selection of third party risk profiling tools to assist advisers as part of suitability assessments for clients. Such tools are however only one aspect of an adviser's suitability process and other such as the clients' investment term / horizon and knowledge and experience should also be considered. The methodology of third party risk profiling tools is not endorsed by 7IM and individual fund risk profiling scores may not correspond precisely to the risk indicators in the 7IM fund literature.
