Fund Objective

The objective of the Fund is to replicate, as closely as possible and on a “gross of fees” basis, the return of the Japan equity market as represented by the FTSE Japan ex Controversies ex CW ex Tobacco ex Thermal Coal (10%) Index, net of withholding taxes (or its recognised replacement or equivalent).

Investment Strategy

The Fund seeks to hold all of the securities of the index, with the approximate weightings of the index. The Fund may also invest in transferable securities, money market instruments, warrants, units in collective investment schemes, deposits and derivatives. The Fund may invest in collective investment schemes managed or operated by companies in the same group as the Manager or the Investment Adviser.

The index includes a negative screen that excludes securities from the index based on four criteria: (1) controversial weapons (including chemical & biological weapons, cluster munitions, anti-personnel landmines), (2) controversies as defined by the ten principles of the UN Global Compact, (3) Tobacco and (4) Thermal Coal.
