## Fund objective

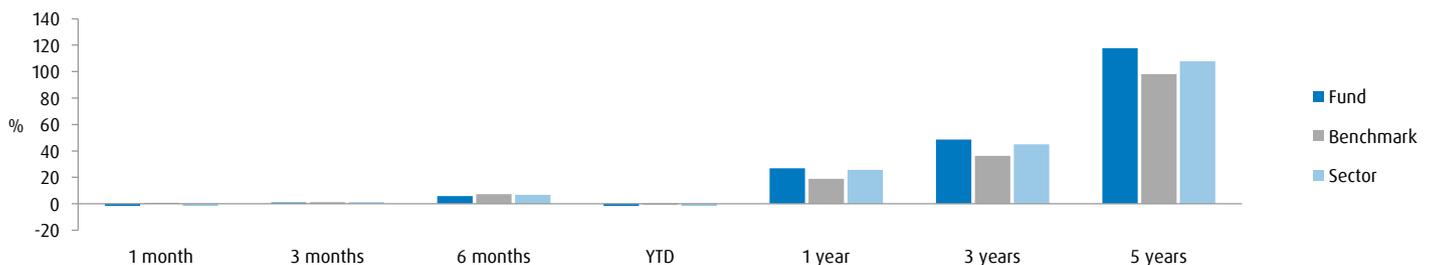

The Fund objective is to provide long-term capital growth. It seeks to achieve this by investing in companies screened against defined responsible and sustainable criteria, including exclusions on tobacco, alcohol, weapons, gambling, nuclear and pornography. The Fund also requires companies to meet sector standards on social and environmental impacts, including systems for managing labour standards, human rights, supply chains, environmental impacts, water, waste and biodiversity.

## Risk warning

The value of your investments and any income from them can go down as well as up and you may not get back the original amount invested. Screening out sectors or companies may result in less diversification and hence more volatility in investment values.
