Ratings

Note: Awards and ratings are highlighted to demonstrate our investment capabilities. Past performance is not a guide to future returns.

Fund objective

The investment objective is to provide a combination of income and capital growth over any seven year period.

Performance

Investors are invited to compare the fund's performance against the performance of other funds within the Investment Association Sterling Corporate Bond Sector. Comparison of the fund against this sector will give investors an indication of how the fund is performing compared with funds investing in a similar but not identical investment universe and comprising ethical and non-ethically screened funds, demonstrating the value of the fund's ethical screen against non-ethically screened funds.

The comparison should be performed over at least a seven year period to provide the most useful long-term comparison.

Past performance does not predict future returns.

Risk factors

This fund is intended to be a long-term investment and your capital is at risk. Any investment objective, performance benchmark and yield information should not be considered as an assurance or guarantee of the performance of the fund or any part of it. An initial charge reduces the amount available for investment. Investors should be aware that funds denominated in a currency other than investors' home state currency are subject to currency fluctuations which may decrease returns. Please be aware that each fund presents its own risk profile. Material risks for this fund are: Credit, Interest Rate and Liquidity. Please read the KIID for an explanation and refer to the prospectus for information about all relevant risks.

This is a marketing communication. Past performance is not a guide to future performance. The value of investments and the income from them may go down as well as up and is not guaranteed. Outcomes, including the payment of income, are not guaranteed.

The Distribution Yield is also the Underlying Yield for this fund.

Fund charges are deducted from income but will be deducted from capital where income is insufficient to cover charges.

Costs may increase or decrease as a result of currency and exchange rate fluctuations

The Distribution Yield reflects the amounts that may be expected to be distributed over the next twelve months as a percentage of the mid-market unit price of the fund as at the date shown. It is based on a snapshot of the portfolio on that day. It does not include any preliminary charge and investors may be subject to tax on distributions. We calculate yields in compliance with the industry standard formula we are obliged to use which takes no account of potential future defaults. This may mean that, depending on future economic factors, the actual yield could be less than those shown.

The Underlying Yield reflects the annualised income net of expenses of the fund (calculated in accordance with relevant accounting standards) as a percentage of the mid-market unit price of the fund as at the date shown. It is based on a snapshot of the portfolio on that day. It does not include any preliminary charge and investors may be subject to tax on distributions.

Please read the Key Investor Information, Supplementary Information Document and Application Form carefully, particularly the section on Risk Factors. The Key Investor Information, Prospectus and accounts are available on our website www.aegonam.com or by calling our investor helpline on 0800 358 3009 or in writing from Aegon Asset Management UK plc, Sunderland, SR43 4BR.
